Multistate Conservation Grant Program; Priority Lists for Fiscal Years 2019, 2020, 2021, and 2022

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce receipt of the priority lists of wildlife and sport fish conservation projects from the Association of Fish and Wildlife Agencies (Association) for Federal fiscal years (FYs) 2019, 2020, 2021, and 2022. The Association is required by law to annually submit a list of priority projects to the Service for funding consideration under the Service's Multistate Conservation Grant Program (MSCGP), which funds projects that address regional or national priorities of State fish and wildlife agencies. The Assistant Director for the Service's Wildlife and Sport Fish Restoration program recommends projects on the list to the Service Director for approval. Once projects are awarded, we must publish each priority list in the **Federal Register**. The FY 2019, 2020, 2021 and 2022 projects have been awarded.

ADDRESSES: Lori Bennett, Multistate Conservation Grants Program, Wildlife and Sport Fish Restoration Program; U.S. Fish and Wildlife Service; 5275 Leesburg Pike; MS: WSFR; Falls Church, VA 22041–3808.

SUPPLEMENTARY INFORMATION:

Background

The Fish and Wildlife Programs Improvement and National Wildlife Refuge System Centennial Act of 2000 (Improvement Act; Pub. L. 106–408, Nov. 1, 2020) amended the Wildlife Restoration Act (16 U.S.C. 669 *et seq.*) and the Sport Fish Restoration Act (16 U.S.C. 777 *et seq.*) and established the Multistate Conservation Grant Program (now known as the Traditional MSCGP, or T–MSCGP). The Improvement Act authorizes us to award grants of up to \$3 million annually from funds available under each of the Acts, for a total of up to \$6 million annually. Projects are selected through a competitive process developed collaboratively by State fish and wildlife agency directors, conservation and sportsmen and sportswomen organizations, and industries that support or promote hunting, trapping, and recreational shooting. Projects can be funded under Wildlife Restoration, Sport Fish Restoration, or both, depending on the project activities. The projects to which we award grants must be on a list of priority projects recommended to us by the Association. The Service Director, exercising the authority of the Secretary of the Interior, need not fund all projects on the list, but all projects funded must be on the Association's recommended list. The Improvement Act provides that funding for MSCGP grants is available in the fiscal year it is appropriated and for the following fiscal year, with any funds remaining after two years apportioned among the States in the manner and for the uses specified under the Wildlife Restoration and Sport Fish Restoration Acts.

In addition to the Traditional MSCGP found in the Acts, the President signed the Modernizing the Pittman-Robertson Fund for Tomorrow's Needs Act (Pub. L. 116–94) into law on December 20, 2019. This law, among other measures, created a new Modern Multistate Conservation Grant Program, which makes available up to an additional \$5 million for projects designed to support recruitment, retention, and reactivation (“R3”) activities. The Service will cite this as the “Modern Multistate Conservation Grant Program” (R3–MSCGP).

The Association and the Service work cooperatively to manage the T–MSCGP and the R3–MSCGP. The Association sets project criteria, reviews grant applications, and provides project oversight, coordination, and guidance. Applicants must provide certification that no activities conducted under either a T–MSCGP or an R3–MSCGP

award will promote or encourage opposition to regulated hunting or trapping of wildlife, or to regulated angling or taking of fish. Eligible project proposals are reviewed and ranked by the Association's committees, who consult with interested nongovernmental organizations that represent conservation organizations, sportsmen and sportswomen organizations, and industries that support or promote fishing, hunting, trapping, recreational shooting, bowhunting, or archery. Their selections become the priority list that is submitted to the Service.

The Association's National Grants Committee recommends the final list of priority projects for both programs to the directors of the State fish and wildlife agencies for their approval by majority vote. By statute, the Association then transmits the final approved list to the Service for funding under the Multistate Conservation Grant Program by October 1 of each FY. The Service then provides an additional review process in accordance with grant regulations within 2 CFR part 200 and awards and administers the financial assistance grants.

Funding Eligibility

Traditional Multistate Conservation Grant Program Funding Eligibility

Recipients awarded under the T–MSCGP may use funds for sport fish or wildlife management and research projects, boating access development, hunter safety and education, aquatic education, fish and wildlife habitat improvements, and other purposes consistent with the enabling legislation.

To be eligible for funding, a project must benefit fish and/or wildlife conservation for at least 26 States, for a majority of the States in any one Service Region, or for one of the regional associations of State fish and wildlife agencies. Grants are awarded to one or more States, a group of States, or one or more nongovernmental organizations. For the purpose of carrying out the National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, we may award grants to the Service, if requested by the Association, or to a State or a group of States. The Association also requires that all project proposals address the Association's selected national strategic priorities for both MSCGPs, which are announced annually at the same time requests for proposals are sent out.
