

February 04, 2022

**MEMORANDUM**

**To:** Robert Sivinski, OMB  
**From:** Deanne Swan, NCES  
**Through:** Carrie Clarady, NCES  
**Re:** School Survey on Crime and Safety (SSOCS) 2022 Communication Change Request (OMB# 1850-0761 v.22)

The School Survey on Crime and Safety (SSOCS) is a nationally representative survey of elementary and secondary school principals that serves as the primary source of school-level data on crime and safety in public schools. SSOCS is the only recurring federal survey collecting detailed information on the incidence, frequency, seriousness, and nature of violence affecting students and school personnel from the school's perspective. Data are also collected on frequency and types of disciplinary actions taken for select offenses; perceptions of other disciplinary problems, such as bullying, verbal abuse and disorder in the classroom; the presence and role of school security staff; parent and community involvement; staff training; mental health services available to students; and, school policies and programs concerning crime and safety. Prior administrations of SSOCS were conducted in 2000, 2004, 2006, 2008, 2010, 2016, 2018, and 2020. The 2022 SSOCS full-scale data collection were approved in July 2021 (OMB# 1850-0761 v.21).

This submission provides updated versions of the SSOCS 2022 communication materials and focuses on two changes: (a) the addition of an experiment to look at the effect of the timing of communication, (b) changes to communication materials, and (c) changes to the instrument based on cognitive testing. These changes result in no changes to participant burden or cost to the federal government.

SSOCS:2022 will include an experiment to test the timing of email notification. The goal of the experiment is to refine the email strategy by comparing response rates, indicators of nonresponse bias, and time-to-respond metrics between two groups: the traditional schedule (mail-out package followed by email reminder) and the “email-first” treatment (email invitation prior to receipt of mail-out package). Schools in the “email-first” treatment group will receive an email invitation prior to receiving a mail-out package. This treatment group will be evaluated against the control group, while will receive the email reminders following the delivery of the mail-out packages.

Communication materials have been updated with more current information. Changes have been made to the brochure, the questionnaire, and the letters and emails. These changes include changes in the signature for letters and emails and to include updated prevalence estimates from the most recent SSOCS collection (SSOCS: 2020). In addition, based on guidance from ED leadership, branding has been changed to be more consistent and focused on the Department. Thus, study-specific branding, such as the SSOCS logo, has been removed and replaced with logos from the Department and Center.

The SSOCS 2022 instrument has been updated. The questionnaire has been changed based on revisions to CDC guidelines and resulting revisions to the item language during cognitive testing. Cognitive testing was done with school administrators during the winter and spring of 2021, per the OMB package as approved in July 2021. Based on results of cognitive testing, items 7 and 8 were combined. All subsequent numbers were

changed to adjust for this action (e.g., item 9 became item 8).

Part B has been updated to reflect the addition of the email timing experiment. Part C has been updated with the changes to the instrument. Appendix A has been updated with the revised brochure, letters, emails, and instrument. Appendix B has been updated with the revised questionnaire instrument.

The noteworthy changes to the approved materials are listed below. Text added since the last approved version of each document is marked in red font color, all text deleted since the last approved version is marked in crossed-out red font color, and all unchanged text is shown in black font.

## Supporting Statement Part B – SSOCS 2022 Methodology

### **Summary of Changes to SSOCS: 2022 Methodology**

- Addition of an experiment to test the timing of email notifications (Section B4).
- Addition of key staff (Section B5).

### **Addition of experiment to test the Timing of Email Notifications (p. 9)**

#### **Experiments**

SSOCS:2022 will include an experimental treatment group to test the timing of email notifications. Schools in the “email-first” treatment group will receive an email invitation prior to receiving a mail-out package. This treatment group will be evaluated against the control group, which will receive the email reminders following the delivery of the mail-out packages.

Among a total sample of 4,800 schools, approximately 2,400 schools will be selected at random to be included in the “email-first” treatment group and the remaining 2,400 schools will be in the control group. Given these sample sizes, the minimal detectable difference between treatment and control is estimated to be 5%. The actual experiment will gain additional power as the response rates for each group deviate from 50 percent.

The goal of this experiment is to refine the SSOCS email strategy by comparing response rates, indicators of nonresponse bias, and time-to-respond metrics for the early email strategy, relative to the traditional email strategy.

