REFUSAL CONVERSION

I'm sorry to hear that you do not wish to participate. The information you would have provided is very valuable to improving the program. Can you tell me the reason for choosing not to participate?

IF: I don't do surveys/don't want my child to participate in a study.

ANSWER: I understand, but this study will help the U.S. Department of Agriculture understand the food and activities provided in child care settings. The results will help improve the program.

IF: I don't know if you are who you say you are.

ANSWER: I can give you our 800 number to call and confirm the authenticity of the study.

IF: I don't know how the results will be used.

ANSWER: The U.S. Department of Agriculture needs to periodically assess programs funded by the government. This study will help them understand the food and activities provided in child care settings, and this information may help improve child care programs.

IF: I don't want the government to know about me/my child.

ANSWER: Researchers and program staff must follow all federal and state laws to protect your privacy. Study reports will combine your answers with those from others to summarize what we found. We will never report names or addresses. This way, no one can identify you, your child, or your child care provider.

IF: It's a bad time.

ANSWER: We can schedule a callback for a time that would be good for you.

Date _____ Time _____

IF STILL HESITANT: [SAMPLED SITE NAME] is one of about 1,300 child care providers across the country that are helping USDA understand the food and activities provided in child care settings. We want to be sure that the study includes people like yourself, to ensure that the study findings are fair and accurate. We really want to include your household in the study. If now is a bad time, we can schedule the interview during the day or in the evening, any time that is better for you.

IF RESPONDENT AGREES TO PARTICIPATE, RESUME INTERVIEW
