DEPARTMENT OF DEFENSE

Department of the Army Narrative Statement for a Modified System of Records Under the Privacy Act of 1974

- 1. System name and number: Academy Management System, A150-1 USMA
- 2. <u>Nature of proposed modifications for the system:</u> The United States Military Academy (USMA) requests a new System of Record Notices (SORN) to replace and consolidate other SORNs. The consolidation is driven by a new Army Regulation (AR), and the consolidation of multiple information technology (IT) systems into a single IT system of systems. The changes convey, more accurately and in a single place, the evolved status of the Academy Management System (AMS). Below is an elaboration of each change.
- a. This request reflects an effort to consolidate multiple SORNs into a single SORN which itself represents a consolidation of formerly independent systems into an integrated system of systems. The consolidation includes the following SORNs
 - (1) A0037-104-3 USMA, USMA Cadet Account System
 - (2) A0351-17a USMA, USMA Candidate Files
 - (3) A0351-17b USMA, USMA Academy Management System
 - (4) A0614-100/200 USMA, Evaluation/Assignment of Academic Instructors
 - (5) A0351-12DAPE, Applicants/Students, USMA Prep School
- b. Over the course of years, USMA has sought to combine the functionality of multiple disconnected and disparate automated and manual systems into a coherent information collection called the Academy Management System (AMS) that supports decision making by USMA leadership. As part of recent efforts to improve the auditable implementation of the Risk Management Framework (RMF), USMA is reducing the number of individual declarations and consolidating them into a single System of Record Notice (SORN). USMA expects to expend fewer resource to maintain a single SORN over time, than it previously expended for multiple SORNs.
- 3. Specific authority under which USMA maintains the system of records: 5 U.S.C. 301, Departmental Regulations, 10 U.S.C. 7013 Secretary of the Army; 10 U.S.C. 7440 Quartermaster, 10 U.S.C. 7450 Cadets: Clothing and Equipment, 10 U.S.C. 9431, Establishment: Superintendent: Faculty; 10 U.S.C. 9432 Departments and Professors: Titles: 10 U.S.C. 9434, Command and Supervision; US Army Regulation 150-1 USMA Organization, Administration, and Operation and E.O. 9397 (SSN), Title 7—Fiscal Guidance, General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies.
- 4. <u>Evaluation of the probable or potential effect on the privacy of individuals:</u> The risk of unauthorized access to records is medium due to the high impact personally identifiable information (PII) stored in AMS, the quantities of such PII, the extensive use of AMS throughout the academy. Compensatory policy and technical controls reduce the residual risk of storing and maintaining high impact PII to medium.

Individual effects will vary based on the nature of a breach and whether breached data was high, medium, or low impact PII. High impact PII breaches will create risks of identity theft and

institutional reputational harm to USMA. Low impact PII breaches will create risks of embarrassment for the leaked parties as well as USMA (e.g., grades for courses).

5. Routine use compatibility:

Routine Uses are set forth in 32 CFR Appendix C to Part 310 with procedures and sanctions set forth in 5 U.S.C. 552a(b) of the Privacy Act of 1974.