### **Addition of Key Staff Member (p. 9)**

- Deanne Swan, Project Director, National Center for Education Statistics

## Supporting Statement Part C – SSOCS 2022 Item Justification

- Following cognitive testing, items 7 & 8 were revised and combined into one item, which is now Item 7 on the SSOCS:2022 questionnaire. As a result, the reference to item 8 has been deleted from this section. (p. 4) *These items are shown on p. 52 of this change memo.*
  - Questions 7 and 8 asks if school emergency readiness practices like fire drills and active shooter drills have been modified in response to CDC safety guidelines and what specific modifications have been made. These emergency readiness practices are important in preparing students and teachers for disasters but require special considerations in order to practice them while adhering to CDC guidelines for protecting the health and safety of students and staff and slowing the spread of COVID-19.
- Since item 8 was combined with item 7; all following item numbers referenced in this section (pp. 4-8) were revised – i.e., items 9-51 have been revised to 8-50.
- Descriptive text for new item 8 was modified based on revisions to CDC guidelines and resulting revisions to the item language during cognitive testing. Previously the item and description specified a recommended distance between students; it has been revised to more broadly mention social distancing. (p. 4)
  - Question 9-8 asks if a site assessment has been conducted to evaluate schools' preparedness to operate according to CDC safety guidelines for operating schools during COVID-19. A site assessment evaluates the safety, accessibility, and emergency preparedness of the school's buildings and grounds. Specific CDC guidelines covered by a site assessment may include ensuring that there is adequate room to maintain 6-foot distance social distancing between students and using appropriate air filtration systems. These assessments can help schools identify health and safety threats and risks, informing the understanding of issues and resources that may need to be addressed in the development or updating of pandemic disease response plans.
- Following cognitive testing, items 7 & 8 were revised and combined into one item, which is now Item 7 on the SSOCS:2022 questionnaire. As a result, the reference to item 8 has been deleted from this section and language has been reincorporated into the item 7 rationale. (p. 10)
  - **Item 7.** This item has been added to gather information on whether schools have made modifications to emergency readiness practices (such as drills) to adhere to strategies for mitigating the spread of COVID-19 **and the specific ways in which these emergency readiness practices were modified.**
- Since item 8 was combined with item 7; all following item numbers referenced in this section were revised – i.e., item 9 has been revised to item 8. (p. 10)

## Appendix A – SSOCS 2022 Communication Materials

### Summary of Changes to Contact Materials (Physical and E-mail) for SSOCS:2022

- The SSOCS 2022 trifold brochure (pp. 3-6) has been updated with new prevalence estimates from the SSOCS 2020 data collection, new images of students, and to be consistent with new guidelines for branding at the Department and the Center.
- The letters have been revised.
  - All letters have been revised to reflect a change in leadership staff (replacing the signature from the former NCES Commissioner to the current Associate Commissioner of NCES Sample Surveys Division).
  - All letters in which there had been language referring to the COVID-19 pandemic have been updated to present tense to indicate that the pandemic is still ongoing, as opposed to past tense.
  - All letters with the SSOCS logo have been updated to remove the study-specific branding, consistent with Department guidelines.
  - All letters with reference to prevalence estimates have been updated with more recent data from SSOCS 2020.
- Emails have been revised.
  - One new email has been added as part of the timing experiment. This email will go to half of the sample, based on assignment to the “email-first” treatment.
  - All emails in which there had been language referring to the COVID-19 pandemic have been updated to present tense to indicate that the pandemic is still ongoing.
  - All emails with reference to prevalence estimates have been updated with more recent data from SSOCS 2020.
- Web Instrument has been updated with the date (2021-22), time to complete, and OMB expiration date, and new screenshots have been added.

### Changes to SSOCS 2022 Trifold Brochure

Front Page: ~~Image updated; Layout position of title and logos (ED and Census) adjusted~~

Front Page: ~~SSOCS Logo removed from primary image~~

### Section: WHAT TOPICS ARE COVERED IN THE QUESTIONNAIRE?

- “School policies and programs ~~to promote a safe school environment~~,” changed to “School policies and programs ~~concerning crime and safety~~;”
- Added “~~School preparedness and practices for operating during the COVID-19 pandemic;~~”
- “Responsibilities of sworn law enforcement officers and ~~SROs~~,” changed to “Responsibilities of sworn law enforcement officers and ~~school resource officers~~;”

### Section: DO INDIVIDUAL SCHOOL DATA REMAIN CONFIDENTIAL

- “Any attempt on the part of the data user to identify a school or a specific respondent is prohibited by law and punishable with a fine of up to \$250,000 ~~and/or a prison term up to 5 years~~” changed to “Any

attempt on the part of the data user to identify a school or a specific respondent is prohibited by law and punishable with a fine of up to \$250,000 or up to 5 years in prison, or both (Class E felony)."

Second Page: Image updated

Second Page: Graphics updated with estimates from SSOCS 2020

- Upper pie chart has been updated to display estimate from 2019-2020 school year: "71% of schools reported violent incidents" changed to "70% of schools reported violent incidents"
- Lower pie chart has been updated to display estimate from 2019-2020 school year: ~~45% of schools reported having a School Resource Officer present at least once a week~~ changed to "52% of schools had a written plan for procedures in the event of a pandemic disease"

Section: WHAT IS THE SCHOOL SURVEY ON CRIME AND SAFETY (SSOCS)?

