

Dave Purchase Memorial Survey

Public reporting burden of this collection of information is estimated to average 35 minutes per survey, including the time for reviewing instructions, administering questions and entering responses. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, US8-4, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New).

Hidden variable: Year of recall period. This is the period that the participant will be asked to recall throughout the survey. This needs to be updated manually by survey staff each time the survey is administered.

_____ (Must be 4 digits.)

PI1. Are you completing this survey by yourself or by speaking with an interviewer?

- Completing survey myself
 Completing survey with interviewer

Thank you for taking the time to complete this program survey.

When answering questions, please refer to the period from January 1, [year], to December 31, [year] unless otherwise stated. If program data are not available, please use your best estimate to complete the questions below. If your program only operated during some of the specified time period, please provide information reflective of the time period(s) during which your program did operate.

If you need any clarifications about any of the questions in this survey or how this information will be used, please contact [project coordinator name, phone, email].

If you need to step away, PLEASE REMEMBER TO SAVE YOUR SURVEY, as not saving it will result in losing your responses. To save, first click on the save button at the bottom of the screen. You will then be prompted to enter an email address and a link will be sent to you to continue the survey later.

Thank you for taking the time to complete this program survey.

PI3b. Enter the year. If you do not remember the
exact year, please provide your best estimate.
Please enter four digits.

(IF REFUSED OR DON'T KNOW, LEAVE BLANK.)

Error Message: "The year the program started is later than [year]. Please confirm that this year is accurate."

First, we would like to ask a series of questions about your program and the services your program provided between January 1, [year], and December 31, [year]. Following these questions, we will then ask a few of the same questions about 2020. The COVID-19 pandemic likely impacted program operations and services provided by programs nationwide during 2020, so this information will be extremely important to help understand these impacts and the continuing challenges to programs moving forward.

PI4. Did your program provide any services at any
time between January 1, [year], and December 31,
[year]?

- Yes
 No

The next set of questions is about your program background and overall set-up. All information is important, and we appreciate your time and effort in completing this survey. However, we understand if you cannot answer some of these questions; in these situations, you have an option to select "don't know" or "refuse to answer" responses, whichever best applies.

Automatic hidden variable: Respondent start time

PC7. What were your program's total hours of operation in a typical week? If your program had more than one location (including mobile locations), consider the hours of operation for the overall program. For example, if your program had 3 locations, and each was open from 1-5pm for 5 days per week, that would be 20 hours, not 60 hours, of overall coverage for that week. If you do not know or prefer not to answer, you may leave the response blank.

To help us understand geographic coverage of syringe services programs, please enter the state and county(ies) where your program operates. If your program has multiple locations, please list counties for all locations. Please also consider mobile units in your responses.

The next set of questions pertain to syringe services provided by your program between January 1, [year], and December 31, [year].

SYR1. How many total sterile syringes did your program provide to clients? Please provide your best estimate if records are not readily available. If you do not know or prefer not to answer, you may leave the response blank.

SYR2. Did your program provide syringes to clients based on the clients' needs, without any restrictions?

- No
- Yes
- Refuse to Answer

SYR3. Did your program provide clients with extra syringes to distribute to other people in the community (i.e., secondary exchange or peer delivery)?

- No
 Yes
 Refuse to Answer

SYR4. Did your program provide training or other support for clients to distribute new, sterile syringes to others (i.e., secondary exchange) and/or facilitate syringe disposal?

- No
 Yes

In this section, we will ask you about overdose prevention services your program may have provided, such as overdose prevention training and naloxone distribution. As a reminder, we are asking about services provided by your program between January 1, [year], and December 31, [year].

PN1. What overdose prevention or treatment services did your program provide? Select all that apply.

- None
 Naloxone kits
 Naloxone prescription
 Fentanyl test strips
 Overdose prevention and response training for opioids
 Overdose prevention and response training for drugs other than opioids (e.g., cocaine, methamphetamine)
 Refuse to Answer

PN2. How many naloxone kits were distributed by your program? Please provide the number of kits distributed regardless of how many doses were contained in each kit. If your program does not collect these data, please provide your best estimate. If you do not know or prefer not to answer, you may leave the response blank.

PN3. How many doses were distributed in each naloxone kit by your program? If you do not know or prefer not to answer, you may leave the response blank.

PN4. In what ways did your program distribute naloxone kits? Select all that apply.

- Direct distribution from staff to client
 In-person delivery (kit delivered directly to client)
 Mail delivery (kit mailed to client)
 Secondary distribution (client distributes kit to peers)
 Provider referral for prescription or referral to pharmacy
 Offered at community-based overdose education events (open to the public)
 Offered at overdose education events for staff or clients of other organizations
 Refuse to Answer

PN5. What barriers, if any, did your program experience in providing naloxone to your clients? Select all that apply.

- No barriers
 High cost of naloxone
 Shortage of naloxone
 Legal/political climate
 Other (please describe)
 Don't Know
 Refuse to Answer

PN5spec. Specify other barrier in providing naloxone

The next set of questions are about the services your program provided or needed between January 1, [year], and December 31, [year]. This information will help us understand the services that programs are already providing, trying to expand, or adding to meet client needs. Please indicate next to each service whether your program 1) fully provided the service (that is, the service was provided at a level that fully met client needs), 2) partially provided the service (that is, the service was provided inconsistently or at a level that did not meet client needs), 3) did not provide the service and was not able to meet client needs, or 4) did not provide the service and most clients did not need the service. If service provision varied between January 1, [year], and December 31, [year], choose the option that best describes the provision of services during the majority of time during this period.

PE4spec. Specify other use for this information

PE5. Please use the space below for any other suggestions or comments for improving this survey to make it useful to programs.

You have now completed the survey. Thank you so much for your participation.

Before we end, we would like to document your preference on how information about your program is shared with others aside from the survey team. Others could include, for example, researchers, health department staff, and other syringe services programs. The survey team includes staff at the North American Syringe Exchange Network (NASEN), the University of Washington (UW), New York University (NYU), and the Centers for Disease Control and Prevention (CDC). As a reminder, data from this survey will only be reported in aggregate (that is, your responses will be grouped with those from other programs) in formats like presentations, publications and reports. Program names and any other information that could potentially identify a program, such as the state or county where a program operates, will never be reported.

PE6. Would you be willing to share your data with others aside from the survey team? Please remember that identifying information will never be reported.

- No, data cannot be shared
 - Yes, data can be shared
