

Dear Sir/Madam,

OMB No. 0535-0256 Exp. Date 6/30/2024

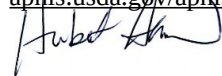

You recently received a Feral Swine Survey. If you have already responded, thank you. If not, there is still time. We recommend you respond online using the new Respondent Portal. On the portal, producers can complete their surveys, access data visualization and reports of interest, link to other USDA agencies, get a local weather update and more.

Your response is important. The results of this survey will help measure the amount of damage that feral pigs cause to crops, lawns, landscaping, and natural areas due to their feeding, wallowing, grazing, and trampling activities.

This survey focuses on damage to corn, soybeans, wheat, rice, peanuts, and sorghum; your responses will help us assess the extent of the impact that feral swine have on this sector of agriculture.

The information you provide will be used for statistical purposes only. In accordance with federal law, your responses will be kept confidential. For more information about research related to this survey, visit

Sincerely,
aphis.usda.gov/aphis/resources/pests-diseases/feral-swine/feral-swine-resources.

Hubert Hamer
Administrator, National Agricultural Statistics Service

Online reporting is fast and secure. All you need is your survey code to begin. To complete your survey, follow these steps:

1. Go to: ***www.agcounts.usda.gov***
2. Enter your survey code:
3. Complete the survey through the Conclusion section and select **Submit Survey**

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB number is **0535-0256**. The time required to complete this information collection is estimated to average **30** minutes, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information.
