DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Fishery Products Subject to Trade Restrictions Pursuant to Certification Under the High Seas Driftnet Fishing (HSDF) Moratorium Protection Act.

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 9, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Fishery Products Subject to Trade Restrictions Pursuant to Certification Under the High Seas Driftnet Fishing (HSDF) Moratorium Protection Act.

OMB Control Number: 0648-0651.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 100 respondents annually filing 50 responses each.

Average Hours per Response: 0.167.

Total Annual Burden Hours: 835 hours.

Needs and Uses: National Marine Fisheries Service's Office of International Affairs and Seafood Inspection is requesting an extension of a currently approved information collection.

The information collection involves certification of admissibility for importation of certain fish and fish products that are subject to requirements of the High Seas Driftnet Fishing Moratorium Protection Act (Moratorium Protection Act) or the Marine Mammal Protection Act (MMPA).

Pursuant to a final rule implementing certain provisions of the Moratorium

Protection Act (RIN 0648-BA89), certain fish or fish products of a nation may be subject to import prohibitions. To facilitate enforcement, the National Marine Fisheries Service (NMFS) requires that other fish or fish products from that nation that are not subject to the import prohibitions must be accompanied by documentation of admissibility. A duly authorized official/agent of the applicant's Government must certify that the fish in the shipments being imported into the United States (U.S.) are of a species, or from fisheries, that are not subject to an import restriction. If a nation is identified under the Moratorium Protection Act and fails to receive a positive certification decision from the Secretary of Commerce, products from that nation that are not subject to the import prohibitions must be accompanied by the documentation of admissibility.

Under the Marine Mammal Protection Act, import certification requirements apply in cases where foreign fisheries do not meet U.S. standards for marine mammal bycatch mitigation. A final rule (RIN 0648-AY15) implemented a procedure for making comparability findings for nations that are eligible for exporting fish and fish products to the United States. The nations may receive a comparability finding to export fish and fish products by providing documentation that a nation's bycatch reduction regulatory program is comparable in effectiveness to that of the United States. Fish and fish products from a foreign fishery without a comparability finding are prohibited from entry into U.S. commerce. To facilitate enforcement, NMFS requires that other fish or fish products from that nation that are not subject to the import prohibitions must be accompanied by documentation of admissibility.

The Certification of Admissibility information is used by Customs and Border Protection authorities to determine that inbound seafood shipments are not subject to trade restrictions. NMFS uses the information to ensure compliance with fish product embargos and to assess compliance with international fishery management regulations.

Affected Public: Business or other for-profit organizations.

Frequency: Dependent upon import rate of fish or fish products subject to prohibition(s).

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: 50 CFR part 216; 50 CFR part 300, subpart N.

This information collection request may be viewed at www.reginfo.gov.

At that time, CEQ will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The information collection activity provides a means to garner qualitative stakeholder feedback in an efficient, timely manner. CEQ envisions using surveys and focus groups to enhance customer service, improve product development, target messaging, ensure quality control, engage with stakeholders, and spur innovation. Information gathered will yield

qualitative information; the collections will not be designed or expected to yield statistically representative results, but rather provide insight about the challenges that subsets of stakeholders face. This feedback will provide insights into stakeholder perceptions, experiences and expectations, provide an understanding of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between CEQ and its stakeholders. It also will allow feedback to contribute directly to the improvement of program management and services. The solicitation of feedback will target areas such as timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. CEQ will assess responses to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from stakeholders on CEQ’s services will be unavailable.

CEQ will only submit a collection for approval under this generic clearance if the collections are voluntary; the collections are low burden for respondents and are low- or no-cost for both the respondents and the Federal Government; the collections are noncontroversial and do not raise issues of concern to other Federal agencies; the collections are targeted to the solicitation of opinions from respondents who have experience with a program or may have experience with a program in the near future; personally identifiable information is collected only to the extent necessary and is not retained; information gathered will be used only internally for general service improvement and program management purposes; information gathered will not be used for the purpose of substantially informing influential policy decisions; and information gathered will yield qualitative information.
