

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

a. Describe the purpose of the information collection or form. Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement). If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

This U.S. Immigration and Customs Enforcement (ICE) Form I-352 "Immigration Bond" Forms PTA is being submitted for a three-year renewal.

The data collected on the form is being updated to allow ERO to add an additional field to capture the obligor's email address in Part A, and also in Part B behind alien's telephone #. Otherwise, no personally identifiable information (PII) changes will be made to this form.

An immigration bond is posted as security for performance and fulfillment of the bonded alien's obligations to the Government. The data collected on Form I-352 "Immigration Bond" is used by ICE to ensure that the person or company posting the bond is aware of the duties and responsibilities associated with the bond. By completing this form, the bond obligor (either an individual or a surety company) provides a formal, written guarantee as security for the amount of the bond, thereby assuring DHS that all of the conditions of the bond will be fulfilled.

This form collects information about the bond obligor, the alien for whom the bond is furnished, DHS employees, and individuals who pledge bonds, notes, or cash. The complete list of data elements collected on this form can be found in the answer to Question 2e (below). Members of the public (i.e., bond obligors) complete and sign Form I-352 in person at a local ERO field office. Surety agents log into the electronic Bonds Online System (eBONDS) to complete and submit the I-352 to ERO.

b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

The Immigration and Nationality Act, as amended, (8 U.S.C. 1103, 1183, 1226, 1229c, and 1363) authorizes the collection of information on this form. The Internal Revenue Code (26 U.S.C. 6109) and Executive Order 9397 authorize the collection of the Social Security

number (SSN). 8 U.S.C. 1103 and 1360 authorize collection of the Alien Registration Number (A-number), or Visa Number.

Component Privacy Office Recommendation:

Please include recommendation below, including what existing privacy compliance documentation is available or new privacy compliance documentation is needed.

ICE Form 352, Immigration Bond PTA is being submitted for for a three-year renewal. Otherwise, no personally identifiable information (PII) changes will be made to this form. Because this form collects information from the surety agent, or company on behalf of the bonded alien, a Privacy Act notice is required. ICE Form 352, Immigration Bond, has coverage under the following PIAs and SORNs:

- DHS/ICE/PIA-005(a) Bond Management Information System 2009

DHS Privacy Office Comments:

Please describe rationale for privacy compliance determination above.

ICE is submitting this PTA to document that the ICE Form 352, Immigration Bond PTA is being updated to allow ERO to add an additional field to capture the obligor's email address in Part A, and also in Part B behind alien's telephone #. Otherwise, no personally identifiable information (PII) changes will be made to this form.

By completing Form I-352, the bond obligor (either an individual or a surety company) provides a formal, written guarantee as security for the amount of the bond, thereby assuring DHS that all of the conditions of the bond will be fulfilled. In addition to A-Number and visa number, the form collects information about the bond obligor, the alien for whom the bond is furnished, DHS employees, and individuals who pledge bonds, notes, or cash. Forms are stored electronically in EARM, BMIS Web, eBONDS, and the eBONDS SharePoint document repository.

PRIV finds that is a privacy sensitive system and a PIA is required because Form I-352 Immigration Bond collects PII from members of the public. PRIV agrees with ICE Privacy that coverage is provided by DHS/ICE/PIA-005 Bond Management Information System and the subsequent update, which discuss the lifecycle of immigration bonds. Coverage is also provided by DHS/ICE-PIA-015(b) EID EARM 3.0, which discusses the interfaces that provide data to EID in support of the electronic processing of immigration bonds and DHS/ICE/PIA-008 eBonds Online System, which covers the electronic Form I-352.

PRIV finds that a SORN is required because Form I-352 retrieves information by unique identifier. PRIV agrees with ICE Privacy that coverage is provided by DHS/ICE-004 Bond Management Information SORN, which covers records related to the administration and financial management operations of ICE's immigration bond program. Coverage is also provided by DHS/ICE-011 CARIER SORN, which covers

records collected to support the grant or denial of parole, and tracking of individuals who seek or receive parole into the United States, and DHS/USCIS/ICE/CBP-001 Alien File, which covers information collected as part of an individual's A-File.

Privacy Notice submitted with this PTA is approved.
