Mining Sector

All Mining Paths:

WHAT IS A MINERAL DOMESTIC REPORTING UNIT?

A mineral domestic reporting unit is a

- representation of all oil and gas field activities in one state or offshore area operated by the reporting company.
- location where mineral operations are performed.
 - It represents a mine, group of wells, preparation plant, or natural gas liquids plant. (Report all gas processed, products, operating costs, and capital expenditures on a gross basis of the natural gas liquids plant.)
 - It represents a working or group of workings at a given locality in which operations are conducted as a unit or are unified by common management or joint handling of some parts of the mining or processing/concentration/preparation process.
 - Individual shafts, openings, or sites should not necessarily be considered as individual mines.
 - Examples of mineral domestic reporting units include:
 - mine only (underground, strip-pit, auger, culm-bank, or dredge operation) (Report open-pit mines separately from underground mines, whenever possible.)
 - mine and processing plant
 - mine and preparation plant (plants engaged in milling, washing, calcining, crushing, classifying, or other types of mineral preparation)

- State offshore includes the areas extending from the coastline up to 3 geographical miles distance except for Texas and Florida, which extend 3 marine leagues from the coastline in the Gulf of Mexico.

Separate questionnaires are required for lease and land acquisitions of mineral rights if they are located in a county different than any domestic reporting unit operated. Include a designation of the kind of mineral expected to be produced. Such acquisitions may be included in the questionnaires of the nearest operating domestic reporting unit if the domestic reporting unit is located in the same county as the acquisition and produces the same type of mineral.

MULTIPLE DOMESTIC REPORTING UNIT COMPANIES ONLY

If any of the items requested are maintained in your records only at a divisional or company level, allocate their costs to each domestic reporting unit for which you received this questionnaire. For further details on selected items, see below:

- **ITEM 5:** When determining transfer values of products and materials from one domestic reporting unit to another (interplant transfers), include, in addition to direct costs of production, a reasonable proportion of "all other costs (company overhead) and profits." The domestic reporting units receiving such transfers should report them as purchased minerals for preparation, supplies, fuels, or electric energy at the same value plus cost of freight and other direct handling charges. (See **ITEM 16**.)
- **ITEM 7:** When determining employer's cost for fringe benefits, you may distribute the total based on the ratio of the payroll of each domestic reporting unit to the total company payroll unless you have developed your own method of making such allocations.
- **ITEM 9:** When determining inventories, assign to each domestic reporting unit those inventories that the domestic reporting unit is responsible for as if it owned them. **INCLUDE** those inventories that are held elsewhere, such as a warehouse operated by your company or a public warehouse. The inventories of an operating domestic reporting unit held elsewhere should not be reported on the report of the warehouse where they may be actually stored. Inventories should **not** be duplicated on domestic reporting unit questionnaires.
- **ITEM 14:** When determining rental payments, if this domestic reporting unit maintains a tenant relationship with the parent company or one of its subsidiaries and pays "rent" for the use of either its buildings or equipment, exclude the value of this rent from **ITEM 14**. If this domestic reporting unit uses buildings or equipment rented directly from other companies, but rental payments are handled centrally at a company or division level, report the share of overhead charged to this domestic reporting unit or estimate the share of rental charges appropriate to the operations of this domestic reporting unit in **ITEM 14**.

- **ITEM 16:** When determining selected expenses, if supplies, minerals for processing, fuels, and electric energy are received from other domestic reporting units of your company, check the cost against the values reported by the domestic reporting unit transferring the supply (*refer to ITEM 5 instructions*). Add freight and other direct handling charges.

Provide a summation of all establishments prelisted in item **33A** that are in operation or temporarily inactive, minus the establishments closed or sold, plus the establishments added in item **33B**.

A. Pre-identified Locations of Operation

We prelisted physical locations of your company that are part of this consolidated reporting unit based on Census records. Please bring this list up to date as follows:

LOCATION INFORMATION – Please correct any errors or omissions in the prelisted information. If the major activity listed is not the major activity of the location, correct the major activity and do not include this location in the count, item **33**.

EMPLOYMENT AND PAYROLL – Report the number of employees and payroll for each establishment. Do not combine data for locations. If employees work at more than one location, report employment and payroll for employees at the ONE location where they spent most of their working time.

OPERATIONAL STATUS – Check the ONE option that best describes the operational status of the establishment at the end of 2022.

- **In operation** – The establishment was open and actively conducting business on December 31, 2022.
- **Temporarily or seasonally inactive** – Although not conducting business at the end of 2022, the establishment will eventually reopen and conduct business under the same Employer Identification Number (EIN). Examples include businesses in resort areas that close during the “off-season” or establishments that temporarily close for remodeling.