- "... it has been administered ~~seven~~ times since 2000 to nationally representative samples of schools and will be conducted again in the spring of the ~~2019-20~~ school year. On average, the survey takes ~~45~~ minutes to complete" changed to "... it has been administered ~~eight~~ times since 2000 to nationally representative samples of schools and will be conducted again in the spring of the ~~2020-21~~ school year. On average, the survey takes ~~50~~ minutes to complete."

Section: WHY WAS MY SCHOOL SELECTED?

- "The SSOCS sample is designed to provide national estimates of ~~primary~~, middle, high, and combined grade public schools." changed to "The SSOCS sample is designed to provide national estimates of ~~elementary~~, middle, high, and combined grade public schools."

Section: WHY IS THE SSOCS IMPORTANT?

- "The U.S. Department of Education recognizes that schools are essential for learning: ~~Without~~ a safe and secure environment, teachers and students cannot learn." This has been separated into two sentences for readability: "The U.S. Department of Education recognizes that schools are essential for learning. ~~Without~~ a safe and secure environment, teachers and students cannot learn."

### **Changes to Communication Materials (printed and email)**

2022 Advance Letter to District Superintendent (02/10/22)  
SSOCS-10L

Dear SUPERINTENDENT:

The National Center for Education Statistics (NCES) of the U.S. Department of Education is conducting the only regular national study about crime and safety in public schools.

The School Survey on Crime and Safety (SSOCS) was previously conducted in the 1999–2000, 2003–04, 2005–06, 2007–08, 2009–10, 2015–16, 2017–18, and 2019–20 school years, which allows study of change over time. It collects information on the incidence, frequency, and nature of unsafe behaviors affecting students and school personnel, as well as school characteristics associated with school crime.

At least one school in your district has been selected to participate in SSOCS. Enclosed are materials pertaining to the survey for your reference; you do not need to take any action. Each school will receive a letter asking them to participate, list of endorsements, and brochure describing the survey.

Participating in SSOCS may create apprehension of sharing school information related to crime. Please be assured that by federal mandate we are required to protect the responses of all schools included in our survey. Individual responses will be combined with those from other participants to produce summary statistics and reports only.

With your district's participation, we can provide data to state and federal agencies about various types of crime and discipline in schools. These data inform policy and funding used to make schools safer. Though SSOCS is voluntary, we ask principals of all sampled schools to complete the survey, as a way of providing an accurate picture of the diversity in our nation's schools.

Thank you for your consideration. We hope that you will encourage the selected school(s) in your district to participate. If you have any questions about the study, please contact the U.S. Census Bureau, the survey collection agency, at 1–888–595–1332 or email at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, please visit <http://www.nces.ed.gov/surveys/ssocs>.

Sincerely,

Chris Chapman  
Associate Commissioner  
National Center for Education Statistics  
U.S. Department of Education  
James (Lynn) Woodworth, Ph. D.

Endorsements

NCES is authorized to conduct this survey by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543). All of the information schools provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Reports of the findings from the survey will not identify participating districts, schools, or staff. Individual responses will be combined with those from other participants to produce summary statistics and reports.

2022 Advance Letter to Chief State School Officer (02/10/22)  
SSOCS-11L

Dear <insert name>:

The National Center for Education Statistics (NCES) of the U.S. Department of Education is conducting the only regular national study about crime and safety in public schools.

The School Survey on Crime and Safety (SSOCS) was previously conducted in the 1999–2000, 2003–04, 2005–06, 2007–08, 2009–10, 2015–16, 2017–18, and 2019–20 school years, which allows study of change over time. It collects information on the incidence, frequency, and nature of unsafe behaviors affecting students and school personnel, as well as school characteristics associated with school crime.

At least one school in your state has been selected to participate in SSOCS. Enclosed are materials pertaining to the survey for your reference; you do not need to take any action. Each school will receive a letter asking them to participate, a list of endorsements, and brochure describing the survey.

Participating in SSOCS may create apprehension of sharing school information related to crime. Please be assured that reports of the findings from the survey will not identify schools by name. Individual responses will be combined with those from other participants to produce summary statistics and reports only.

With your state's participation, we can provide data to state and federal agencies about various types of crime and discipline in schools. This data informs policy and funding used to make schools safer. Though SSOCS is voluntary, we ask principals of all sampled schools to complete the survey, as a way of providing an accurate picture of the diversity in our nation's schools.

Thank you for your assistance. We hope that you will encourage districts within your state to participate. If you have any questions about the study, please contact the U.S. Census Bureau, the survey collection agency, at 1–888–595–1332 or email at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, please visit <http://www.nces.ed.gov/surveys/ssocs>.

2022 Initial Letter to Principal - No Incentive, No E-mail (02/15/22)  
SSOCS-13L(W)

Dear <insert name>:

We at the National Center for Education Statistics (NCES) within the U.S. Department of Education, need your help by completing the 2022 School Survey on Crime and Safety (SSOCS). SSOCS is the only national recurring survey that focuses on the frequency of crime and violence in public schools and the programs and practices developed to provide a safe school environment.

The COVID-19 pandemic is an unprecedented moment in history that has affected how schools keep students and staff safe. ~~The COVID-19 pandemic was an unprecedented moment in history that caused global social and economic disruption, including long-term effects on how K-12 education is administered and how schools keep students and staff safe.~~ In response to the pandemic, Congress approved various relief packages to assist schools with implementing safety measures and getting the equipment needed to safely open back up for in-school instruction. However, to provide evidence for the need for continued funds, we need accurate data to show where schools need the most help. Therefore, we need your help by responding to the 2022 SSOCS.

Your survey responses will be collected on a secure website. Please complete the survey online within two weeks.

Respond now at <https://respond.census.gov/ssocs>

Log in using this User ID: <USERID>

Please be assured that reports of the findings from the survey will not identify schools by name. Individual responses will be combined with those from other participants to produce summary statistics and reports. For more information regarding SSOCS, please refer to the Frequently Asked Questions on the back of this letter, enclosed brochure, and list of endorsers.

If you have any general questions about the study, contact the U.S. Census Bureau, the survey collection agency, at 1-888-595-1332 or via e-mail at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, visit <http://www.nces.ed.gov/surveys/ssocs>.

We look forward to your school's participation in this important data collection effort.

2022 Special District Approval Notice  
SSOCS-13

Dear School Principal:

We know that your school district requires that researchers obtain approval to conduct surveys. The National Center for Education Statistics (NCES) of the U.S. Department of Education completed the application process and received permission to conduct the School Survey on Crime and Safety (SSOCS) in your district. If you have any questions, please contact your district or the U.S. Census Bureau, the survey collection agency, at 1-888-595-1332 or [ssocs@census.gov](mailto:ssocs@census.gov).

I would like to thank you in advance for your help in completing this survey.

SSOCS-14L(W)

Dear <insert name>:

As of today, we have not received your completed School Survey on Crime and Safety (SSOCS). If you recently completed the online questionnaire, thank you for your participation. If you have not yet completed the questionnaire, I encourage you to do so.

Your survey responses can be collected on the secure website listed below.

Respond now at <https://respond.census.gov/ssocs>  
Log in using this User ID: <USERID>

SSOCS is the only national study that collects information about crime and safety in public schools. Findings from the 2019–20 survey indicated:

- ~~About [placeholder statistic] of schools provided diagnostic mental health assessments to evaluate students for mental health disorders and [placeholder statistic] provided treatment to students for mental health disorders.~~
- About 52 percent of schools had a written plan for procedures in the event of a pandemic disease.
- A higher percentage of schools located in towns reported at least one incident of theft at school than did schools located in cities, suburbs, and rural areas.

We know that you are very busy and receive many survey requests. However, we urge you to take time to complete this very important survey. While your decision to participate is voluntary, your response is crucial to understand the state of crime and safety issues in U.S. schools. Schools will not be identified by name in any reports.

If you have any general questions about the study, contact the U.S. Census Bureau, the survey collection agency, at 1–888–595–1332 or via e-mail at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, visit <http://www.nces.ed.gov/surveys/ssocs>.

Sincerely,

Chris Chapman

NCES is authorized to conduct this survey by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543). All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). Reports of the findings from the survey will not identify participating districts, schools, or staff. Individual responses will be combined with those from other participants to produce summary statistics and reports.

2022 Second Reminder Letter to Principal: 3rd Package, First Questionnaire  
(03/28/22)  
SSOCS: 2022 – 15LC

Dear <insert name>:

We recently sent you an invitation to complete the School Survey on Crime and Safety (SSOCS) online. SSOCS is the only national study that collects information about crime and safety in public schools.

According to our records, you have not yet completed the SSOCS questionnaire online. If you have recently completed the online questionnaire, thank you for your participation, and please disregard this letter. If you have not, I encourage you to complete the enclosed questionnaire or go to the link below to access the questionnaire online. We have extended the deadline to <insert date>.

Your survey responses can be collected on the secure website listed below.

