Calendar Intro (AE)

NOTE: The content of the life history calendar (LHC) will remain the same in both interview modes, but wording variants for online interviews are being developed as part of the electronic LHC. -

CALENDAR_1

AE-1. (This is a calendar to help you remember when things happened, when they come up in the interview. At the end of the interview, you can keep it or, if you prefer, I can take it with me and shred it.

We will be talking about dates during the interview, and getting accurate dates is very important. At times I will ask you to enter specific events on the calendar. The boxes are small but you can use abbreviations that are meaningful to you. You may also wish to draw a line between the beginning and end of an event, such as a period of school or a pregnancy./

This interview includes a calendar to help you remember when things happened in your life, when they come up in the interview. Getting

accurate dates is very important. For some questions that ask about dates when things happened in your life once you enter the date the information will automatically be filled in the calendar. For other questions you will be asked to enter information directly into the calendar. There are buttons in the top left of the screen to hide or show the calendar. Notice that the calendar has rows for different events that may or may not have happened in your life such as a pregnancy or marriage.)

CALENDAR_2

AE-2. (Notice that the calendar's boxes start with [CMJAN3YR_FILL]. Some things that I ask about will have happened since then and others will have happened longer ago. The column labeled "Before [THREEYRS_FILL]" is for you to note things that happened before [THREEYRS_FILL]./ The most detailed part of the calendar starts at [CMJAN3YR_FILL]. Some things you will be asked about will have happened since then and others will have happened longer ago. The section labeled "Before [THREEYRS_FILL]" is for things that happened before [THREEYRS_FILL].)

CALENDAR_3

AE-3. (Now I'd like you to write your date of birth on the calendar on the line marked "Your Date of Birth". Then, find the month and year of your last birthday and write your age in the box right underneath it (*read if necessary*: in the row labeled "Your Age"). Now, please write your age under your birth month for the other years on the calendar./ You can see that your age is already filled in on the calendar based on what you reported earlier.)

CALENDAR_4

AE-4. (Sometimes we'll be asking how old you were at a particular event in your life. Remember that your age at the event will depend on whether it happened before or after your birthday in that year. You can use the calendar to help figure that out./ Some questions will ask you how old you were at a particular event in your life.
