

Instructions for Terrorism Risk Insurance Program (TRIP) 2022 Data Call Insurer (Non-Small) Groups or Companies

Form Overview

This reporting form is for insurers that are not classified as *Small Insurers*, *Captive Insurers*, or *Alien Surplus Lines Insurers*.

- Insurance groups or entities are exempt from reporting if they had less than \$10 million in TRIP-eligible DEP in 2021.
- If the insurance group or entity had both a policyholder surplus and TRIP-eligible direct earned premium (DEP) of less than \$1 billion (each) in 2020, the insurer should complete the Small Insurers template.
- If either a Captive Insurer or an Alien Surplus Lines Insurer is affiliated with a group, the experience of the insurer should be reported with that group on either this template or the Small Insurers template, depending upon the size category.
- If a Captive Insurer or Alien Surplus Lines Insurer is not affiliated with a group, it should complete the Alien Surplus Lines Insurers or Captive Insurers template as appropriate.

General Guidelines

- All information should be reported on a consolidated insurer group basis, unless reporting for a single insurer.
- When providing premium on a jurisdictional basis, premium should be allocated in the same fashion that it is for state reporting and premium tax purposes. Accordingly, coverage written on a non-admitted, surplus lines basis may be allocated in full to the home state of the policyholder, as defined by the Nonadmitted and Reinsurance Reform Act.
 - **Note:** This allocation method should not be applied on the Geographic Exposures worksheet, which seeks information based upon the location of the exposure, regardless of the manner in which the premium may have been allocated.
- When providing premium on a jurisdictional basis, for premium which is otherwise not allocable to a particular jurisdiction (e.g.: certain Ocean Marine, Inland Marine, and Aviation coverages; or coverages based upon foreign operations with a U.S. nexus), report this premium under "Other/Not Subject to Allocation in a Particular Jurisdiction."
- DEP should be included in this calculation to the extent that commercial property and casualty coverage is issued for losses occurring at the following locations: (1) Within the United States; (2) With respect to an air carrier (as defined in section 40102 of title 49, United States Code), or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States); and (3) At the premises of any U.S. mission.
- TRIP-eligible lines to be included in DEP calculations generally correspond to NAIC lines (as reported on the *NAIC Exhibit of Premiums and Losses*, commonly known as Statutory Page 14). The information reported on this worksheet should only include TRIP-eligible DEP. Any amounts

reported on Statutory Page 14 that are not within the scope of TRIP-eligible lines as defined by the Program regulations should not be reported here [see 31 CFR 50.4(w)]. Specifically:

- The property line Allied Lines (NAIC Line 2.1) should not include federal crop insurance or any other type of crop insurance privately issued or reinsured.
- Workers' Compensation (NAIC Line 16) data will be reported on the insurer's behalf by NCCI, the California WCIRB, and/or the New York CIRB. However, you must still report excess workers' compensation premium (identified as sub-type of insurance 16.003 on the NAIC's Uniform Property & Casualty Product Coding Matrix and otherwise reported under 17.3 as indicated).
- The liability line of Other Liability (NAIC Line 17) should not include Professional Errors and Omissions Liability Insurance [see 31 CFR 50.4(t)] or Excess Workers' Compensation Premium (which is entered separately as noted above).
- Information is sought concerning policies that will or would have responded to "certified acts of terrorism" during the reporting period. The fact that the policy did not in fact make payments for claims associated with any certified acts of terrorism is not relevant to the obligation to report information.
- For purposes of this data collection, reporting insurers do not need to make the premium adjustments in connection with residual market mechanisms provided for under 31 CFR 50.33.
- Policy count should be calculated based on the number of policies incepting in 2020 (or in effect for the entire year). For reporting other elements apart from DEP, where the reporting of information (e.g., exposures) under policies in effect during 2021 would result in double counting for the year as a whole, utilize a reporting date of December 31, 2021.
- Information subject to reporting under the Standalone Terrorism (Nationwide) Worksheet and Cyber (Nationwide) Worksheet should be considered a subset of an insurer's TRIP-eligible policies, and should also be reported on additional worksheets, as appropriate.
- All exposure information should be reported gross of any private reinsurance, except where otherwise indicated.
- Questions on the Reinsurance (Nationwide) Worksheet are limited to reinsurance purchased from unaffiliated third-party companies, and do not include reinsurance transactions within a group of affiliated insurers.
- Blacked out cells indicate that no data will be reportable for that particular cell.
- Hypothetical policy situations demonstrating proper data completion are available on the TRIP website (<https://home.treasury.gov/policy-issues/financial-markets-financial-institutions-and-fiscal-service/federal-insurance-office/terrorism-risk-insurance-program/annual-data-collection>).