- **Ceased operation** – The establishment has gone out of business or closed and does not plan to reopen. Provide the **month, day, and year** that the establishment ceased operation. Complete all items for the portion of 2022 during which the establishment was in operation.
- **Sold or leased to another operator** - The establishment was sold or leased to another company or organization. Provide the **month, day, and year** that the change occurred and indicate the name and address of the new owner or operator. Complete all items for the portion of 2022 prior to the change in operator.
- **Other** - The establishment's operational status at the end of 2022 is not accurately described above. Please describe the establishment's operational status in the space provided.

B. Additional Locations of Operation

Provide additional establishments not prelisted in item **33A** that operate in the industry identified in the *Industry* field on the *Location Information* screen.

If your company operates at locations for which you received separate establishment reporting instrument(s), do not add them, but rather complete the other reporting instruments(s).

LOCATION INFORMATION - List separately any locations of your company and its subsidiaries that were not included in item **33A** but were in operation and engaged in the industry identified in the *Industry* field on the *Location Information* screen.

EMPLOYMENT AND PAYROLL - Report the number of employees and payroll for each establishment. Do not combine data for locations. If employees worked at more than one location, report employment and payroll for employees at the ONE location where they spent most of their working time.

MAJORITY ACTIVITY CODE - Select the two-digit code from the MAJOR ACTIVITY CODES list that best describes the major activity of each location. Please specify the principal products or services.

FORMER OWNER OR OPERATION INFORMATION - Provide the name and address of previous owner and date of purchase for each **acquired** establishment listed.

2022 Economic Census Instructions Construction Sector

All Construction Paths:

The Construction Sector of the 2022 Economic Census covers domestic operations of establishments primarily engaged in these broad types of activities:

***BUILDING CONSTRUCTION** by general contractors, specialty trade contractors, design-builders, developers, or construction managers.

***HEAVY CONSTRUCTION** includes work on non-building structures, such as highways, utility related structures, and water projects by general contractors, specialty trade contractors, design-builders, developers, or construction managers.

***LAND SUBDIVISION** represents subdividing and servicing of raw land into lots for sale by a landowner to a builder.

***SPECIALTY TRADE CONTRACTORS** represent specialty trade activities, such as plumbing, electrical, masonry, carpentry, painting, excavation, flooring, glass, metal, or concrete work, and other construction activities performed on building and non-building structures.

CONSTRUCTION INCLUDES - (a) new or original construction; (b) additions, alterations, rehabilitation, remodeling, or reconstruction; and (c) maintenance, repair, or service work.

REPORT DATA AT THE ESTABLISHMENT LEVEL

A construction establishment is a relatively permanent office, or other place of business, where the usual business activities related to construction are conducted. Generally, a relatively permanent office is one which has been established for the management of more than one project or job and which is expected to be maintained on a continuing basis. Establishment activities include, but are not limited to estimating, bidding, scheduling, purchasing, and supervising of the actual construction work being done at one or more construction sites. Examples of construction establishments are –

- the office or branch office of a construction contractor or builder, even if the office is in your home.
- the office or shop of a special trade contractor who specializes in activities such as plumbing, painting, carpentry, etc.
- a construction division or subsidiary of a manufacturing, mining, or other business company, which undertakes construction for the parent company or others.
- a separate legal entity which has been established to carry out a given project, part of a project, or to undertake a construction project as a joint venture.

FOR MULTI-ESTABLISHMENT COMPANIES AND SUBSIDIARIES

If any of the items requested are maintained in records at a divisional or parent company level, allocate the cost to each construction establishment for which you received a questionnaire. For example, value of inventories (item 9) and value of building and equipment assets (item 13) owned by the parent company should be assigned to each establishment that the establishment is responsible for as if it owned them. In the case of building and equipment, if the establishment is a tenant or lessee, rental costs in item 14 should be adjusted accordingly. Expenses in item **16C1-16C11**, incurred by the parent on behalf of the establishment should be allocated to each establishment on an appropriated basis (e.g. the ratio of the payroll of each construction establishment to the total company payroll or revenues). The costs should not be duplicated on any establishment reports. Separate reports are required for each establishment.

ITEM 5: SALES, SHIPMENTS, RECEIPTS, OR REVENUE

Sales, shipments, billings, receipts, or revenue from business operations in foreign countries or outside the 50 states and the District of Columbia do not report in Item 5.

Include:

- Work on new construction, additions, alterations, reconstruction, maintenance, repairs, and service work.
- Receipts or billings for construction work under any type of contract – general, special trade, design-build, construction management, engineer-construct, turnkey, etc.

Payroll should equal the taxable Medicare wages and tips reported on the Internal Revenue Service (IRS) Form 941, Employer's quarterly Tax Return, and definitions as described in Circular E, Employer's Tax Guide. If legal form of organization for this business is corporation, reporting other payroll is required. If payroll and employment for this EIN are zero, please indicate if EIN is a joint venture in Item 31, Remarks.

