## <u>Justification for No Material / Non-Substantive Change</u>

## OMB Collection 2120-0014

## December 17, 2019

We are changing the numerical designations for two of our approved forms.

- FAA Form 6000-8, Technical Performance Record will become
- FAA Form 6000-8A, Technical Performance Record
- FAA Form 6000-10, Technical Reference Data Record

will become

• FAA Form 6000-10A, Technical Reference Data Record

We are making this change because both FAA personnel and non-federal personnel use 6000-8 and 6000-10. Non-federal personnel use fillable versions. The FAA's Forms Management Office requested that we differentiate. Thus:

- Forms 6000-8 & 6000-10 will be <u>non-fillable forms for use by FAA personnel.</u>
- Forms 6000-8<u>A</u> & 6000-10<u>A</u> will be <u>fillable</u> forms for use by <u>non</u>-federally employed personnel.
  - O These versions of the forms will feature the Paperwork Reduction Act statement, as well as the OMB control number, 2120-0014, and expiration date, 07/31/2022.

**NOTE:** The abstract of the original submission refers to the original form numbers: 6000-8 and 6000-10. We are changing the form numbers to 6000-8 and 6000-10 and 5000-10 an
