SUBJECT: Justification for Non-Substantive Change to OMB Control No: 0584-0580
WIC Infant and Toddler Feeding Practices Study 2 Year 9 Extension to
inform participants of eligibility for possible future studies. No changes to
protocols or burden.

FNS is requesting a non-substantive change to the previously approved collection of WIC Infant and Toddler Feeding Practices Study 2 Year 9 Extension (WIC ITFPS-2 Y9) (OMB Control No. 0584-0580 exp. 2/28/2025).

The WIC ITFPS-2 Y9 aims to 1) collect data during the WIC ITFPS-2 study children's ninth year of life in order to better understand how WIC participation may impact the health and nutrition trajectories of school-aged children who previously received program benefits.

Although we do not currently anticipate extending the WIC ITFPS-2 at this time, future extensions of the study are not unprecedented since the original study plan was only designed to cover the first two years of the study participant's lives. Additionally, the participants in this study may be eligible and interested in participating in other future studies related to this unique cohort of participants.

In order to inform participants of the possibility of future studies we are requesting a simple change to the Year 9 telephone interview and the Year 9 replicate dietary intake interview (Appendices F1, F2, F3, and F4 of the study packet) sample. Specifically, one sentence will be added to the closing statement of the interviews: "We may contact you again if you are selected

for any other studies”. See Table 1 for the specific location of the additional sentence in each study document for which we are requesting this change. No changes are proposed to the level of burden for participants, the burden remains the same as the original OMB submission.

Table 1: Location of sentence informing participants of possible future studies in each document requiring change

Document	Page Number
App_F1. Year 9 telephone interview - English 2_9_21	Page 27
App_F2. Year 9 telephone interview - Spanish 2-9-21_	Page 29
App_F3. Year 9 replicate dietary intake interview – English	Page 3
App_F4. Year 9 replicate dietary intake interview - Spanish	Page 3

If you have any questions regarding this request, please contact Jamia Franklin, FNS Information Collection Clearance Officer for the Food and Nutrition Service, Planning & Regulatory Affairs Office at (703) 305-2403.
