VA Form 26-4555
Non-substantive/Non-material change

This is a non-substantial revision to the electronic version of the VA 26-4555. Edits are being made to the electronic version of this form within the business platform (SAHSHA) only. The form will be updated to reflect the same information as the current version of the 26-4555 dated June 2021. Additionally, a clarifying statement is being added to the signature block advising the Veteran Service Center (VCS) that it is an electronic form, and a signature is not required. This signature block statement is needed to prevent the VSC from erroneously rejecting the form for no signature, and canceling the claim or the End Work Product (EP 290).
