

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Privacy Threshold Analysis (PTA)

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

Form Number:	FEMA Form 086-0-31 (Previously FEMA Form 81-112)		
Form Title:	Statement of Voluntary Participation for Acquisition of Property		
	for Purpose of Open Space		
Component:	Federal Emergency Management Agency (FEMA)	Office:	Federal Insurance and Mitigation Administration (FIMA) Hazard Mitigation Assistance (HMA) Grants Policy

IF COVERED BY THE PAPERWORK REDUCTION ACT:

Collection Title:	Property Acquisition and Relocation for Open Space

SPECIFIC IC/Forms PTA OUESTIONS

1. Purpose of the Information Collection or Form

a. Describe the purpose of the information collection or form. Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).

If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

FEMA's FIMA submits this new PTA for FEMA Form 086-0-31 (previously FEMA Form 81-112) *Statement of Voluntary Participation for Acquisition of Property for Purpose of Open Space* which is part of the Office of Management and Budgets (OMB) Information Collection Request (ICR) Control No. 1660-0103.

Form 086-0-31, as part of ICR 1660-0103, supports the implementation of 44 CFR Part 80 and related property acquisitions by requiring the collection of information from grant applicants (States, the District of Columbia, U. S. Territories and Federally-recognized tribes applying as applicants) and sub-applicants (local governments, state agencies, state-recognized tribes and Alaskan villages applying as sub-applicants) to ensure that property acquisitions are voluntary, and that the acquired property remains open space in perpetuity. FEMA collects copies of the deed restriction language from Applicants as a pre-award requirement for mitigation grants to ensure that the deed to be recorded meets the minimum legal and program requirements.

FEMA Form (FF) 086-0-31, Statement of Voluntary Participation for Acquisition of Property For Purpose of Open Space is signed by both property owners and local community officials to enforce the requirement that all acquisitions using FEMA mitigation grants are voluntary, and that no property is acquired using State, Territorial, local, or Tribal eminent domain authorities or other forcible acquisition procedures per 44 CFR 80.11.

b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

FEMA published a Final Rule on Property Acquisition and Relocation for Open Space (44 CFR Part 80), governing property acquisitions under FEMA's three Hazard Mitigation Assistance (HMA) grant programs, on September 16, 2009. Of the three HMA programs, Pre-Disaster Mitigation (PDM) and the Hazard Mitigation Grant Program (HMGP), are authorized under Sections 203 and 404 of Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988, P.L. 93-288 (42 U.S.C. § § 5133 and 5170c), as amended. The Flood Mitigation Assistance (FMA) program is authorized under Section 1366 of the National Flood Insurance Act (NFIA) of 1968 (42 U.S.C. 4104c), as amended.

2.	Describe the IC/Form

	third party)?	

3. How will DHS store the IC/form responses?

- a. How will DHS store the original, completed IC/forms?
- ⊠ Paper. Please describe.
 - **FEMA Regional Offices collect and store paper** applications
- ⊠ Electronic. Please describe the IT system that will store the data from the form.

Data collected by this form for grants awarded under Hazard Mitigation Grant Program (HMGP) is stored in the HMGP System, a webbased data management system for collection, processing and storage of data and information that is used by grant Subapplicants or by Applicants to administer program information and grant applications under HMGP. Paper forms requiring the signature of participating property owners, are scanned and electronically filed by FEMA.

	Data for grants awarded under PDM or FMA is processed and stored in Mitigation (MT) eGrants, a two-part (External and Internal) online grant management system. The External MT eGrants system is used by Applicants and Sub-applicants to prepare and submit PDM or FMA applications for mitigation activities to FEMA. Signed paper forms are scanned and uploaded to MT eGrants. FEMA uses the Internal Mitigation eGrants system to review, select, award and store applications for mitigation assistance, and monitor grant performance. Scanned forms (completed forms are scanned into an electronic repository). Please describe the electronic repository. FEMA stores original scanned paper forms for
	HMGP applications into a secure Local Area Network (LAN) repository; original scanned paper forms for PDM and FMA applications are stored in MT eGrants.
b. If electronic, how does DHS input the responses into the IT system?	 ☑ Manually (data elements manually entered). Please describe. Mitigation eGrants is a FEMA system that is fully accessible by FEMA. Applicants and Subapplicants manually input responses into Mitigation eGrants for PDM or FMA applications. HMGP application responses are manually input into the HMGP System by grant Subapplicants. Applicants use the HMGP System to administer program information and grant applications under HMGP. FEMA does not input responses into either system.

