Appendix G—Document Review Abstraction Template

Note: The data abstraction template will be used to glean information from multiple sources. We will conduct content analyses to identify structural characteristics and distinguish approaches to policies, professional supports, and practices related to HS2K transitions (i.e., three of the 4Ps) across Head Start grantees and LEAs and triangulate this information with information from the qualitative data analyses. The summary table will be used comparatively to identify similarities and contrasts related to organization structure, staffing, coordination and collaboration agreements between Head Start and Local Education Agencies, and HS2K transition activities and information for families.

Data Element	Description	Data Abstracted			
Organizational Structure and Staffing					
Head Start Grantee Organizational Type	Agency type				
Grantee Organization Role	Description of the role of the grantee in administrative and oversight				
Head Start Grantee Organization Structure	Description of the organization at the grantee level
