

ATTACHMENT 2: Email Correspondence with Grantees and Teacher Participants

Grantee Pre-notification

Dear \${m://FirstName} \${m://LastName},

As a recipient of a grant from NOAA B-WET (Award Number \${e://Field/AwardPanel}), we would like your organization, \${e://Field/Organization}, to participate in our national evaluation system. The evaluation results will provide insight into how we can improve the NOAA B-WET program and tailor our services to you and the teachers and students you serve.

All grantees will receive an online survey at the end of their award year. If your organization provides B-WET-funded professional development (PD) for teachers, we will also collect teacher contact information from you (email addresses only) so that we can survey them following their PD, and again at the end of the school year following their PD. All of the results that are viewed by NOAA B-WET staff will be aggregated at the regional or national level, and we will not review individual organizations' or teachers' results.

Additional information about this project, including background, FAQs, survey instruments, and suggested text for communicating with your teacher participants about this project, is available on the B-WET National Evaluation website here: <http://www.noaa.gov/office-education/bwet/grantee-resources/national-evaluation>

Thank you in advance for your participation in NOAA B-WET's evaluation system!

PD and MWEE Teacher Pre-notification

We are contacting you as a participant in a professional development program provided by \${e://Field/PROJECT} - \${e://Field/ORGANIZATION}, and funded by the National Oceanic and Atmospheric Administration's Bay Watershed Education and Training program (NOAA B-WET). \${e://Field/ORGANIZATION} and NOAA would like your feedback on the professional development.

The questionnaire will take about 20-30 minutes to complete.

At the end of the school year following the completion of the professional development, you will receive a request to complete a follow-up questionnaire. That questionnaire will ask you whether you taught your students about water bodies and watersheds and what additional resources you need.

Your responses will be anonymous. None of the data you provide will be associated with your name or other identifying information.
