

Request for a Non-Substantive Change to an Existing Approved Information Collection

(EPA ICR No. 2613.03; OMB Control No. 2070-0212)

I. Introduction

Why is EPA Requesting a Non-Substantive Change?

EPA is requesting a non-substantive change to update the Reporting Forms and Instructions document for Reporting Year (RY) 2022. Each year, EPA updates this document to reflect the new reporting year and to incorporate various improvements to the document. Alongside updating references from RY 2021 to RY 2022, this document will now refer to an EPCRA 313(d)(2) authority and will provide a streamlined set of source reduction reporting codes.

EPA is not otherwise modifying the information collection requirements or agency paperwork burden estimates.

II. Description of Non-Substantive Changes

What Information Collection Request (ICR) is EPA changing?

ICR Title: Toxic Chemical Release Reporting

ICR Numbers: EPA ICR No. 2613.03; OMB Control No. 2070-0212

What is the current status of this ICR?

This ICR is currently approved through March 31, 2024.

What are the changes that EPA is making to this collection of information?

Alongside updating references from RY 2021 to RY 2022, this document will now refer to an EPCRA 313(d)(2) authority and will provide a streamlined set of source reduction reporting codes.

Will this change impact the annual ICR burden estimates?

No, the current ICR annual burden will not change.
