Total Annual Burden (Hours).					11,580

Source: FDIC.

Burden Estimate:

General Description of Collection: The Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice describes the federal banking agencies' expectations regarding a response program, including customer notification procedures, that a financial institution should develop and apply under the circumstances described in the Guidance to address unauthorized access to or use of customer information

that could result in substantial harm or inconvenience to a customer. The Guidance advises financial institutions when and how they might: (1) Develop notices to customers; (2) in certain circumstances defined in the Guidance, determine which customers should receive the notices; and (3) send the notices to customers.

There is no change in the methodology or substance of this information collection. The increase in total estimated annual burden from 11,340 hours in 2019 to 11,580 hours currently is due to economic factors as reflected in the increase in estimated number of respondents.

It also directs Federally-regulated institutions to have written policies and procedures in place to ensure that their employees who perform mortgage loan originations comply with the registration and other SAFE Act requirements.

There is no change in the method or substance of the collection. The overall decrease in burden hours is the result of economic fluctuation. In particular, the number of respondents and time per response have decreased while the frequency of responses have remained the same.
