SCIENCE AND TECHNOLOGY POLICY OFFICE

Orbital Debris Research and Development Plan

AGENCY: Office of Science and Technology Policy (OSTP).

ACTION: Notice of Request for Comment (RFC).

SUMMARY: On behalf of the National Science and Technology Council (NSTC), Committee on Homeland and National Security, Subcommittee on Space Weather Security and Hazards, Interagency Working Group on Orbital Debris Research and Development, OSTP requests input from all interested parties on the Orbital Debris Research and Development (R&D) Plan, which will inform the Orbital Debris Research and Development Interagency Working Group's activity for building out an implementation plan.

DATES: Responses are due by December 31, 2021.

ADDRESSES: Interested individuals and organizations should submit comments electronically to Ezinne Uzo-Okoro at OrbitalDebris@ostp.eop.gov. Further information may be received by calling 202-456-4444.

Instructions: Response to this RFC is voluntary. Respondents need not reply to all questions listed. Each individual or institution is requested to submit only one response. OSTP and/or NSTC may post responses to this RFC, without change, on a Federal website. OSTP, therefore, requests that no business proprietary information, copyrighted information, or personally identifiable information be submitted in response to this RFC. Please note that the United States Government will not pay for response preparation, or for the use of any information contained in the response.

SUPPLEMENTARY INFORMATION: The Orbital Debris Interagency Working Group has commenced the development of an implementation plan to be released in 2022. Pursuant to 42 U.S.C. 6622, OSTP is soliciting public input through this RFC to obtain recommendations from a wide range of stakeholders, including representatives from diverse industries, academia, other relevant organizations and institutions, and the general public. The public input provided in response to this RFC will inform OSTP and NSTC as they work with Federal agencies and other stakeholders to develop an Orbital Debris implementation plan. This implementation plan is building off the R&D plan published in January 2021.

Implementing this plan will close critical gaps in the knowledge and capabilities needed to meet current and growing challenges of orbital debris risk management. The R&D Plan organizes the orbital debris challenges and research topical areas into three main areas of orbital debris research and development: limiting debris generation by design, tracking and characterizing debris, and remediating or repurposing debris. OSTP seeks public input from the R&D community on what R&D areas are priorities for government-sponsored initiatives/coordination, the roles of academia, nonprofit, and industry actors in addressing these actions, and potential avenues for coordination between actors across public and private sectors.

Questions To Inform Development of the Plan

OSTP seeks responses to the following questions to improve government coordination and to provide long-term guidance for Federal

programs and activities in support of the United States Orbital Debris Research & Development implementation plan.

(1) The extent to which progress in the R&D topical areas identified in the Orbital Debris R&D Plan will address the orbital debris challenges. What, if any, R&D areas are missing?

(2) Among the topic areas listed in the R&D Plan, what are the highest priority R&D areas (up to five) for making progress in addressing the challenges posed by orbital debris to the space environment?

(3) What near-term actions can be taken by the Federal government to make progress towards high priority R&D areas? How would these specific actions address the orbital debris challenges in the near term?

(4) What R&D activities would be most valuable in the long-term or would be the most transformative to addressing orbital debris challenges?

(5) What are the opportunities to partner with entities outside the Federal government, nationally and internationally? What are the viable and potentially innovative mechanisms to partner most effectively?

Dated: November 1, 2021.

Stacy Murphy,

Operations Manager.

Proposed Collection; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street, NE, Washington, DC 20549-2736

Extension:

Form 40-F

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Form 40-F (17 CFR 249.240f) is used by certain Canadian issuers to register a class of securities under Section 12 of the Securities Exchange Act of 1934

("Exchange Act") (15 U.S.C. 78l) or as an annual report pursuant to Section 13(a) or 15 (d) of the Exchange Act (15 U.S.C. 78m(a) or 78o(d)). The information required in the Form 40-F is used by investors in making investment decisions with respect to the securities of such Canadian companies. We estimate that Form 40-F takes approximately 431.42 hours per response and is filed by approximately 132 respondents. We estimate that 25% of the 429.93 hours per response (107.855 hours) is prepared by the issuer for a total reporting burden of 14,237 (107.855 hours per response × 132 responses).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Please direct your written comment to David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street NE, Washington, DC 20549 or send an email to: PRA_Mailbox@sec.gov.

Dated: November 1, 2021.

Interagency Statement on Sound Practices

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in the Interagency Statement on Sound Practices Concerning Elevated Risk Complex Structured Finance Activities ("Statement") under the Securities

Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) ("Exchange Act") and the Investment Advisers Act of 1940 (15 U.S.C. 80b *et seq.*) ("Advisers Act").

The Statement was issued by the Commission, together with the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the Office of Thrift Supervision (together, the "Agencies"), in May 2006. The Statement describes the types of internal controls and risk management procedures that the Agencies believe are particularly effective in assisting financial institutions to identify and address the reputational, legal, and other risks associated with elevated risk complex structured finance transactions.

The primary purpose of the Statement is to ensure that these transactions receive enhanced scrutiny by the institution and to ensure that the institution does not participate in illegal or inappropriate transactions.

The Commission estimates that approximately 5 registered broker-dealers or investment advisers will spend an average of approximately 25 hours per year complying with the Statement. Thus, the total time burden is estimated to be approximately 125 hours per year.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

The public may view background documentation for this information collection at the following website: www.reginfo.gov. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to (i) www.reginfo.gov/public/do/PRAMain and (ii) David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John R. Pezzullo, 100 F Street NE, Washington, DC 20549, or by sending an email to: PRA_Mailbox@sec.gov.
