

limit. The GIS files must arrive no later than November 5, 2021.

Review Process and Evaluation Criteria

Proposals will be evaluated by the Brennan Matching Fund Program Management Team. Submissions will be ranked based on the following criteria:

1. *Project justification (30 points)*—This criterion ascertains whether there is intrinsic IOCM value in the proposed work and/or relevance to NOAA missions and priorities, including downstream partner proposals and uses. Use of, and reference to, national priorities on climate and infrastructure, NOMEAC, ACMS and the Coast Survey Ocean Mapping Plan (all available at <https://iocm.noaa.gov/about/strategic-plans.html>); gap assessment tools such as the U.S. Bathymetry Gap Analysis (<https://iocm.noaa.gov/seabed-2030-bathymetry.html>); and the U.S. Interagency Elevation Inventory (<https://catalog.data.gov/dataset/united-states-interagency-elevation-inventory-usiei>), among others, are recommended. Coast Survey's Hydrographic Health Model showing priority survey areas for navigation safety is available upon request. The U.S. Federal Mapping Coordination site shows current Coast Survey and NGS mapping plans (fedmap.seasketch.org); email iwgocm.staff@noaa.gov for assistance with the layers on this site if needed.

2. *Statement of need (10 points)*—This criterion assesses clarity of project need, partner project funding alternatives if not selected, anticipated outcomes and public benefit.

3. *Specified partner match (20 points)*—The proposal identifies a point of contact for the entity submitting the proposal, as well as any partnering entities, a clear statement on partner matching funds provenance (e.g., state appropriations, NGO funds, or other sources), and timing of funds availability. In-kind contributions are welcome to strengthen the proposal, but do not count toward the funding match and are not required.

4. *Project costs (15 points)*—This criterion evaluates whether the proposed budget is realistic and commensurate with the proposed project needs and timeframe. If needed, please contact iwgocm.staff@noaa.gov for a rough estimate of cost per square nautical mile for surveys in a particular region; this figure will not be exact, as actual cost will be negotiated by region and scale of project.

5. *Project feasibility and flexibility (25 points)*—This criterion assesses the likelihood that the proposal would succeed based on survey conditions at the proposed time of year, such as

project size, location, weather, NOAA analysis of environmental compliance implications, project flexibility and adaptability to existing NOAA plans and schedules, and other factors.

During the proposal review period, NOAA reserves the right to engage with proposal points of contact to ask questions and provide feedback on project costs and feasibility.

Management and Oversight

Once selections are made, NOAA will coordinate the development of the memoranda of agreement, funding transfers, project planning, environmental compliance, acquisition awards and quality assurance process. NOAA may bring in additional partners and/or funding (Federal and/or non-Federal) to expand a project further if feasible. Projects will be reviewed by NOAA on an annual basis to ensure they are responsive to partner interests and NOAA mission requirements, and to identify opportunities for outreach and education on the societal benefits of the work.

Authority: The Coast and Geodetic Survey Act of 1947, 33 U.S.C. 883e.

Kathryn Ries,

Performing the Duties of Director, Office of Coast Survey, National Ocean Service, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-JE-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Southeast Region Family of Forms

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps to assess the impact of information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public

comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received by September 27, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at adrienne.thomas@noaa.gov. Please reference OMB Control Number "0648-0016" in the subject line of your comments. Do not submit confidential business information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Rich Malinowski, National Marine Fisheries Service (NMFS), Sustainable Fisheries Division, 263 13th Avenue S, St. Petersburg, Florida 33701, phone: (727) 824-5305, email: rich.malinowski@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension and revision of a current information collection.

Participants in most federally managed fisheries in the NMFS Southeast Region are currently required to keep and submit catch and effort logbooks from their fishing trips. A subset of fishermen on these vessels also provides information on the species and quantities of fish, shellfish, marine turtles, and marine mammals that are caught and discarded or have interacted with the fishing gear. A subset of fishermen on these vessels also provides information about dockside prices, trip operating costs, and annual fixed costs. An intercept survey for vessels with Federal charter vessel/headboat permits is designed to support and validate the electronic logbooks.