Respond now at <https://respond.census.gov/ssocs>

Log in using this User ID: <USERID>

Although your decision to participate is voluntary, your response is crucial to understand the overall state of school ~~climate-crime and safety~~ issues in U.S. schools. Data from previous SSOCS collections are used by the Department of Education's Office of Safe and Supportive Schools to inform decisions for guidance to states and local education agencies pertinent to providing a safe school environment for students. Specifically, SSOCS asks about schools' implementation of safety measures in response to pandemic disease. Having accurate information on this helps to inform the need for more resources to provide to states during unprecedented times, such as the COVID-19 pandemic of 2020. As a reminder, schools will not be identified by name in any reports.

A postage-paid return envelope is enclosed for your convenience. If you have any questions about the study, please do not hesitate to contact the U.S. Census Bureau at 1–888–595–1332. ~~If you have any general questions about the study, contact the U.S. Census Bureau, the survey collection agency, at 1-888-595-1332, or via e-mail at ssocs@census.gov. The U.S. Census Bureau, the survey collection agency, is also available to answer your questions via e-mail at ssocs@census.gov.~~ To learn more about the SSOCS, please visit <http://www.nces.ed.gov/surveys/ssocs>.

2022 Initial E-mail to Principal – “Email-First” Before Treatment Group  
SSOCS-P1A

Subject: U.S. Department of Education Survey!

Dear <PRINCIPAL>:  
<SCHNAM>

We at the National Center for Education Statistics (NCES) within the U.S. Department of Education, need your help by completing the 2022 School Survey on Crime and Safety (SSOCS). SSOCS is the only national recurring survey that focuses on the frequency of crime and violence in public schools and the programs and practices developed to provide a safe school environment.

The COVID-19 pandemic is an unprecedented moment in history that has affected how schools keep students and staff safe. In response to the pandemic, Congress approved various relief packages to assist schools with implementing safety measures and getting the equipment needed to safely open back up for in-school instruction. The Department of Education relies on studies including SSOCS to help determine how to allocate funds. Your school is one of a small number of schools selected to represent the needs of many other schools. Your response is critical to ensuring that we have accurate data to base these decisions on. Therefore, we need your help by responding to the 2022 SSOCS. **We will be sending you a package at the school listed above with more information about the SSOCS<< and \$10 as a token of our appreciation>>.**

Your survey responses will be collected on a secure website. Please take time now to complete the SSOCS.

Respond now at <https://respond.census.gov/ssocs>

Log in using this User ID: <USERID>

Please be assured that reports of the findings from the survey will not identify schools by name. Individual responses will be combined with those from other participants to produce summary statistics and reports.

If you have any general questions about the study, contact the U.S. Census Bureau, the survey collection agency, at 1–888–595–1332 or via e-mail at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, visit <http://www.nces.ed.gov/surveys/ssocs>.

We look forward to your school’s participation in this important data collection effort.

Sincerely,

Chris Chapman  
Associate Commissioner  
National Center for Education Statistics  
U.S. Department of Education

2022 First reminder e-mail to principals – All Treatments (03/15/22)

Subject line: U.S. Department of Education Survey Reminder

Dear <PRINCIPAL>(name):

We need your help completing the 2022 School Survey on Crime and Safety (SSOCS), to gather statistics on the prevalence of programs and practices implemented to provide a safe school environment. Findings from the 2019–20 SSOCS indicated that [placeholder statistic]94 percent of all public schools reported having activities for students that included social emotional learning. We know social emotional learning is an important aspect of providing a safe environment in schools, therefore it is imperative to continue to collect updated information on this topic, as well as other similar topics.

If you have already logged in and completed your questionnaire, thank you very much for your participation. If not, I encourage you to take the time to do so. Your survey responses will be collected on a secure website.

Respond now at <https://respond.census.gov/ssocs>

Log in using this User ID: <USERID>

The success of this national survey depends on your participation. Only a small percentage of principals are selected to participate. We cannot substitute another principal for you. Please note that reports of the findings from the survey will not identify schools by name. Individual responses will be combined with those from other participants to produce summary statistics and reports.

If you have any general questions about the study, please contact the U.S. Census Bureau, the survey collection agency, at 1–888–595–1332 or via e-mail at [ssocs@census.gov](mailto:ssocs@census.gov). To learn more about SSOCS, visit <http://www.nces.ed.gov/surveys/ssocs>.

## 2022 Frequently Asked Questions (to be included on the back of initial letter to principal)

### **What is the SSOCS?**

The School Survey on Crime and Safety (SSOCS) is a national survey of elementary and secondary public schools that collects information on school safety, including school practices related to the prevention and reduction of crime, the frequency of school crime and violence, and disciplinary actions used to handle infractions. This survey does not involve students, parents, or teachers, and does not involve any use of classroom time.