Include:

- All permanent, full-time, or part-time employees.
- Salaried officers and executives of a corporation.
- Employees on paid sick leave, paid holidays, and paid vacations.

ITEM 7B: HOURS WORKED

Report hours worked only for the construction workers reported in **Item 7A1**.

Include:

- Hours worked during four specific pay periods including the 12th of March, June, September, and December 2022.
- Overtime hours as actual hours worked not as straight-time equivalent hours.

Exclude:

ITEM 9: INVENTORIES OF THIS ESTABLISHMENT AT END OF YEAR

Report the value of all inventories of materials and supplies that are owned by this establishment or assigned to it at the end of 2022 and 2021 regardless of where the inventories are held. If this establishment is part of a multi-establishment company, the parent company should assign to each establishment those inventories that the establishment is responsible for as if it owned them and this establishment should include the value of inventories in this report. Inventories should not be duplicated on any establishment reports. Report inventories using current cost (if using LIFO method of evaluation, adjust to obtain FIFO or current cost).

ITEM 13: ASSETS, CAPITAL EXPENDITURES, RETIREMENTS, AND DEPRECIATION

Item 13A. Depreciable assets are the buildings, structures, machinery, and equipment owned by this establishment or its parent for which depreciation accounts are ordinarily maintained. If this establishment is part of a multi-establishment company, the parent company should assign to each establishment building and equipment that the establishment is responsible for as if it owned them. This establishment should include these as part of its beginning balances, additions, and disposals as appropriate as well as the allocation of related depreciation expenses. For example, if this establishment maintained a tenant relationship with the parent company or a subsidiary, and paid "rent" for the use of either buildings or equipment, do not report the value of this "rent". Instead, in item 13A report the gross value of the assets made available to this establishment as a result of this "rental" agreement as if the establishment owned them.

Include:

- Assets acquired through capital leases. If any building or equipment has been acquired under a capital leasing arrangement that meets the criteria set down by the Financial Accounting

Standards Board (FASB), please report the original cost or market value as a fixed asset and as a capital expenditure if acquired in 2022. If the lease qualifies as an operating lease, do not include the value of the building and equipment as a fixed asset or capital expenditure.

- Assets acquired or produced to be leased to others as the lessor under an operating lease.
- Capital expenditures for construction in progress incurred in prior periods. Report current capital expenditures in Item 13B even if not completed and operational.

Exclude:

- The cost of land, also **INCLUDE** the value of land development.
- Assets leased to others under capital lease arrangements.

Item 13B, Capital expenditures include current expenditures for property, equipment, and capital improvements that were or will be chargeable to the fixed asset accounts and for which depreciation accounts are ordinarily maintained. Additions to construction-in-progress for company owned projects lasting more than one year that will be added, as depreciable assets should be reported currently rather than once the project has been completed and is in use. Include the cost of capital improvements that were made during 2022 which increased the value of property or adapted it for another use. Capital expenditures for leasehold improvements (made to property leased from others) are also included. Include the value of depreciable assets acquired through mergers and acquisitions.

Item 13C, Gross value of depreciable assets sold, retired, lost, or otherwise disposed of should also include acquisition cost of transfers or depreciable assets to assets held for sale and reductions in value due to impairment.

ITEM 14: RENTAL PAYMENTS

If this establishment is part of a multi-establishment company or a subsidiary rented property for the use of this establishment and paid the rent, the rent should be reported in item 14 as if the establishment paid it. However, if this establishment rented buildings or equipment from the parent or affiliate as a tenant, then the value of assets should be reported in item 13. Exclude capital leases (leases with a contract to own at the end of the lease) as well as rentals of assets owned by parent reported in item 13.

ITEM 16: SELECTED EXPENSES

This section is intended to complete a comprehensive reporting of operating costs and expenses incurred by this establishment not already identified for collection on the instrument. Certain costs of construction and expenses were already collected in item 7, item 13, and item 14 on the instrument.

ITEM 16A, LINE 1. COST OF MATERIALS, PARTS, AND SUPPLIES

Report job-site, general office, and all other material, part, and supply costs relating to the construction and other business activities of this establishment.

Include:

- Equipment purchased by this establishment that was installed in a building as an integral part of its structure, such as elevators, heating and air conditioning equipment, etc.
- Costs after discounts for the materials, parts, and supplies that were purchased by this establishment or obtained from other establishments of your company.

- Freight and other direct charges for the materials, parts, and supplies used in 2022.
- Expendable tools that were charged to current accounts in 2022.

ITEM 16A, LINE 2. COST OF CONSTRUCTION WORK SUBCONTRACTED OUT

Include your payments to subcontractors for construction work.

Exclude the cost of non-construction work subcontracted out unless it is incidental to the primary construction activities of the subcontractor. Services such as abatement, refuse removal, design work or surveying should be reported in 16C.

