III. Preliminary Findings on the Application

MET submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and pertinent documentation, indicate that MET can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of these seventeen test standards for NRTL testing and certification listed in Table 1. This preliminary finding does not constitute an interim or temporary approval of MET's application.

OSHA welcomes public comment as to whether MET meets the requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, at the above address. These materials also are available online at <https://www.regulations.gov> under Docket No. OSHA–2006–0028.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary for Occupational Safety and Health whether to grant MET's application for expansion of its scope of

recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

Falls are a leading cause of death for employees. According to 2019 Bureau of Labor Statistics (BLS) data, falls accounted for 418 of the 1,061 construction fatalities, and 880 of the 5,333 fatalities in all recorded industries. The National Fall Safety Stand-Down to Prevent Falls in Construction raises fall hazard awareness across the country in an effort to stop fall fatalities and injuries. The Stand-Down is the biggest safety outreach event ever conducted by the agency. OSHA has collaborated with countless industry leaders and employers over the last eight years to reach over 10 million workers during Stand-Downs.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

Whether the proposed information collection requirements are necessary for the proper performance of the

agency's functions, including whether the information is useful;

The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

The quality, utility, and clarity of the information collected; and

Ways to minimize the burden on employers who must comply. For example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB approve the information collection requirements contained in the National Fall Safety Stand-Down to Prevent Falls in Construction (29 U.S.C. 669). In this information collection request, there are 4,500 respondents for an Occupational Health and Safety Specialists with 750 total burden hours.

Type of Review: Extension of currently approved collection.

Title: National Fall Safety Stand-Down to Prevent Falls in Construction.

OMB Control Number: 1218-0271.

Affected Public: Business or other for-profits.

Number of Respondents: 4,500.

Frequency of Responses: Annually.

Average Time per Response: OSHA estimates an employer will take 10 minutes to complete the survey.

Estimated Total Burden Hours: 750.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax) at (202) 693-1648; or (3) by hard copy. All comments, attachments, and other materials must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA-2017-0012). You may supplement electronic submissions by uploading document files electronically. Please note: While OSHA's Docket Office is continuing to accept and process submissions by regular mail, due to the COVID-19 pandemic, the Docket Office is closed to the public and not able to receive submissions to the docket by hand, express mail, messenger, and courier service. The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the agency can attach them to your comments.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth.

Although all submissions are listed in the <https://www.regulations.gov> index, some information (*e.g.*, copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.
