BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0024]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Notification Requirements for Coal and Wood Burning Appliances

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval for information collection requirements regarding notification requirements for coal and wood burning appliances. OMB previously approved the collection of information under OMB Control No. 3041-0040. On December 10, 2021, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of this collection of information.

DATES: Submit written or electronic comments on the collection of information by March 18, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to: www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. In addition, written comments that are sent to OMB also should be submitted electronically at: <http://www.regulations.gov>, under Docket No. CPSC-2012-0024.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7991, or by email to: cgillham@cpsc.gov.

SUPPLEMENTARY INFORMATION: On December 10, 2021, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. 86 FR 70475. The Commission received no comments. Accordingly, CPSC seeks renewal approval for the following collection of information:

Title: Notification Requirements for Coal and Wood Burning Appliances.

OMB Number: 3041-0040.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of coal and wood burning appliances.

Estimated Number of Respondents: An estimated five submissions annually.

Estimated Time per Response: Three hours per submission and 30 minutes for collecting and mailing the information to the CPSC.

Total Estimated Annual Burden: 17.5 hours (5 submissions × 3.5 hours).

Total Estimated Annual Cost to Respondents: \$1,238, based on an average total hourly employee compensation rate of \$70.73 for management, professional, and related occupations (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations in private goods-producing industries, Table 4, March 2021) (17.5 hours × \$70.73).

General Description of Collection: 16 CFR part 1406, Coal and Wood Burning Appliances—Notification of Performance and Technical Data requires that manufacturers and importers provide consumers with written notification regarding certain technical and performance information related to safety on each coal and wood burning appliance. Manufacturers are also required to provide to the CPSC a copy of the notification to consumers and an explanation of all clearance distances contained in the notification. For existing models, all known manufacturers are believed to have already satisfied the requirements. Accordingly, there is no new burden associated with the requirements of 16 CFR part 1406, except in cases where existing models are changed, or new models are introduced. Fewer than five submissions are estimated annually from new stove models coming into the

market, or new firms entering the market.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0030]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Testing and Recordkeeping Requirements for Carpets and Rugs

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval for information collection requirements for manufacturers and importers of carpets and rugs under the Standard for the Surface Flammability of Carpets and Rugs and the Standard for the Surface Flammability of Small Carpets and Rugs. OMB previously approved the collection of information under OMB Control No. 3041-0017. On December 10, 2021, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. The Commission received no comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of this collection of information.

DATES: Submit written or electronic comments on the collection of information by March 18, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to: www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. In addition, written comments that are sent to OMB also should be submitted electronically at: <http://www.regulations.gov>, under Docket No. CPSC-2012-0030.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7991, or by email to: cgillham@cpsc.gov.

SUPPLEMENTARY INFORMATION: On December 10, 2021, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. 86 FR 70476. The Commission received no comments. Accordingly, CPSC seeks renewal approval for the following collection of information:

Title: Safety Standard for the Flammability of Carpets and Rugs and Standard for the Flammability of Small Carpets and Rugs.

OMB Number: 3041-0017.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of carpets and rugs.

Estimated Number of Respondents: Approximately 120 firms are subject to the information collection requirements under the FFA. An estimated 100 firms issue a general conformity certificate (GCC) or a children's product certificate (CPC). In addition, an estimated 20 firms elect to issue a guaranty of compliance with the FFA. Staff estimates that the average firm issuing a GCC, CPC, or guaranty under the FFA is required to conduct, on average, 100 tests per year, although the actual number of tests required by a given firm may vary, depending upon the number of carpet styles and the annual production volume.

Estimated Time per Response: For firms issuing a GCC or CPC, staff estimates that the time to conduct each test is 2.0 hours, including the time required to establish and maintain the test records. For firms issuing a guaranty of compliance, staff estimates that the time to conduct each test is 2.5 hours, including the time required to establish and maintain the test records.

Total Estimated Annual Burden: Staff estimates the total annualized burden to respondents to be 25,000 hours (20,000 hours for firms that issue a GCC/CPC plus 5,000 hours for firms that issue a guaranty of compliance).

Total Estimated Annual Cost to Respondents: The total annualized costs to all respondents for the hour burden for collection of information is estimated to be as high as \$1,557,750 using a mean hourly employer cost-per-hour-worked of \$62.31 (Bureau of Labor Statistics: Total compensation rates for management, professional, and related

occupations, June 2021) (25,000 hours × \$62.31).

General Description of Collection: The Standard for the Surface Flammability of Carpets and Rugs (16 CFR part 1630) and the Standard for the Surface Flammability of Small Carpets and Rugs (16 CFR part 1631) establish requirements to reduce the flammability of carpets and rugs. The standards' provisions include requirements for testing and recordkeeping for manufacturers and importers who furnish guaranties subject to the carpet and rug flammability standards. Separate from the guaranties, the Consumer Product Safety Improvement Act of 2008 (CPSIA) established product certification requirements for applicable consumer product safety standards and rules. 15 U.S.C. 2063. Manufacturers and importers of carpets and rugs intended for general use must certify in a GCC that the product complies with the applicable standards based on testing or a reasonable testing program. Manufacturers and importers of children's carpets and rugs must certify in a CPC that the product complies with the applicable standards based on testing by a CPSC accredited third-party conformity assessment body.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

COUNCIL ON ENVIRONMENTAL QUALITY

[CEQ-2022-0001]

Carbon Capture, Utilization, and Sequestration Guidance

AGENCY: Council on Environmental Quality (CEQ).

ACTION: Notice of availability; request for comments.

SUMMARY: Consistent with the Utilizing Significant Emissions with Innovative Technologies (USE IT) Act, the Council on Environmental Quality (CEQ) is announcing the availability of and seeking comment on an interim guidance document, "Carbon Capture, Utilization, and Sequestration Guidance," to assist Federal agencies with the regulation and permitting of CCUS activities in the United States.

DATES: CEQ must receive comments by March 18, 2022.

ADDRESSES: You may submit comments, identified by docket number CEQ-2022-0001, by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax:* (202) 456-6546.

- *Mail:* Council on Environmental Quality, 730 Jackson Place NW, Washington, DC 20503.

Instructions: All submissions received must include the agency name, "Council on Environmental Quality," and docket number, CEQ-2022-0001. All comments received will be posted without change to <https://www.regulations.gov>, including any personal information provided. Do not submit electronically any information you consider to be private, Confidential Business Information (CBI), or other information, the disclosure of which is restricted by statute.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Amy B. Coyle, Deputy General Counsel, 730 Jackson Place NW, Washington, DC 20503, (202) 395-5750 or Amy.B.Coyle@ceq.eop.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Utilizing Significant Emissions with Innovative Technologies (USE IT) Act, Public Law 116-260, div. S, 102, 134 Stat. 1182, 2243 (2020), the Council on Environmental Quality (CEQ) is issuing this guidance for Federal agencies on the facilitation of reviews associated with the deployment of carbon capture, utilization, and sequestration (CCUS) projects and carbon dioxide pipelines, and to support the efficient, orderly, and responsible deployment of CCUS projects and carbon dioxide pipelines, where appropriate. This guidance is consistent with CEQ's report, "Council on Environmental Quality Report to Congress on Carbon Capture, Utilization, and Sequestration" (CEQ CCUS Report or Report) issued in June 2021.¹

Context

The CEQ CCUS Report² recognized that to reach the President's ambitious climate goal of net-zero emissions economy-wide by 2050, the United States will likely have to capture, transport, and permanently sequester significant quantities of carbon dioxide. There is growing scientific consensus
