* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the

certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS' NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on January 23, 2017 (82 FR 7920). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

Public Health Advisor, Division of Workplace Programs.

SUPPLEMENTARY INFORMATION: The Department of Homeland Security (DHS) Headquarters (HQ) Hummingbird program is a U.S. Government program, initiated in July 2021 pursuant to the Presidential Memorandum on the Designation of the Department of Homeland Security as Lead Federal Department for Facilitating the Entry of Vulnerable Afghans into the United States and in support of Operation Allies Welcome (OAW). DHS, in coordination with the Department of State (DOS), is supporting screening, processing and resettlement efforts for individuals coming from Afghanistan who are neither U.S. citizens nor lawful permanent residents. This includes initial screening and vetting prior to entering the U.S., managing humanitarian parole, issuing special immigrant visas, processing at pre-designated U.S. military bases, applications for immigration status, work authorization, and essential coverage, and resettlement assistance. The legal authority for this program is provided under Section 402, of the Homeland Security Act of 2002, as revised (Pub. L. 107-296) (6 U.S.C. 202).

DHS remains committed to building a safe, orderly, and humane immigration system that upholds our laws and values. All information, including PII, entered by applicants and parolees into the Hummingbird system will be used by DHS employees and staff to

determine an applicant's eligibility to apply for a SIV through OAW, and to assist with processing and resettlement of parolees.

Hummingbird allows DHS to track applicants through applicable stages of case processing at U.S. military bases, view case information and applicant biodata, update and track completion of various processing activities on base, and use the searching and filtering capabilities to produce reports. Therefore, DHS is establishing the Hummingbird System.

The purpose of this effort is to provide centralized and standardized tracking and reporting for OAW, including resettlement progress. Afghans who are eligible for SIVs are those that took significant risks to support U.S. military and civilian personnel in Afghanistan, employed by or on behalf of the U.S. government or coalition forces in Afghanistan, or are a family member of someone who did.

The information, including PII, collected and used by the Hummingbird application on the ServiceNow platform will be able to be shared, disseminated, and viewed by the following:
