Universe:

Universe Description:

Help Screen: H_ACTIVITY

Question Text: ? [F1]

^Diary

✦ **Read if necessary:** An activity is anything you did during the day. Activities include both active tasks like socializing, preparing food, or eating; and more quiet tasks like thinking and relaxing. Right now, you are talking to me on the telephone. Talking on the telephone is one type of activity.

Question Text: ? [F1]

The next set of questions are about times you may have recently spent assisting or caring for an adult who needed help because of a condition related to aging. For example, as people grow older, it sometimes becomes difficult for them to perform various activities without help-such as grooming, driving, managing the household, taking medication or other common activities. Care may be provided in your home, their home or at a care facility.

• **Read if necessary:** A condition related to aging is an ongoing ailment or physical or emotional limitation that typically affects older people. Examples may include becoming more frail; having difficulty seeing, hearing, or physically moving; becoming more forgetful; tiring more quickly; or specific medical ailments that are more common among older adults. It refers to existing conditions that become progressively worse as one ages.

Question Text: ? [F1]

Not including financial assistance or help you provided as part of your paid job, since the 1st of ^THREE_Month, have you provided any care or assistance to an adult who needed help because of a condition related to aging?

• [Read if necessary](#). A condition related to aging is an ongoing ailment or physical or emotional limitation that typically affects older people. Examples may include becoming more frail; having difficulty seeing, hearing, or physically moving; becoming more forgetful; tiring more quickly; or specific medical ailments that are more common among older adults. It also refers to existing conditions that become progressively worse as one ages.