ITEM 16B, Normal depreciation charges for the year relating to the assets allocated to the reporting establishment by a parent or affiliate

ITEM 16C, OTHER OPERATING EXPENSES

Include costs for each of these goods and services purchased from other companies that are paid directly or incurred by a parent or affiliate for this establishment and have not been reported elsewhere in the form.

Exclude:

- Salaries paid to employees of this establishment for any professional and/or technical services. These

should be reported in item 7.

- Materials, parts, and supplies used for repairs and maintenance performed by this firm's employees.

- Lease and rental payments for equipment, building, other structure, or land by this establishment and reported item 14, Rental Payments.

- Cost of construction activities subcontracted to others and reported in item 16A, line 2.

- Cost of any utility payments if payments are included

in a lease or rental payment and reported in item 14 or energy reported in item 16A, line 3.

- Income taxes, purchases of merchandise for resale, bad debts, impairment charges, interest and other non-operating expenses.

ITEM 22: DETAILS OF SALES, SHIPMENTS, RECEIPTS, OR REVENUE

Include all sales, shipments, receipts, revenue, or value of business done reported in Item 5, SALES, SHIPMENTS, RECEIPTS, OR REVENUE broken out in details. Show dollars received by types of buildings, structures, or facilities constructed or worked on by construction establishments in the reporting year in which establishments received construction and non-construction receipts for activities, products, services only. This question requests that the amount reported in Item 5, be broken down by type of construction and non-construction activities for the dollar value reported in Item 5. Pick the appropriate construction projects and

non-construction activities and report the specific dollar amount for each applicable type of construction and non-construction activities done by the establishment for the reporting period of 2022.

For example,

If establishment has amount of \$125,000 total receipts for item 5, SALES, SHIPMENTS, RECEIPTS, OR REVENUE, where total amount is broken out as construction activities of \$75,000 receipts for new detached single-family houses, \$20,000 receipts for additions, alterations, and reconstruction for attached single-family houses, and \$5,000 receipts for maintenance and repair work for attached single-family houses, with the remaining non-construction activity of \$25,000 receipts for snow plowing service, report dollar values by the various receipt details. You would allocate each dollar you reported for construction receipts into the appropriate product category according to the categories: new constructions; construction services for new building or structures; construction service for additions, alterations, and reconstruction; and construction services for maintenance and repair work. You would also report the non-construction activity of snow plowing into the appropriate non-construction product category.

For the example explained above, you would report the \$75,000 as constructions for new detached single-family houses, the \$20,000 as construction services for additions, alterations, and reconstruction, and the \$5,000 as construction services for maintenance and repair work. Then report the remaining \$25,000 as snow plowing service, a non-construction activity.

If you worked on more than one type of building or structure in a multipurpose complex, report separately for each building or type of structure. However, if you worked on a building that had more than one purpose, i.e., office, residential, or commercial, classify this building by its major purpose. If you worked on combined sewer-water-storm drain projects, report each separately if estimates can be made. If not, report the entire project under the major purpose. If you were involved in concrete work, excavating or earthmoving work, report separately the type of buildings or structures for which the work was done.

New Constructions

-include all components of the entire original building or structure. Land development work on the site and demolition of existing structures are included with new constructions.

Construction services for new building or structures

-include separate components of the original building or structure, such as electric work, painting, plumbing, etc.

Construction services for additions, renovations, and alterations to buildings or structures

-include construction work which adds to the value of useful life of an existing building or structure, or which adapts a building or structure to a new or different use. Included are “major replacements” of building systems such as the installation of a new roof or heating system, and the resurfacing of streets or highways. Exclude activities such as the repair of a hole in a roof or the routine patching of highways and streets, which are classified as “maintenance and repair work”.

Construction services for maintenance and repair of buildings or structures

-include incidental construction work that keeps a property in ordinary working condition. Exclude trash and snow removal, lawn maintenance, and janitorial services.

ITEM 23A: KIND OF BUSINESS ACTIVITIES

Kind of business activities reported in item 23 should be consistent with item 5 and also item 22 data reported. The sum of the all the percentages reported in item 23 should sum to 100%, and the details dollar amounts allocated for construction activities in item 22, should equal the percentage amount obtained for item 23A, when the total dollar value of construction activities in item 5 and item 22 is divided by the total amount reported in item 5.

For example,

if you reported \$75,000 in item 22 for construction activities dollar value and \$100,000 in item 5 total dollar value, then the sum of the percentages reported in item 23A should equal 75%. Then sum of the percentages reported in 23B for other business activities should equal the percent obtained when the dollar value \$25,000 for non-construction activities in item 22 is divided by that of item 5 total dollar value, then the sum of the entries in 23B should equal 25%.

ITEM 23A: CONSTRUCTION WORK ACTIVITIES

Report only the main activities for which you were contracted. Work which was incidental to the primary activities of jobs should not be reported separately.

For example,

If you were contracted to design and build, do not separate out the design part from the construction work.