	☐ Automatically. Please describe.

schedule?	Management Specialist and respective HMA Office.	
f. Is any of this information	n shared outside of the original program/office? If yes,	
describe where (other offices or DHS components or external entities) and why.		
What are the authorities	of the receiving party?	
☐ Yes, information is share	d with other DHS components or offices. Please describe.	
Click here to enter text.		

² Generally, a unique identifier is considered any type of "personally identifiable information," meaning any information that permits the identity of an individual to be directly or indirectly inferred, including any other information which is linked or linkable to that individual regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department.

☐ Yes, information is shared <i>external</i> to DHS with other federal agencies, state/local partners, international partners, or non-governmental entities. Please describe. Click here to enter text.
oxtimes No. Information on this form is not shared outside of the collecting office.

Please include <u>a copy of the referenced form and Privacy Act Statement</u> (if applicable) with this PTA upon submission.

PRIVACY THRESHOLD REVIEW

(TO BE COMPLETED BY COMPONENT PRIVACY OFFICE)

Component Privacy Office Reviewer:	JoAnna Gorsage	
Date submitted to component Privacy Office:	February 11, 2021	
Date submitted to DHS Privacy Office:	February 18, 2021	
Have you approved a Privacy Act Statement for this form? (Only applicable if you have received a waiver from the DHS Chief Privacy Officer to approve component Privacy Act Statements.)	 ☐ Yes. Please include it with this PTA submission. ☒ No. Please describe why not. While information is not stored and retrieved using an individual's name or other unique identifier for this collection, A Privacy Act Statement is provided on form 086-0-031. The form is attached for review. 	
Component Privacy Office Recommendation: Please include recommendation below, including what existing privacy compliance documentation is available or new privacy compliance documentation is needed.		
FEMA Privacy recommends that FEMA Form 086-0-31 is categorized as Privacy Sensitive. This form collects Name, title, property address, and signature from the HMA Grant Program Subgrantee's Property Owners and the name and signature from the HMA Grant Program Subgrantee's POC. Since these forms relate to HMA Grants awarded to States and Territories, FEMA		

retrieves files/records by the State or Territory name, FEMA Disaster Number, or Grant project number/information and not by any unique identifier.

The FEMA Privacy Branch provides the following recommendation for compliance coverage:

PIA(s): DHS/FEMA/PIA-006 FEMA National Emergency Management Information System Mitigation Electronic Grants Management System and DHS/FEMA/PIA-025 Hazard Mitigation Grant Program (HMGP) System.

While SORN coverage is not required for this form, FEMA Privacy believes DHS/FEMA-009 Hazard Mitigation Disaster Public Assistance and Disaster Loan Programs provides additional coverage.

PRIVACY THRESHOLD ADJUDICATION

(TO BE COMPLETED BY THE DHS PRIVACY OFFICE)

DHS Privacy Office Reviewer:	Joseph Thomas

PIA:	System covered by existing PIA		

	If covered by existing PIA, please list: DHS/FEMA/PIA-006 FEMA National Emergency Management Information System Mitigation Electronic Grants Management System; DHS/FEMA/PIA-025 Hazard Mitigation Grant Program (HMGP) System If a PIA update is required, please list: Click here to enter text.
SORN:	Choose an item. If covered by existing SORN, please list: Click here to enter text. If a SORN update is required, please list: Click here to enter text.

DHS Privacy Office Comments:

Please describe rationale for privacy compliance determination above.

FEMA has submitted this new PTA for FEMA Form 086-0-31 (previously FEMA Form 81-112) Statement of Voluntary Participation for Acquisition of Property for Purpose of Open Space, which is part of the Office of Management and Budgets (OMB) Information Collection Request (ICR) Control No. 1660-0103.

These forms support acquisitions by requiring the collection of information from grant applicants to ensure that property acquisitions are voluntary, and that the acquired property remains open space in perpetuity. FEMA collects copies of the deed restriction language from applicants as a pre-award requirement for mitigation grants to ensure that the deed to be recorded meets the minimum legal and program requirements.

This form is signed by both property owners and local community officials to enforce the requirement that all acquisitions using FEMA mitigation grants are voluntary, and that no property is acquired using eminent domain authorities or other forcible acquisition procedures.

DHS PRIV concurs that this constitutes a privacy-sensitive system, and requires PIA coverage. Coverage is provided by DHS/FEMA/PIA-006 FEMA National Emergency Management Information System Mitigation Electronic Grants Management System and DHS/FEMA/PIA-025 Hazard Mitigation Grant Program (HMGP) System.

SORN coverage is not required, as PII is not retrieved by unique identifier.

DHS PRIV has reviewed the associated Privacy Act Statement and finds that it is compliant.