The data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations. Interaction reports are needed for fishery management planning and to help protect endangered species and marine mammals. Price and cost data will be used in analyses of the economic effects of proposed and existing regulations.

Regulatory Amendment 29 effective July 15, 2020 would require at least one descending device to be on board and ready for use on commercial, for-hire, and private recreational vessels while fishing for or possessing snapper-grouper species in the South Atlantic.

Most recently the Descend Act was passed, which added a new section 321 to the Magnuson-Stevens Fishery Conservation and Management Act. This requires commercial and recreational fishermen to possess a venting tool or descending device that is rigged and ready for use when fishing for reef fish in the Gulf Exclusive Economic Zone.

Descending devices increase survivability from barotrauma, which is injury caused by internal gas expansion when reeled up from depth. In addition to being asked to report the number of fish released respondents would be asked to report the number of fish released with descending devices as part of their current logbook submissions. The purpose of asking respondents to distinguish between fish releases without descending devices and fish released with descending devices is to provide data needed by NMFS to accurately account for fishing mortality when performing stock assessments.

NMFS seeks to revise this collection to add an additional question to the recreational Headboat part of the collection to make it more consistent with the data collected through the commercial discard logbook. The new column (#DESCENDED) will be added to the (#KEPT) and (#RELEASED) columns that are currently on the form. This will provide fishermen an opportunity to report which unwanted fish will be released to the bottom of the ocean, providing them a better chance at survival.

II. Method of Collection

The information is submitted on paper forms and electronic transmissions. The intercept survey is collected through in-person interviews at verified landing locations.

III. Data

OMB Control Number: 0648–0016.

Form Number(s): None.

Type of Review: Regular submission (extension and revision of a current information collection).

Affected Public: Businesses or other for-profit organizations; individuals.

Estimated Number of Respondents: 6,971.

Estimated Time per Response: Annual fixed-cost report, 45 minutes; discard logbook, 15 minutes; headboat, charter vessel, golden crab, reef fish-mackerel, economic cost per trip, wreckfish, 10 minutes; no-fishing report for golden crab, reef fish-mackerel, charter vessels, and wreckfish, 2 minutes; installation of a vessel monitoring unit, 5 hours; landing location request and power-

down exemption request, 5 minutes; trip declaration, 2 minutes; and proposed intercept survey, 15 minutes.

Estimated Total Annual Burden

Hours: 69,752.

Estimated Total Annual Cost to

Public: \$1,706,211.

Respondent's Obligation: Mandatory.

Legal Authority: 16 U.S.C. 1801 *et seq.*

IV. Request for Comments

NMFS is soliciting public comments to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of the time and cost burden estimates for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. NMFS will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, NMFS cannot guarantee that will occur.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; AmeriCorps Program Life Cycle Evaluation—Opioid Recovery Coach Model Bundled Evaluation

AGENCY: Corporation for National and Community Service.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Corporation for National and Community Service, operating as AmeriCorps, has submitted a public information collection request (ICR) entitled AmeriCorps Program Life Cycle Evaluation—Opioid Recovery Coach Model Bundled Evaluation for review and approval in accordance with the Paperwork Reduction Act.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by August 26, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Copies of this ICR, with applicable supporting documentation, may be obtained by calling AmeriCorps, Xiaodong Zhang, at 703–251–0883 or by email to xiaodong.zhang@icf.com.

SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions;
- Propose ways to enhance the quality, utility, and clarity of the information to be collected; and
- Propose ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on May 17, 2021 at 26702–26703. This comment period ended July 16, 2021. No public comments were received from this Notice.

Title of Collection: AmeriCorps Program Life Cycle Evaluation—Opioid Recovery Coach Model Bundled Evaluation.

OMB Control Number: TBD. Type of Review: New.
