C. Implement activities	See 3B		
D. Develop record system	N/A		
E. Time to enter information			
Record of all information required by the standard ^g	1	1.2	1.2
F. Time for audits	N/A		
Subtotal for Recordkeeping Requirements			
TOTAL LABOR BURDEN AND COSTS (rounded) ^h			
TOTAL CAPITAL and O&M COST (rounded) ^h			
GRAND TOTAL (rounded) ^h			

Assumptions:

^a We have assumed that there are approximately 152 existing sources that are currently subject to the rule with an estimate stipulates that only new sources with one-time-only requirements are subject to this subpart. We therefore, conclude per year.

^b This ICR uses the following labor rates: \$149.84 per hour for Executive, Administrative, and Managerial labor; \$122 labor. These rates are from the United States Department of Labor, Bureau of Labor Statistics, September 2020, "Table 2 are from column 1, "Total Compensation." The rates have been increased by 110% to account for the benefit packages a

^c This is a one-time only activity for recording the initial performance test.

^d We have assumed that it will take 61 hours for each respondent to complete the required activity.

^e We have assumed that 20 percent of respondents will have to repeat initial performance tests due to failure.

^f We have assumed that it will take 2 hours for respondents to write report.

^g We have assumed that it will take each respondent one hour to enter all required information, including any instances

^h Totals have been rounded to 3 significant values. Figures may not add exactly due to rounding.

1.66 per hour for Technical labor, and \$60.88 per hour for Clerical
2. Civilian Workers, by Occupational and Industry group.” The rates
available to those employed by private industry.

; of startup, shutdown, and malfunction.

Table 2: Average Annual EPA Burden and Cost - NSPS for Petroleum Dry Cleaners (40 CFI \$51.23)

Activity	(A) EPA person- hours per occurrence	(B) No. of occurrences per plant per year	(C) EPA person- hours per plant per year (AxB)	(D) Plants per year ^a	(E) Technical person- hours per year (CxD)
1. Initial performance test ^c	16	1	16	1	16
2 Repeat performance test ^{c, d}	16	1	16	0.2	3.2
3. Report review					
Notification of construction/reconstruction ^c	2	1	2	1	2
Notification of actual startup ^c	1	1	1	1	1
Initial performance test ^{c, e}	7.5	1	7.5	1	7.5
Repeat performance test ^{c, f}	7.5	1	7.5	0.2	1.5
TOTAL (rounded)^g					

Assumptions:

^a We have assumed that there are approximately 152 existing sources that are currently subject to the rule with an estimated 152 new sources per year. The rule stipulates that only new sources with one-time-only requirements are subject to this subpart. We therefore assume a renewal ICR is 1 source per year.

^b This cost is based on the following labor rates which incorporates a 1.6 benefits multiplication factor to account for gross pay (GS-13, Step 5, \$43.15 + 60%), Technical rate of \$51.23 (GS-12, Step 1, \$32.02 + 60%), and Clerical rate of \$27.73 (Office of Personnel Management (OPM) “2021 General Schedule” which excludes locality rates of pay.

^c This is a one-time only activity.

^d We have assumed that 20 percent of respondents will have to repeat performance test

^e We have assumed that EPA will take 7.5 hours to review the initial performance test report.

^f We have assumed that EPA will have to review the repeat performance test report for 20 percent of respondents who

^g Totals have been rounded to 3 significant values. Figures may not add exactly due to rounding.

R Part 60, Subpart JJJ) (Renewal)

\$69.04 \$27.73
