This survey has a number of uses. The most important is the periodic revision of the Consumer Price Index. The Consumer Price Index provides cost of living and wage adjustments, social security payment adjustments, and helps determine the cost of school lunches.

Government and private agencies use the data to study the welfare of particular segments of the population. Economic policymakers use the data to study the impact of policy changes in the welfare of different socioeconomic groups. Researchers use the data in a variety of studies, including those that focus on the spending behavior of different family types and historical spending trends.

COLLECTED?
HOW MANY TIMES WILL YOU I BE INTERVIEWED?

I will be here a short time today to ask a few questions about your household. I will also drop off your diaries. How long it will take to write your expenses each day depends on how many things you buy. Some days, you may have nothing to record, other days may have a lot to record. It averages out to about 10 minutes a day.

After today, I will return in two weeks to pick up your completed diaries and ask a few final questions.

THIS SURVEY AUTHORIZED BY LAW?
Yes. The Bureau of Labor Statistics conducts the Consumer Expenditure Diary Survey under the authority of Title 29 of the U.S. Code. Congress authorizes the financial support for the CE survey through Public Laws 94-439 and 95-205.

The Census Bureau collects the CE data under the authority of Title 13, U.S. Code, Section 8b, which allows the Census Bureau to undertake surveys for other government agencies. Participation in the survey is voluntary. Under Title 13, the Census Bureau holds all information in strict confidence. We will not release information reported in the survey which would permit the identification of a household or any of its members to anyone outside of the Census Bureau.

1. Check to make sure all appropriate fields have been entered. If not display hard edit identifying
the item that has been missed.

Once the grid has been completed through hh_mem for all "active" members, do the following checks.
2. If no reference person (CU_CODE1 = 1) has been selected display hard edit message
" * No reference person has been selected.

A reference
person MUST be selected before you can continue.
(List
CU_CODE1 for row 1 and Fname $=999$ as the jumping point)
3. If more than 1 reference person (CU_CODE1 =1) has been selected then display hard edit message
" * More than 1 reference person has been selected.

There can
only be 1 reference person

Please verify and correct. "
(List CU_CODE1
for row 1 as the jumping point)
