

# FAA Form 7140-1, Notice of Proposed Outdoor Laser Operation(s)

### Who Should Complete and Submit This Form

Any person, entity, or proponent who plans to conduct outdoor laser operations with a visible laser beam exceeding 50 nanowatts per square centimeter in navigable airspace or with any laser beam (visible or non-visible) that exceeds the maximum permissible exposure in navigable airspace. FAA encourages proponents to contact the applicable FAA service center for guidance.

### **Instructions to Complete**

Consult FAA Advisory Circular (AC) 70-1 for detailed instructions to assist with completing and submitting this form. Refer to FAA Order JO 7400.2, Chapter 29 for additional background information. FAA provides public access to these documents via https://www.faa.gov/regulations\_policies.

Please print or type on this form and complete all sections prior to submission to the appropriate FAA service center. To enhance clarity, use plain language and numbers, e.g., decimal notation (0.7277) instead of scientific notation (72.77x10-2 or 72.77E-02). Failure to provide all requested information may delay processing.

#### **Paperwork Reduction Act Statement**

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number. The OMB control number for this information collection is 2120-0662. Public reporting for this collection of information is estimated to be approximately 240 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing, and reviewing the collection of information.

The Federal Aviation Administration (FAA) requires all responses to this collection of information if the proponent wishes to obtain or retain benefits available per Title 21 Code of Federal Regulations Part 1010 if projecting into navigable airspace. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177-1524.

Please print or type on this form. Failure to provide all requested information m	ay delay processing.

## Notice of Proposed Outdoor Laser Operation(s)

1. General information						
a. To (FAA Service Center)		b. From (Proponent)				
c. Name of event		d. Date				
or facility		prepared				
e. Customer		f. Site				
		address				
2. Date(s) and time(s) of laser operation	1					
a. Testing and alignment		b. Operation				
2 Drief description of least energies						
3. Brief description of laser operation						
4. On-site operation information						
a. Operator(s)						
b. On-site phone 1		c. On-site phone 2				
(primary)		(secondary)				
5 EDA/CDDH information (if applicable)						
5. FDA/CDRH information (if applicable)						
5. FDA/CDRH information (if applicable) a. Variance #			c. Accession #			
5. FDA/CDRH information (if applicable) a. Variance #	b. Variance expiration date		c. Accession #			
	b. Variance		c. Accession #			
a. Variance #	b. Variance expiration date		c. Accession #			
	b. Variance expiration date		c. Accession #			
a. Variance #	b. Variance expiration date		c. Accession #			
a. Variance #	b. Variance expiration date		c. Accession #			
a. Variance #	b. Variance expiration date		c. Accession #			
a. Variance #	b. Variance expiration date		c. Accession #			
a. Variance # 6. Brief description of control measures	b. Variance expiration date	rations and complete a Laser (

Please print or type on this form. Failure to provide all requested information may delay processing.								
Laser Configuration Worksheet								
<b>10. Configuration information</b> a. Configuration number (example: 7 of 9): of								
b. Brief description of configuration								
11. Geographic location								
a. Site elevation, in feet mean sea level:		d. Information deterr	mined by: 🗆 GPS 🗆 Ma	ap (topo) 🗆 Other:				
b. Laser height above site elevation, in fee	t above ground level:	e. Latitude: degrees, minutes, see			seconds			
c. Overall laser elevation (a) + (b), in feet m	nean sea level:	f. Longitude:	degrees,	minutes,	seconds			
12. Beam characteristics and calculation	ns (check only one mode of operation and fi	ll in only that column)						
Mode of Operation	□ Single pulse	🗆 Contin	uous wave	□ Repetitively p	ulsed			
a. Laser and beam characteristics								
Laser type (example: CO <sub>2</sub> , diode, or Nd:YAG)								
Laser hazard class (example: Class 2, Class 3B, Class 4)								
Power <i>Watts (W)</i>	(not applicable)	(maximum power)		(average power )				
Pulse energy Joules (J)		(not applicable)						
Pulse duration Seconds (s)		(not applicable)						
Pulse repetition frequency (PRF) <i>Hertz (Hz</i> )		(not applicable)						
Beam diameter at 1/e points Centimeters (cm)								
Beam divergence 1/e at full angle <i>Milliradians (mrad)</i>								
Wavelength(s) Nanometers (nm)								
b. Maximum permissible exposure (MP	<b>PE) values</b> (use this value to calculate the NC	DHD)						
MPE Milliwatts per square cm (mW/cm²)	(not applicable)							
MPE per pulse Joules per square cm (J/cm <sup>2</sup> )		(not ap	plicable)					
c. Visual effect calculations The following items are for lasers wit	th visible wavelengths (400 nm to 700 nm). If	f the laser has no visit	ole wavelengths, enter	"N/A (non-visible laser)" in a	II blocks.			
Pre-corrected power (PCP) Watts (W)	Pulse energy (J) x 4		power (W)	Pulse energy (J) x P				
Visual Correction Factor (VCF) Enter "1.0" or use FAA AC 70-1 Table 3								
Visually Corrected Power See FAA AC 70-1								
13. Beam direction(s)	1			I				
a. Minimum elevation angle (degrees, where horizontal = 0 degrees)		c. Azimuth (degrees, least to gr	reatest)		rue north or agnetic north			
b. Maximum elevation angle (degrees, where vertical = 90 degrees)		d. Magnetic declinati (degrees, if using m	ion					
14. Protection distances (fill in the entire	NOHD row and the entire column for the app	licable mode of opera	ation)					
	Slant range (feet)	Horizontal d	istance ( <i>feet</i> )	Vertical distance	(feet)			
a. NOHD (based on MPE value)								
The following items are for lasers wi	ith visible wavelengths (400 nm to 700 nm). If	f the laser has no visib	le wavelengths, enter	"N/A (non-visible laser)" in al	l blocks.			
b. SZED (for 100 μW/cm²)								
c. CZED (for 5 µW/cm²)								
d. LFED (for 50 nW/cm <sup>2</sup> )								
<b>15. Calculation method</b> Commercia	I software (enter product name and version	<i>below)</i> or □ Other (de	escribe method such a	as a spreadsheet or calculato	or below)