In **Item 23A. CONSTRUCTION WORK ACTIVITIES** report only the main activities for which you were contracted. Work which was incidental to the primary activities of jobs should not be reported separately.

For example,

- If you were contracted to design and build, do not separate out the design part from the construction work.
- If you were contracted to shingle a roof, do not separate out incidental gutter and downspout installation.
- If you were working as a general contractor, do not separate out carpentry work, excavation work, etc.
- If this establishment engaged in construction activities that are not listed on the form, please enter a description of the construction activity in the “Other kinds of construction” write-in box, along with a percentage of the total value of business for that specified activity.

ITEM 23B: OTHER BUSINESS ACTIVITIES

Report any non-construction activities. If the activity is not listed on the form, please enter a description of the non-construction activity in the “Other business activities” write-in box, along with a percentage of the value of total business for that specified activity.

ITEM 28A SPECIAL ITEMS: OWNERSHIP OF CONSTRUCTION PROJECTS

Work on interstate highways should be reported as state-owned construction

**2022 Economic Census
Instructions**

Manufacturing Sector

All Manufacturing Paths:

Every five years, the U.S. Census Bureau collects extensive statistics about businesses that are essential to understanding the American economy. This official count, better known as the Economic Census, serves as the foundation for the measurement of U.S. businesses and their economic impact. As part of the Census Bureau's mission to provide timely information on the health of the U.S. economy, this "business" census serves as the most extensive collection of data related to business activity. Nearly 4 million business locations, large, medium, and small, covering most industries and all geographic areas of the United States will receive surveys tailored to their primary business activity.

Before submitting your completed report, review all figures for consistency, and retain a copy for your records.

DEFINITION OF ESTABLISHMENT AND MANUFACTURING ACTIVITY

- An establishment is generally a single physical location where business is conducted or where services or industrial operations are performed. Further clarification is provided in Part 1, General Instructions.
- Manufacturing activity involves the mechanical, physical, or chemical transformation of materials, substances, or components into new products.
- The assembling of component parts of manufactured products is considered manufacturing, except in cases where the activity is appropriately classified in Sector 23, Construction. Further clarification is provided in Part 1, Section B.

Report separate data for each establishment.

Part 1 - GENERAL INSTRUCTIONS

The purpose of these instructions is to assist you in the completion of the 2022 Economic Census of Manufactures.

Report all value figures in thousands of dollars, electricity quantity figures in thousands of kilowatt-hours, and the number of employee(s) unrounded for the manufacturing establishment.

When actual book figures cannot be provided, reasonable amounts of estimating or prorating are acceptable.

Special instructions pertaining to companies with two or more manufacturing plants are preceded by the statement - *FOR MULTIPLE-ESTABLISHMENT COMPANIES ONLY* and are presented in italics. If your company consists of a single establishment; you may ignore the multi-establishment instructions.

A. Who Should Report

The Economic Census of Manufactures is conducted under an Act of Congress (Title 13, United States Code) which requires that a report be filed by every manufacturer who receives a report form.

If an establishment that is not in operation receives a report form, submit the form with a notation of its condition in **Item 3**, Operational Status. If the establishment had custodial employees, capital expenditures, inventories, or any shipments from inventories, these should be reported in their proper sections.

Separate reports are required for each manufacturing establishment (plant). An establishment is a single physical location where manufacturing is performed. If your company operates at different physical locations, even if they are producing the same line of goods, a separate report must be filed for each location.

If your company operates in two or more distinct lines of manufacturing at the same location, a separate report must be filed for each activity.

B. Manufacturing Activities

Report all activities (manufacturing, fabricating, processing, and assembling) conducted within the establishment.

INCLUDE:

- Maintenance of plant and equipment
- Receiving and shipping activities
- Warehousing and storage
- Research
- Recordkeeping
- Health and safety

- Cafeteria (without seating) and other services unless operated as separate establishments

EXCLUDE:

- Sales branches and sales offices
- Research laboratories
- Retail stores
- Mining activities and general administrative offices

The Manufacturing Sector also includes establishments engaged in the following activities:

- Apparel jobbing and contracting
- Assembling from purchased components
- Commission processing of materials owned by others
- Job casting, stamping, and machining
- Lapidary work
- Machine shops, including those operating on a job-order basis
- Manufacturing and delivering ready-mixed concrete
- Milk pasteurizing and bottling
- Plating, galvanizing, polishing, etc., of materials owned by others
- Poultry dressing
- Printing books, periodicals, etc.
- Repair of ships
- Research and development, engineering and other services directly related to aerospace industries
- Sawmills
- Seafoods, fresh-packaged or frozen
- Wood preserving

Descriptions of some of these activities are provided in **Item 22** of the DETAILED INSTRUCTIONS.

