The Supporting Statement must be prepared in the format described below, and must contain information specified in Section A below. If an item is not applicable, provide a brief explanation. Specific Instructions

A. Justification

Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of

the appropriate section of each statute and regulation mandating or authorizing the collection of information.

1. The Export Import Bank of the United States (EXIM) pursuant to the Export Import Bank Act of 1945, as amended (12 USC 635, et seq), facilitates the finance of export of U.S. goods and services. By neutralizing the effect of export credit insurance and guarantees offered by foreign governments and by absorbing credit risks that the private sector will not accept, EXIM enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. This collection of information is necessary, pursuant to 12 USC Sec. 635 (a) (1), to review and identify the specific details of the disbursement request and ensure that the request is complete and in compliance with EXIM's disbursement requirements to determine the eligibility of the local cost for EXIM support.
2. Indicate how, by whom and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

EXIM staff will review the information in this form in conjunction with disbursement documentation to determine whether to approve a disbursement request.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

EXIM will accept this form electronically in a disbursement portal for certain EXIM long-term guarantee and direct loan transactions. The portal will offer EXIM's borrowers the opportunity to electronically submit a disbursement request to EXIM using this form and attaching disbursement documentation which reduces the paperwork burden and processing times and minimizes the expense of using mailing services.

4. Describe effort to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

Each form is independent of the other, i.e., no duplication, since each form corresponds to a unique EXIM transaction and disbursement request.

5. If the collection of information impacts small businesses or other small entities describe any methods used to minimize burden.

Not applicable.

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.