### **What happens if a school refuses to participate?**

All participation is voluntary. There are no penalties for not participating in the study. However, each school in the SSOCS sample was selected to represent schools with similar characteristics. When a school refuses to participate, we're unable to replace that school. This means we'll have fewer responses which will result in less precision in our estimates and the potential to not be able to report out estimates for schools like yours. When completing the questionnaire, respondents can skip any question they do not want to answer. If you are hesitant to be a part of the study, please reach out to the 2022 SSOCS staff [at 1-888-595-1332 or via e-mail at ssocs@census.gov](#) to address any concerns you may have.

### **How will the names of participants and their responses be kept confidential?**

Under law, all of the information provided by schools may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). All staff working on the study have signed an Affidavit of Nondisclosure where they swear to abide by this law. Employees, including temporary employees, or other persons who have sworn to observe the limitations imposed by this law, who knowingly publish or communicate any individually identifiable information will be subject to fines of up to \$250,000, or up to 5 years in prison, or both (Class E felony).

### **That sounds like governmentese. What are you really telling me?**

By law, we can only use your responses for reporting crime and safety information at an aggregate level, which means we're combining your information with those from other participating schools to produce summary statistics and reports. All staff working on the project have sworn to abide by the law to not disclose information provided by participants in the study. [Check out the 2018 SSOCS First Look Report to see how the estimates are displayed at https://nces.ed.gov/pubs2019/2019061.pdf.](#)

### **The letter says this is a U.S. Department of Education survey. Who is NCES and why is the Census Bureau involved?**

We understand this is confusing. The National Center for Education Statistics (NCES) is the primary federal entity for collecting and analyzing data related to education in the United States. NCES is located within the U.S. Department of Education and the Institute of Education Sciences. NCES fulfills a Congressional mandate to collect, collate, analyze, and report complete statistics on the condition of education in the United States; conduct and publish reports; and review and report on education activities internationally. While NCES conducts the surveys, we partner with the U.S. Census Bureau to fulfill the data collection operations. This is why you see mailing labels, email addresses, and contact information from the Census Bureau.

### **Do public school and school safety organizations endorse the SSOCS?**

Yes! Check out the insert in the package to see a list of public school and school safety organizations that endorse the SSOCS.

*What is SSOCS?*

The School Survey on Crime and Safety (SSOCS) is a national survey of elementary and secondary public schools that collects information on school safety, including school practices related to the prevention and reduction of crime, the frequency of school crime and violence, and disciplinary actions used to handle infractions. This survey does not involve students, parents, or teachers, and does not involve any use of classroom time.

*What happens if a school refuses to participate?*

All participation is voluntary. There are no penalties for not participating in the study. However, each school in the SSOCS sample was selected to represent schools with similar characteristics. When a school refuses to participate, we're unable to replace that school. This means we'll have fewer responses which will result in less precision in our estimates and the potential to not be able to report out estimates for schools like yours. When completing the questionnaire, respondents can skip any question they do not want to answer. If you are hesitant to be a part of the study, please reach out to SSOCS 2022 staff so we can address any concerns you may have.

*How will the names of participants and their responses be kept confidential?*

Under law, all the information provided by schools may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151). All staff working on the study have signed an Affidavit of Nondisclosure where they swear to abide by this law. Employees, including temporary employees, or other persons who have sworn to observe the limitations imposed by this law, who knowingly publish or communicate any individually identifiable information will be subject to fines of up to \$250,000, or up to 5 years in prison, or both (Class E felony).

*That sounds like governmentese. What are you really telling me?*

Item: PIN & Security Question:

Removed 2020 placeholder and replaced with updated 2022 instrument

The screenshot shows the PIN entry page for the SSOCS survey. At the top left is the U.S. Department of Education logo. In the center, it says "School Survey on Crime and Safety (SSOCS)" and "2021–22 School Year". At the top right is the "United States Census Bureau" logo. A blue header bar at the top contains links for "Instructions", "FAQs", "Definitions", "Endorsers", "Contact Us", and "Save and Continue Later". Below the header, a message says "Please make note of the PIN below." followed by a large red "PIN: 8893". Below the PIN, there is explanatory text about the PIN's purpose and session timeout. A section for selecting a security question and entering its answer follows. At the bottom left is a "Next >" button. At the bottom right are links for "Accessibility" and "Security".

Please make note of the PIN below.

**PIN: 8893**

The PIN will allow you to log back into the SSOCS survey if the session times out or you wish to access the SSOCS survey at a later time.

The session will time out if left idle for more than 15 minutes.

Please select a security question to answer. If you forget your PIN, you will be asked to provide this answer to re-enter the survey.

