This section identifies the number of SNAP initial and recertification applications that were approved or denied, the total applications processed, and the number of applications that were approved beyond processing requirements, including expedited applications and recertifications. Counts entered into column (b), Denials, should only include those applications which were denied due to ineligibility. Do not include closed cases. Count only SNAP applications that were processed to a determination and do not count withdrawals or disaster applications. Counts should represent applications that were approved, denied and overdue during the reporting period of this form. Counts entered into Line 6b, Expedited Service – Recertifications, should only include those approved recertification applications eligible for expedited service received after the end of the certification period.

Report the total number of SNAP initial and recertification applications approved overdue during the report period by 1 and 30 days in 5(d) by adding 3(d)+4(d), between 31 and 60 days in 5(e) by adding 3(e)+4(e), between 61 and 90 days in 5(f) by adding 3(f)+4(f), and over 91 days in 5(g) by adding 3(g)+4(g). Totals should represent all applications that were received and processed to a determination during the report period.

FRAUD INVESTIGATIONS

This section reflects activity of fraud control unit(s), or similar investigative entities, within a State to investigate individuals suspected of SNAP eligibility fraud and/or trafficking benefits.

Investigations are: Effort by designated investigators (or investigator's representatives) to develop a record of fact used to determine whether sufficient documentary evidence of SNAP fraud or abuse exists to warrant civil, criminal or administrative legal action against an individual.

Investigations are not: Eligibility worker activity to verify information obtained through a data match at certification or recertification unless additional action by a SNAP investigator is required.

Each investigation (case) must be reported under *either* Eligibility Fraud *or* Trafficking, *and*, when applicable, Combined. The type of fraud that most appropriately reflects the matter investigated must be determined for each investigation. A case wherein multiple people are investigated is counted as one case.

LINE 8 - CASES / DAYS / HOURS

Count only investigations, not individuals. For example, if a single investigation of a household leads to the referral of multiple individuals for ADH or prosecution, count the investigation only once. ADH and prosecution outcomes for individuals are reported on lines 9 and 10.

(d) AVERAGE # OF DAYS PER CONCLUDED INVESTIGATION - Report the average length in days of all eligibility fraud investigations (cases) reported in 8(a) and 8(b): determine for each eligibility fraud investigation the total days from the day a case was referred for investigation to the day the investigation concluded and/or was canceled. Sum together the individual investigation lengths. Then, divide this sum by the total of 8(a) + 8(b). For cases that require additional investigation after ADH/prosecution referral is made, consider the referral date as the conclusion date.

(e) OPEN INVESTIGATIONS - Report the number of ongoing/unresolved eligibility fraud investigations (cases) at the time of reporting.

For cases that require additional investigation after ADH/prosecution referral is made, consider the referral date as the conclusion date.

COMBINED: Include all SNAP investigations.

(j) INVESTIGATOR HOURS - Report the total paid investigator hours that were eligible for FNS 50/50 reimbursement within the State during the report period. This amount can be determined by: using the actual hours used to calculate FNS reimbursement over the report period; or, by calculating a sum based on the designated percentage of total hours worked in a report period that an investigator, or investigators combined, spent on SNAP activity; or, by equivalent means appropriate for the State.
