Cruise Ship Enhanced Data Collection During COVID-19 Pandemic

PID 305

Actions: Download PDF of instrument(s)

⊞ <u>VIDEO: Basic data entry</u>

CS COVID EDC

Total # of crew members onboard: * must provide value	H (
Closest seaport at time of submission (City): * must provide value	H >					
Closest seaport at time of submission (Country): * must provide value	H >					
Symptomatic Case Counts and Diagnostic Testing: Please ensure these counts are independent of each other (i.e., crew member is not listed as an ILI and a pneumonia case). Enter Numbers Below (Unless Otherwise specified)						
What is your ARI case count for the specified time period? * must provide value	Acute Respiratory Illness (ARI) is defined as the presence of cough, sore throat, or rhinorrhea in the absence of fever and in the absence of a non-infectious diagnosis as determined by the ship's medical provider (e.g., allergies)					
What is your ILI case count for the specified time period? * must provide value	Influenza-like Illness (ILI) is defined as fever (100.4 °F [38 °C]) plus either cough or sore throat in the absence of another diagnosis.					
What is your pneumonia case count for the specified time period? * must provide value	H >					
What is your Additional COVID-19-Like Illness (aCLI) case count for the specified time period? * must provide value	NOTE: If a person meets criteria for ARI, ILI, or pneumonia, please do <u>not</u> include them in this section. Additional COVID-19-Like Illness (aCLI) criteria: 1) At least <u>TWO or more</u> of the following symptoms: chills, rigors, muscle or body aches (myalgias), headache, fatigue, nasal congestion, vomiting, or diarrhea, OR 2) At least <u>ONE or more</u> of the following symptoms: fever (without meeting ILI criteria or pneumonia diagnosis above), new loss of taste or smell, shortness of breath, or difficulty breathing					

How many symptomatic persons were tested for influenza via rapid diagnostic test? * must provide value	H 1
Of the symptomatic persons tested for influenza via rapid diagnostic test, how many tested positive? * must provide value	H P
How many symptomatic persons were tested for COVID-19 via PCR test? * must provide value	Note: Do not include asymptomatic persons tested for routine screening or disembarkation and/or repatriation - see question below
Of the symptomatic persons tested for COVID-19 via PCR test, how many tested positive? * must provide value	H >
Of the symptomatic persons tested for COVID-19 via PCR test, how many have pending results? * must provide value	H >
Of the symptomatic persons tested for COVID-19 via PCR test who had pending results on the <u>previous EDC submission</u> , how many of those were positive? * must provide value	H (

How many symptomatic persons were tested for COVID-19 via rapid antigen test? * must provide value	Note: Do not include asymptomatic persons tested for routine screening or disembarkation and/or repatriation - see question below
Of the symptomatic persons tested for COVID-19 via rapid antigen test, how many tested positive? * must provide value	B
What brand of test was used?	H P
How many symptomatic persons were tested for antibodies to coronavirus or COVID-19 via rapid serology* test? * must provide value	Note: Do not include asymptomatic persons tested for routine screening or disembarkation and/or repatriation - see question below
Of the symptomatic persons tested for antibodies to coronavirus or COVID-19 via rapid serology* test, how many tested positive? * must provide value	H >
What brand of test was used?	B -
How many symptomatic persons needed hospitalization? * must provide value	H 1
Of those hospitalized, how many required mechanical ventilation? * must provide value	H >
Of those hospitalized, how many were medically evacuated from the ship? * must provide value	H >

Asymptomatic Case Counts and Diagnostic Testing: Enter numbers below (unless otherwise specified)	
after	: This includes testing (a) while onboard, (b) within 48 hours disembarking, and (c) between 48 hours - 7 days after nbarking
repatriation, how many tested positive?	: Any positive test results from crew members who were d between 48 hours - 7 days after disembarking the ship ld be reported to CDC by email (without personally identifiable mation (PII)) to <u>eocevent349@cdc.gov</u> not via EDC**
Of the asymptomatic persons tested for COVID-19 via PCR test for routine screening or disembarkation and/or repatriation, how many have pending results? * must provide value	
many of those were positive?	: Any positive test results from crew members who were d between 48 hours - 7 days after disembarking the ship ld be reported to CDC by email (without personally identifiable mation (PII)) to eocevent349@cdc.gov not via EDC**

How many <i>asymptomatic</i> persons were tested for COVID-19 via rapid antigen test for routine screening or disembarkation and/or repatriation? * must provide value	Note: This includes testing (a) while onboard, (b) within 48 hours after disembarking, and (c) between 48 hours - 7 days after disembarking
Of the asymptomatic persons tested for COVID-19 via rapid antigen test for routine screening or disembarkation and/or repatriation, how many tested positive? * must provide value	Note: Any positive test results from crew members who were tested between 48 hours - 7 days after disembarking the ship should be reported to CDC by email (without personally identifiable information (PII)) to eocevent349@cdc.gov not via EDC**
What brand of test was used	H >
How many <i>asymptomatic</i> persons were tested for antibodies to coronavirus or COVID-19 via rapid serology* test for routine screening or disembarkation and/or repatriation? * must provide value	Note: This includes testing (a) while onboard, (b) within 48 hours after disembarking, and (c) between 48 hours - 7 days after disembarking
Of the asymptomatic persons tested for antibodies to coronavirus or COVID-19 via rapid serology* test for routine screening or disembarkation and/or repatriation, how many tested positive?	H >
What brand of test was used?	(H)