Item: PIN Reset:

Removed 2020 placeholder and replaced with updated 2022 instrument

The screenshot shows the official website for the School Survey on Crime and Safety (SSOCS) for the 2021-22 school year. At the top left is the U.S. Department of Education seal. To its right is the title "School Survey on Crime and Safety (SSOCS)" and the text "2021-22 School Year". On the far right is the "United States Census Bureau" logo. A blue navigation bar below the title contains links for "Instructions", "FAQs", "Definitions", "Endorsers", and "Contact Us". The main content area contains the following text:

Please provide the answer to the following security question to reset your PIN for the School Survey on Crime and Safety (SSOCS).

**Who was your childhood hero?**

Answer:

Please contact us by phone at 1-888-595-1332 if you do not know your security question response.

[◀ Return to Login](#) [Submit ▶](#)

At the bottom left, it says "OMB No.: 1850-0761" and "OMB Expiration Date: 07/31/2024". At the bottom right, there are links for "Accessibility" and "Security".

The screenshot shows the official website for the School Survey on Crime and Safety (SSOCS) for the 2019-20 school year. It features the same layout as the 2021-22 version, with the U.S. Department of Education seal, the survey title, and the Census Bureau logo. The blue navigation bar includes links for "Instructions", "FAQs", "Definitions", "Endorsers", and "Contact Us". The main content area contains the following text:

Please provide the answer to the following security question to reset your PIN for the School Survey on Crime and Safety (SSOCS).

**What is your paternal grandfather's first name?**

Answer:

Please contact us by phone at 1-888-595-1332 if you do not know your security question response.

[◀ Return to Login](#) [Submit ▶](#)

At the bottom left, it says "OMB No.: 1850-0761" and "OMB Expiration Date: 05/31/2022". At the bottom right, there are links for "Accessibility" and "Security".

Item: New PIN:

Removed 2020 placeholder and replaced with updated 2022 instrument

The screenshot shows the official website for the School Survey on Crime and Safety (SSOCS). At the top left is the U.S. Department of Education seal. In the center, the title "School Survey on Crime and Safety (SSOCS)" is displayed above "2021–22 School Year". On the right is the "United States Census Bureau" logo. A dark blue navigation bar at the top includes links for "Instructions", "FAQs", "Definitions", "Endorsers", and "Contact Us". Below the navigation bar, a large bold text displays "Your new PIN is: 8660". A smaller text below it says "Please log in using your new PIN." A "Return to Login" button is visible. At the bottom left, OMB information is listed: "OMB No.: 1850-0761" and "OMB Expiration Date: 07/31/2024". At the bottom right, there are links for "Accessibility" and "Security".

This screenshot shows the same website layout as the first one, but with a red border around the main content area. It displays a new PIN of 4072. The rest of the page content, including the navigation bar, survey title, and footer information, is identical to the first screenshot.

## Item: Instructions Tab (instructions)

Removed 2020 placeholder and replaced with updated 2022 instrument

The screenshot shows a modal window titled "Instructions" overlaid on a survey interface. The background shows the Department of Education logo and the United States Census Bureau logo. The "Instructions" window contains a list of guidelines:

- Please have this questionnaire filled out by the person(s) most knowledgeable about school crime and policies to provide a safe environment. Please complete and submit the survey within two weeks.
- Some questions refer to the 2021–22 school year. Please report for the school year to date.
- Definitions are available for many terms. Defined terms are in blue throughout the survey. Definitions for these terms can be accessed by clicking directly on these words within survey items or by visiting the "Definitions" tab.
- Some questions ask for counts or percents of items. Please select the "None" box, rather than leaving the item blank, if the number of such items at your school is zero.
- Please use the "Previous" and "Next" buttons at the bottom of each page to navigate through the survey, rather than your browser's back button.
- Each time you complete a page, your answers are saved.
- If you do not have the time to dedicate to the entire survey now, you may complete what you are able to and log out by clicking the "Save and Continue Later" button in the upper right hand side of the toolbar. **Your responses for all prior items will be saved but your responses for the current item will not be saved.** If you wish to save your responses on the current item before logging out, you must click the "Next" button prior to clicking the "Save and Continue Later" button.
- Sessions will expire (requiring you to log back in) after 15 minutes of inactivity.

At the bottom right of the "Instructions" window is a "Close" button.

FAQs

## SCHOOL PRACTICES

## 4. During the 2019–20 school year:

- Please respond to the following questions.