C. Economic Value

FOR MULTIPLE-ESTABLISHMENT COMPANIES ONLY

One of the important statistical measures of manufacturing activity is "value added by manufacture" which is derived by the U.S. Census Bureau from the figures reported for value of shipments, cost of materials, and inventories.

In order for statistics on value added and other subjects to be comparable from industry to industry, it is necessary that the operations of each establishment of a multiple-establishment organization be reported as though the establishment was a separate "economic" unit. This means that the value of interplant transfers and the cost of transferred materials within a company should include, in addition to direct costs of production, a reasonable proportion of "all other costs (including company overhead) and profits."

The establishment receiving such transfers should report them as materials consumed (or inventories of materials, etc.) at the same value plus the costs of freight and other direct handling charges. (See **Item 5**, line A, Shipments and Other Receipts; **Item 9**, Value of Inventories; and **Item 16**, line A, Selected Production Related Costs.)

D. Reporting Period

Report data for the calendar year. If calendar year figures are not available, reasonable estimates will be accepted. Indicate in **Item 31**, Remarks, the exact dates covered.

If an establishment began to operate or ceased to operate during 2022, report only the part of the year that the establishment was in operation. Report any changes in **Item 3**, Operational Status.

If the operator changed during the year, report only for that part of the year that your company operated the establishment. Report in **Item 3** the appropriate information on changes in **operator** or operational status. See part E for additional instructions.

E. Special Reporting Instructions for Establishments that Changed Ownership

The establishment may have been purchased singly or as part of a parent company which was acquired by or merged with another company. Please make certain that the date of the change in ownership is recorded in **Item 3**, Operational Status.

If you are filing for only part of the year, report as follows:

1. REPORT FOR THE OWNER WHO SOLD THE ESTABLISHMENT - Report values that occurred in the current year prior to the sale.
2. REPORT FOR THE BUYER - Report values that occurred after the original purchase of the entire plant.

F. Establishments Involved with Asset Leasing Arrangements

If any building or equipment has been acquired in 2022 under a capital lease, please report the cost (at the market value) as a capital expenditure in **Item 13**. Do not report the periodic payments made to the lessor. If the lease qualifies as an operating lease, do not include the value of the building and equipment as capital expenditures. Also, do not report the periodic payments made to the producer or the lessor as capital expenditures.

Note that the LIFO reserve is the difference between the current cost (e.g., First-In, First-Out (FIFO)) of inventories (gross value) and the LIFO carrying value (net value). If you calculate the LIFO carrying value of inventories by specific goods LIFO (unit LIFO), please estimate the current cost of inventories for the purpose of determining the LIFO reserve.

In completing the report of a manufacturing establishment or sales branch, INCLUDE those inventories that are held elsewhere, such as a warehouse operated by your company or in a public warehouse. The inventories of an operating establishment held elsewhere should not be reported on the report of the warehouse where they are actually stored. Inventories should not be duplicated on establishment reports.

Appendix: Special Instructions for Select Industries:

Below is a list of manufacturing activities that are **inside the scope of the Manufacturing Sector**.

Establishments whose activity spans these areas should review their specific section carefully and note **any special product reporting instructions** that may be particular to their products.

AEROSPACE INDUSTRIES (3364)

These instructions recognize that the assignment of product shipment values by the aerospace industries differs from that followed by most manufacturing industries. Most contracts within the aerospace industries are variations of “fixed price” or “cost plus.” These instructions are designed to ensure that products are reported consistently in **Item 9** or **Item 22**.

Fixed price contracts – Work performed under a fixed price contract should be reported as a shipment when delivery of the product occurs. The cumulative value of the products being manufactured should be included in inventories gross of progress payments until delivered. (These inventories should not be reduced by the amount of any progress payment.)

Cost plus contracts – The value of work done on a cost-plus contract should reflect cost incurred during the year as well as a portion of the profits for the contract. Value of work done may be based on (a) the estimated work completed during the year as a percentage of the total contract price or (b) net billings for work done during the year. This value should be reported for the value of products shipped. Any work done during the year that has not been reported as a shipment should be reported in work-in-process inventories.

Nonaerospace products – The value of nonaerospace products shipped and services performed should be based on the net selling value, f.o.b. plant, after discounts and allowances, and exclusive of freight charges and excise taxes.

Include products made elsewhere for this establishment on a contract basis from materials supplied by this establishment (the cost of these materials should be included in **Item 16**, lineA1).

When transferring products to other establishments within your company, the shipping plant should assign the full economic value of the transferred products, i.e., include all direct costs of production and a reasonable proportion of all other costs and profits.

YARN, TEXTILE and APPAREL MANUFACTURERS (313-315)

Jobbers and contractors, as well as manufacturers, are in scope of this survey and must report.

