

## Administration for Native Americans Annual Data Report (ADR)

THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13): Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**Please Note:** Many of the questions in this form ask for a “total number” of people as well as a “new number.” The total number refers to all of the people that participated in a particular activity, whereas the new number refers to the individuals that were participating in the project for the first time and had not been counted before. For example, if a total of six individuals completed training X, but two of those individuals had already completed previous training(s) during the project, then the number of *new* people that completed training X would be four.

### A. IMPACT INDICATOR(S)

Your approved project impact indicator or indicators are identified below, as well as your pre-grant status (baseline measure), end-of-project target, three year target, and means of measurement.

Impact Indicator	Pre-Grant Status	End-of-Project Target	Three Year Post-Project Target	Means of Measurement
<i>[this whole table pre-filled, not editable by grantee]</i>				

1. For each impact indicator, please report on the actual change that has occurred so far. For example, if your impact indicator is the unemployment rate, list the actual unemployment rate at the end of the reporting period.
