

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*

If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

This U.S. Immigration and Customs Enforcement (ICE) Form I-352 “Immigration Bond” Forms PTA is being submitted for a three-year renewal.

The data collected on the form is being updated to allow ERO to add an additional field to capture the obligor’s email address in Part A, and also in Part B behind alien’s telephone #. Otherwise, no personally identifiable information (PII) changes will be made to this form.

An immigration bond is posted as security for performance and fulfillment of the bonded alien’s obligations to the Government. The data collected on Form I-352 “Immigration Bond” is used by ICE to ensure that the person or company posting the bond is aware of the duties and responsibilities associated with the bond. By completing this form, the bond obligor (either an individual or a surety company) provides a formal, written guarantee as security for the amount of the bond, thereby assuring DHS that all of the conditions of the bond will be fulfilled.

This form collects information about the bond obligor, the alien for whom the bond is furnished, DHS employees, and individuals who pledge bonds, notes, or cash. The complete list of data elements collected on this form can be found in the answer to Question 2e (below). Members of the public (i.e., bond obligors) complete and sign Form I-352 in person at a local ERO field office. Surety agents log into the electronic Bonds Online System (eBONDS) to complete and submit the I-352 to ERO.

- b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

The Immigration and Nationality Act, as amended, (8 U.S.C. 1103, 1183, 1226, 1229c, and 1363) authorizes the collection of information on this form. The Internal Revenue Code (26 U.S.C. 6109) and Executive Order 9397 authorize the collection of the Social Security

number (SSN). 8 U.S.C. 1103 and 1360 authorize collection of the Alien Registration Number (A-number), or Visa Number.

g. List the **specific authority** to collect SSN or these other SPII elements.

The Internal Revenue Code (26 U.S.C. 6109) and Executive Order 9397 authorizes the collection of the SSN. 31 U.S.C. 7701(c)(1) authorizes the collection of the TIN. 8 U.S.C. 1103 and 1360 authorize collection of the Alien Registration Number (A-number) or Visa Number.

h. How will this information be used? What is the purpose of the collection? Describe **why** this collection of SPII is the minimum amount of information necessary to accomplish the purpose of the program.

For cash bonds, the obligor's SSN is necessary to pay interest through the U.S. Treasury Department and to comply with Internal Revenue Service requirements to report interest payments. The obligor's, surety agent's, or surety company's SSN (in the case of a sole proprietor) or TIN will also be used for the purposes of collecting and reporting information on any delinquent accounts arising out of the individual's relationship with the Government.

ICE must collect the A-number as a means to properly identify the alien for whom the bond is being posted. ICE will not have A-Numbers for nonimmigrants who post Maintenance of Status and Departure (MS&D) bonds. Therefore, ICE collects the visa number from aliens who will be required to post MS&D bonds.

i. Are individuals provided notice at the time of collection	<input checked="" type="checkbox"/> Yes. Please describe how notice is provided.