1. Jobber – You employ contractors to make products from fibers or fabrics you supply. You employ contractors to make knit products from yarns you supply.
2. Contractor – You make products from fibers, yarns, or fabrics that are supplied to you by other companies or by other establishments of your company.
3. Manufacturer – You make products from fibers, yarns, or fabrics that you own, regardless of whether you purchased, wove, knitted, or spun those materials. Note that as a manufacturer, you may or may not employ contractors to supplement your labor force.

Reporting of Contract Work

Products made for you by others from your materials -

- Manufacturers and jobbers should report such products as if they were made in their own establishment. The cost of materials is reported in **Item 16**, line A1, the cost of contract work is reported in **Item 16**, line A3, and the value of the value of product shipments is reported in **Item 22**.

Products that you made from materials owned by others -

- Contractors should report the amount received for work done on the appropriate Contract Manufacturing lines.

Products made by multi-establishment companies -

- If you knit or cut apparel in one plant and sew or finish the garment in another plant, the sewing or finishing plants should be treated as contractors to the knitting or cutting plant.
- The contract plants should report the value of work done during the survey year on the appropriate Contract Manufacturing lines.
- The plant in which the garments were knit or cut should report the value of the finished garments in **Item 22** and the cost of work done by the sewing or finishing plant in **Item 16**, line A3.

If your company has a central office or plant that purchases and maintains ownership of materials (yarn, fabrics, etc.) but ships those materials to other plants within your company to be knit or cut into garments, the central office or plant that owns the materials should report the cost of materials in **Item 16**, line A1, the cost of contract work in **Item 16**, line A3, and the value of shipments in **Item 22**. The contractor plants that receive the materials to be knit or cut into garments should report the value of work done on the appropriate Contract Manufacturing lines.

GARMENT MANUFACTURERS COVERED UNDER SPECIAL IMPORT CATEGORY "9802" (3152-3159)

Report value of shipments for garments produced within the 50 states of the United States, including garments covered under special import category "9802."

Those garments cut in the United States, sent abroad for sewing, and then shipped back into this country under the provisions of item 9802.00 of the Tariff Schedules of the United States should be reported in **Item 22** on the appropriate detailed product line.

Finished garments that you import, excluding "9802" garments, should be reported in **Item 22** on the appropriate Wholesaling product lines. If records are not kept separately on the shipments of imported garments, please estimate a breakout, and report the value of shipments of domestically produced garments on the appropriate detailed product lines of **Item 22** and the shipments of imported garments in the appropriate Wholesaling product lines.

LIQUOR DISTILLING – REPORTING "VALUE OF PRODUCTION" (31214)

Please note that for products included in the liquor distilling activities, the value of production rather than the value of shipments is to be reported. The value of production should equal the selling value f.o.b. plant (after discounts and allowances and excluding freight charges) of all products made during the survey year whether sold, transferred, added to inventory, or used in further processing. For products made during the survey year and transferred or held in inventory at the end of the year, estimate the value based on the average price received for similar products of the same grade sold during the year.

For liquors to be aged by you or otherwise placed in inventory prior to further processing or selling, report only the actual cost of producing and barreling the raw product, including the cost of materials, labor cooerage, and the pro rata share of overhead generally assigned to such production operations.

MEAT PROCESSORS (31161)

Meat processors should report the sales of fresh meats (not frozen, cooked, canned, smoked, cured, cut, or otherwise processed) prepared from purchased carcasses in the appropriate Wholesaling product lines.

PRINTING AND RELATED TRADES (3231)

PULP MILLS (32211)

Integrated operations consisting of pulp mills and primary paper and board mills need file only one report for both activities. In reporting in **Item 22**, account for interplant transfers for the wood pulp transferred to manufacturing establishments of your company at other locations. Exclude transfers of wood pulp to your paper or board mill at this location.

SEAFOOD PACKAGING – REPORTING “VALUE OF PRODUCTION” (311710)

Please note that for products included in seafood packaging, the value of production rather than the value of shipments is to be reported. The value of production should equal the selling value f.o.b. plant (after discounts and allowances and excluding freight charges) of all products made during the survey year whether sold, transferred, added to inventory, or used in further processing. For products made during the survey year and transferred or held in inventory at the end of the year, estimate the value on the basis of the average price received for similar products of the same grades sold during the year.

SHIPBUILDING AND REPAIRING (3366)

Report in **Item 22** the value of work done on all new ships and offshore oil platforms during the survey year. Include ocean, inland river, harbor, and Great Lakes ship construction. Include all vessels under construction during the year, regardless of when the keels were laid or whether the vessels were launched in survey year. For vessels on which work was begun prior to survey year or was not completed by the end of the survey year, report the value of work done only during survey year.

Include in value of work done the cost of labor, the cost of purchased materials and parts received during the year, overhead, and profits. Alternate methods of reporting the value of work done, in order of preference, are:

1. Multiply the estimated percentage of completion during survey year by the contract price of the vessel.
2. Net billings for work done during the survey year.

