## Potential Private Pension Benefit Information

Refer to: S2BC3  
Date April 17, 2019

Dear Mr. 

We are returning your request for information about deferred vested pension rights because we have no pension information recorded under the name and Social Security number you furnished.

We have information about a participant's rights under a pension plan only after he or she either:

- stops working under the plan, or
- has had a break in service of a special period within the plan.

Plan administrators have up to 7 months after the close of the plan year to file a deferred vested rights report. This information should be available in our records about 15 to 18 months after the end of the plan year. If you stopped working or had a break in service, a report may be on its way. Rather than wait, you may wish to contact your Plan Administrator directly.

The information we have given you applies only to deferred vested benefit rights under private pension plans. It does not apply to your Social Security earnings record or any Social Security benefits to which you may be entitled.

We apologize for the delay in answering your letter.
