Habitat Conservation Plan for Warm Springs Natural Area and Hidden Valley Property, Clark County, Nevada; Receipt of Incidental Take Permit Application, Draft Low-Effect Habitat Conservation Plan, and Draft Environmental Compliance Documentation

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the receipt and availability of an application for an incidental take permit (ITP) under the Endangered Species Act (ESA) and an associated draft low-effect habitat conservation plan (HCP). Additionally, consistent with the requirements of the National Environmental Policy Act (NEPA), we have prepared a draft low-effect screening form and environmental action statement supporting our preliminary determination that the proposed permit action qualifies for a categorical exclusion under NEPA. The Southern Nevada Water Authority has applied for an ITP under the ESA for the HCP for Warm Springs Natural Area and Hidden Valley Property in Clark County, Nevada. The ITP would authorize the take of seven species incidental to the development, construction and operation of the project. We invite the public and local, State, Tribal, and Federal agencies to comment on the permit application, proposed low-effect HCP, and NEPA categorical exclusion determination documentation. Before issuing the requested ITP, we will take into consideration any information that we receive during the public comment period.

DATES: Written comments must be received on or before February 22, 2022.

ADDRESSES:

Obtaining Documents: The documents announced by this notice, as well as any comments and other materials that we receive, will be available for public inspection in Docket No. FWS-R8-ES-2021-0120 at <https://www.regulations.gov>.

SUPPLEMENTARY INFORMATION: We, the Service, announce the receipt of a permit application from the Southern Nevada Water Authority (applicant), for a 15-year ITP under section 10(a)(1)(B) of the ESA, as amended (16 U.S.C. 1531 *et seq.*). Application for the permit requires the preparation of an HCP with measures to avoid, minimize, and mitigate the impacts of incidental take of endangered, threatened, or candidate species to the maximum extent practicable. The applicant prepared the draft low-effect HCP for Warm Springs Natural Area and Hidden Valley Property pursuant to section 10(a)(1)(B) of the ESA.