This value should be reported for the value of products shipped. Any work done that has not been reported as a shipment should be reported in work in process inventories (**Item 9**, line B).

Repair work done on ships, including conversions and reconversions – Report in **Item 22** the total receipts for repair work done during the survey year. For conversions and major repair jobs, the value of work done should be reported, using one of the suggested methods described above.

Wholesale Trade Sector

All Wholesale Paths:

DEFINITION OF WHOLESALE TRADE

The 2022 Economic Census covering the Wholesale Trade sector includes establishments primarily engaged in selling or arranging the purchase or sale of (a) goods for resale, (b) capital or durable nonconsumer goods, and (c) raw and intermediate materials and supplies used in production.

Most wholesale establishments exhibit the following characteristics:

- Wholesalers sell merchandise to other businesses.
- Wholesalers normally operate from a warehouse or office. These warehouses and offices are characterized by having little or no display of merchandise. In addition, neither the design nor the location of the premises is intended to solicit walk-in traffic.
- Wholesalers do not normally use advertising directed to the general public. Customers are generally reached initially via telephone, in-person marketing, or by specialized advertising that may include Internet and other electronic means.

If an establishment is NOT engaged in this kind of business, search for its business or activity in Item 4A and COMPLETE the survey as accurately as possible.

DEFINITION OF ESTABLISHMENT

An establishment is generally a single physical location where business is conducted or where services or industrial operations are performed.

ITEM 4A: PRIMARY BUSINESS OR ACTIVITY

Choose the ONE option that best describes this establishment's **primary** kind of business or activity in 2022. If none of the provided options seem appropriate, select "Other primary business or activity", select a sector, and provide a specific description of this establishment's primary business activity. Search for, and then select, the description that most closely matches this establishment's primary kind of business or activity.

ITEM 4B: TYPE OF OPERATION

Choose the ONE option that best describes this establishment's **primary** type of operation in 2022.

The products are either imported into the United States and then sold, or they are sold and then drop-shipped directly from a foreign location to the customer in the United States or its Foreign Trade Zones. (Note: When the products are drop-shipped from a foreign location, the customer will have already taken title to the goods before they enter the United States or its Foreign Trade Zones.)

Manufacturers' sales branch or office — An establishment owned by a firm or corporately affiliated with a manufacturer primarily engaged in selling goods mined or manufactured by the parent in the United States or its Foreign Trade Zones.

Number of Locations

Provide a summation of all establishments prelisted in item **33A** that are in operation or temporarily inactive, minus the establishments closed or sold, plus the establishments added in item **33B**.

A. Pre-identified Locations of Operation

We prelisted physical locations of your company that are part of this consolidated reporting unit based on Census records. Please bring this list up to date as follows:

LOCATION INFORMATION – Please correct any errors or omissions in the prelisted information. If the major activity listed is not the major activity of the location, correct the major activity and do not include this location in the count, item **33**.

EMPLOYMENT AND PAYROLL – Report the number of employees and payroll for each establishment. Do not combine data for locations. If employees work at more than one location, report employment and payroll for employees at the ONE location where they spent most of their working time.

OPERATIONAL STATUS – Check the ONE option that best describes the operational status of the establishment at the end of 2022.

- **In operation** – The establishment was open and actively conducting business on December 31, 2022.
- **Temporarily or seasonally inactive** – Although not conducting business at the end of 2022, the establishment will eventually reopen and conduct business under the same Employer Identification Number (EIN). Examples include businesses in resort areas that close during the “off-season” or establishments that temporarily close for remodeling.
- **Ceased operation** – The establishment has gone out of business or closed and does not plan to reopen. Provide the **month, day, and year** that the establishment ceased operation. Complete all items for the portion of 2022 during which the establishment was in operation.

B. Additional Locations of Operation

Provide additional establishments not prelisted in item **33A** that operate in the industry identified in the *Industry* field on the *Location Information* screen.

If your company operates at locations for which you received separate establishment reporting instrument(s), do not add them, but rather complete the other reporting instruments(s).

LOCATION INFORMATION - List separately any locations of your company and its subsidiaries that were not included in item **33A**, but were in operation and engaged in the industry identified in the *Industry* field on the *Location Information* screen.

EMPLOYMENT AND PAYROLL - Report the number of employees and payroll for each establishment. Do not combine data for locations. If employees worked at more than one location, report employment and payroll for employees at the ONE location where they spent most of their working time.

MAJORITY ACTIVITY CODE - Select the two digit code from the MAJOR ACTIVITY CODES list that best describes the major activity of each location. Please specify the principal products or services.

FORMER OWNER OR OPERATION INFORMATION - Provide the name and address of previous owner and date of purchase for each **acquired** establishment listed.

For example, if this establishment maintained a tenant relationship with the parent company or a subsidiary, and paid "rent" for the use of either buildings or equipment, do not report the value of this "rent."