Summary of Changes from 2021 Templates

- Cyber (Nationwide) Worksheet:
 - The 2021 Cyber (Nationwide) Worksheet has been replaced with an expanded worksheet which, in addition to the information previously requested, now also requests certain information for cyber policies written in non-TRIP-Eligible lines of insurance, cyber policy numbers and DEP as divided between small, medium, and large policyholders, and specific policy information and loss information in connection with cyber extortion (including ransom payment) coverage under cyber policies.
- Reinsurance (Nationwide) Worksheet:
 - Replaced modeled loss scenario.

Summary of Changes from 2021 Instructions

- Cyber (Nationwide) Worksheet:

- The instructions have been expanded to explain the nature of the reporting now expected in connection with the expanded Cyber (Nationwide) Worksheet.

Special Instructions for Completion of Cyber (Nationwide) Worksheet

- The changes to Cyber (Nationwide) Worksheet include the collection of certain data elements not previously requested by Treasury:
 - Lines 12-17: Premium and Number of Policies allocated by size of policyholder, measured by its Number of Employees;
 - Lines 21-24; Limits specific to Cyber Extortion and Ransom Payments; and
 - Lines 25-30; Loss information specific to Cyber Extortion and Ransom Payments.
- To the extent an insurer has not been collecting this information in connection with its operations and thus cannot capture this information, it is not required to provide this information in the 2022 TRIP Data Call. The determination **not** to report this information because of existing capabilities is subject to the same verification that an insurer provides that it is providing information “as a full and true statement of the information provided to the best of its knowledge, information and belief.” See 31 CFR 50.50(c)(1). Insurers that have been collecting the information should report the information, subject to the more detailed instructions below. Insurers may contact Treasury directly as to any issues posed by this expanded data collection.

Lines 27-36	Loss to Group or Company within TRIP Deductible, Private Reinsurance Recovery, Deductible/Retention of Insureds, Claim under TRIP, Co-Pay	The last series of questions seeks information as to how a particular defined loss event (Line 27) would likely affect the responding insurer group or reporting insurer, in terms of the total projected loss it would likely sustain (Line 28), with that amount divided into six categories: • Deductible or retention obligation of insureds under triggered policies (Line 30);

	Obligation	• Net loss to group or company within TRIP deductible, net of policyholder obligations or private reinsurance (Line 32); • Any private reinsurance recovery of amounts within the reporting insurer's deductible (Line 33); • Projected claims under TRIP (Line 34); • The net loss of the insurer group or reporting individual insurer above its deductible within the co-pay obligation (Line 35); and • Any private reinsurance recovery of amounts above the reporting insurer's deductible within the co-pay obligation (Line 36). • Use the definitions, instructions and assumptions found in the Worksheet at Line 27 and these Instructions. • Use the blast size within the 5-6 ton range that the insurer typically uses in connection with internal modeling projections. • If the insurer does not typically employ such scenarios, provide estimates using the parameters identified in Line 27. • If the insurer's exposure arises from a layered insurance program involving multiple carriers, in which the reporting insurer has assumed only a portion of the total loss sustained by the policyholder pro-rate the response amounts (including the deductible or retention obligations of the policyholder as requested in Line 31) based on the insurer's level of involvement in the layered program. • Not all reporting insurers will anticipate losses under the stated scenario. • Because the total projected loss (Line 30) is meant to be the sum of the various components identified in Lines 31-36, the figures entered in Line 30 must equal the sum of the figures entered in Lines 31-36.
