0535-0039 – Fruit, Nuts, and Specialty Crops

Hawaii Tropical Specialties Survey – July 2022 (Crop Year 2021)

The Hawaii Tropical Specialties Survey is done under cooperative agreement with the Hawaii Department of Agriculture (HDOA) on a full cost recovery basis.

As part of continually reviewing data needs from HDOA and crop trends, the following crops have been added & removed from the Tropical Specialties Survey.

| <u>Added</u> | <u>Removed</u> |
|-------------------------------------|------------------|
| Rangpur Lime, Noni, and Olive | Mysore Raspberry |

The changes appear in question 1 (screening) as well as the acreage, production, and price data in sections 2 and 3.

The revised questionnaire is loaded in the ROCIS submission system. These changes will not impact the current sample size or respondent burden.