## a. Prevention curriculum

- Yes
- No

## b. Social emotional learning

- Yes
- No

## c. Behavioral or behavioral health interventions

- Yes
- No

## d. Individual mentorship

- Yes
- No

## e. Student involvement in student government

- Yes
- No

## f. Student court to address student conduct problems or minor offenses

- Yes
- No

g. Student involvement in restorative practices (e.g., peace or conflict circles)

- Yes
- No

## h. Programs to promote a sense of community or social integration among students

## Instructions

- Please have this questionnaire filled out by the person most knowledgeable about school crime and policies to provide a safe environment. Please complete and submit the survey within two weeks.
- Some questions refer to the 2019-20 school year. Please report for the school year to date.
- For most questions, please select the answer choice that best reflects your school's circumstances.
- Definitions are available for many terms. Defined terms are in blue throughout the survey. Definitions for these terms can be accessed by clicking directly on these words within survey items or by visiting the "Definitions" page.
- Some questions ask for counts or percents of items. Please select the "None" box, rather than leaving the item blank, if the number of such items at your school is zero.
- Please use the "Previous" and "Next" buttons at the bottom of each page to navigate through the survey, rather than your browser's back button.
- Each time you complete a page, your answers are saved.
- If you do not have the time to dedicate to the entire survey now, you may complete what you are able to and log out by clicking the "**Save and Continue Later**" button in the upper right hand side of the menu bar. **Your responses for all prior items will be saved but your responses for the current item will not be saved.** When you re-enter the survey, you will be taken to the question where you left off.
- Sessions will expire (requiring you to log back in) after 15 minutes of inactivity.
- Answers to frequently asked questions (FAQs) and a list of survey endorsers are available on the blue menu bar at the top of the page.
- Clicking on the Instructions, FAQs, Definitions, Endorsers, and Contact Us pages will open a new window.

## Item: FAQs Tab (pop out)

Removed 2020 placeholder and replaced with updated 2022 instrument

The screenshot shows a web page with a dark blue header containing the United States Census Bureau logo. Below the header, there's a sidebar on the left with the Department of Education seal and links for 'Instructions' and 'FAQs'. The main content area has a title 'FAQs' and a descriptive paragraph about the list of frequently asked questions. A large list of questions is provided, many of which are underlined as links:

- [Why did our school get selected?](#)
- [What kinds of questions does the School Survey on Crime Safety ask?](#)
- [What is the purpose of this survey?](#)
- [Why should I participate in this survey?](#)
- [The letter says this is a U.S. Department of Education Survey. Who is NCES and why is the Census Bureau involved?](#)
- [How will my information be reported?](#)
- [How will the names of participants and their responses be kept confidential?](#)
- [How will these data be used?](#)
- [How often is the SSOCS administered?](#)
- [Where can I see the results of the SSOCS?](#)
- [How do I know this survey is legitimate?](#)
- [How long will the survey take to complete?](#)
- [What is the importance of this survey?](#)
- [Who authorizes this survey?](#)
- [Who can answer general questions regarding this survey?](#)

Below this list, a section titled 'Why did our school get selected?' is shown with the following text:

From all the public schools in the United States, we selected a random stratified sample of about 4,800 schools that represent the nation for the School Survey on Crime and Safety. Your school happened to be one of those selected. Your responses will represent schools with similar demographics that were not selected for the survey.

## FAQs

This is a list of frequently asked questions and their responses that you can refer to if you would like additional information about the School Survey on Crime and Safety.

### **Why did our school get selected?**

From all the public schools in the United States, we selected a random stratified sample of about 4,800 schools that represent the nation for the School Survey on Crime and Safety. Your school happened to be one of those selected. Your responses will represent schools with similar demographics that were not selected for the survey.

### **What kinds of questions does the School Survey on Crime and Safety ask?**

- Description of school policies and programs concerning crime and safety;
- Description of the pervasiveness of student and teacher involvement in efforts that are intended to

## Appendix B – SSOCS 2022 Questionnaire

### Summary of Changes to 2022 Questionnaire

As indicated in the revisions to Part C, the questionnaire has been changed:

- Following cognitive testing, items 7 & 8 were revised and combined into one item, which is now Item 7 on the SSOCS:2022 questionnaire. As a result, the reference to item 8 has been deleted from this section and language has been reincorporated into the item 7 rationale.
- Because item 8 was combined with item 7; all following item numbers referenced in this section were revised – i.e., item 9 has been revised to item 8.

7. During the 2021–22 school year, ~~were any of the following modifications made to~~ your school’s emergency readiness practices (e.g., fire drills, active shooter drills) ~~include modifications made~~ in response to the Centers for Disease Control and Prevention (CDC) safety guidelines for operating schools during COVID-19? (~~Yes/No~~)

**8. Do your school’s modifications to emergency readiness practices include the following?**

- a. Having staff talk through security drills rather than acting them out (Yes/No)
- b. Modifying security drills to accommodate social distancing measures (e.g., conducting multiple drills with small groups, increasing number of evacuation locations) (Yes/No)
- c. Providing ~~increased student supports for social-emotional needs or trauma following security drills (e.g., enhanced post-drill debriefings) and student supports for social-emotional needs or trauma~~ (Yes/No)
