

F13. Food Description Guide

This page has been left blank for double-sided copying.

Food Description Guide

To be used with the **Menu Survey**
and the **Infant Menu Survey**

The Food and Nutrition Service (FNS) is collecting this information to understand the nutritional quality of CACFP meals and snacks, the cost to produce them, and dietary intakes and activity levels of CACFP participants. This is a voluntary collection and FNS will use the information to examine CACFP operations. The collection does request personally identifiable information under the Privacy Act of 1974. Responses will be kept private to the extent provided by law and FNS regulations. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-xxxx. The time required to complete this information collection is estimated to average 0.167 hours (10 minutes) per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314. ATTN: PRA (0584-xxxx). Do not return the completed form to this address.

This booklet describes the type of information to include when you are asked to describe food items on the **Daily Menu Forms** and the **Foods You Prepared Forms**.

Please refer to the **Table of Contents** on the following pages to help you find the foods you serve.

Please note that there is also a document that describes how to identify **whole grain-rich** food items.

If you are also completing the **Infant Menu Survey**, please refer to the section labeled “**Infant Specific Foods**” for examples of commonly served infant foods.

Table of Contents

Milk.....	1
Fruits and Vegetables.....	1
Separate Grains/Bread.....	2
Bread, Bagels, Buns, Rolls	
Cereal	
Crackers	
Muffins	
Noodles/Pasta	
Rice	
Pancakes, Waffles, French Toast	
Tortillas	
Meat/Meat Alternates.....	3
Beans	
Beef, Pork	
Cheese	
Chicken	
Eggs	
Fish	
Nuts	
Yogurt	
Mixed Component Foods.....	5
Burrito/Enchilada/Taco	
Spaghetti	
Pizza	
Macaroni and Cheese	
Soups	
Other Foods and Drinks.....	6
Condiments and Toppings	
Dressings and Dips	
Water	
Whole Grain-Rich Foods.....	6
Infant Specific Foods.....	11

Milk

Please provide the following information when describing the milk served:

- Fat content
 - Skim, non-fat, fat-free
 - 1%, low-fat
 - 2%, reduced-fat
 - Whole
- If the milk is flavored, specify the flavor, such as chocolate or strawberry
- If you serve lactose-free milk or non-dairy milk alternatives, specify in the “other type” row

Fruits and Vegetables

Please provide the following information when describing fruits and vegetables served:

- Form: fresh, canned, frozen, dried, or juice
- Chopped, sliced, mashed, blended, etc.
- Served with or without skin
- Anything added during preparation or cooking (sugar, butter, oil, salt, etc.)
- If canned fruit:
 - was it packed in water, juice, light syrup, heavy syrup, etc.?
- If fruit or vegetable juice
 - Flavor or type
 - 100% juice or juice drink
 - Sweetened/unsweetened
 - Regular or low calorie

-
- Calcium or vitamin C added
 - Brand name

Separate Grains/Bread

Please provide all of the following information when describing separate grains and bread items served.

Reminder: If the food was made from scratch or with two or more ingredients, please complete a "Food You Prepared Form" or provide a copy of the printed recipe.

Bread, Bagels, Buns, Rolls

- Type (white, wheat, whole wheat, raisin, blueberry, sesame, etc.)
- Brand or manufacturer
- Served with spread (butter, jelly, cream cheese, etc.)

Cereal

- Hot or cold
- Type of cereal
- Brand or manufacturer
- If served with milk, type of milk (whole, 2%, 1%, skim, etc.)

Crackers

- Type (saltine, oyster, cheese, etc.)
- Low-sodium or low-fat
- Brand (Keebler, Nabisco, Pepperidge Farms, etc.)

Muffins

- Type (blueberry, corn, raisin bran, banana, etc.)
- Brand or baked from scratch or a mix
- Served with spread (butter, jelly, honey, etc.)

Noodles/Pasta

- Form (macaroni, spaghetti, rotini, etc.)
- Type (regular or whole wheat)
- Brand name
- If served with sauce, please provide type of sauce and recipe or brand/manufacturer of sauce

Rice

- Type (white, brown, yellow, etc.)

-
- Cooking method (fried, boiled, steamed, etc.)
 - Brand name
 - Anything added during cooking (butter, oil, salt, etc.)

Separate Grains/Bread continued...

Pancakes, Waffles, French Toast

- Type (regular, whole grain, oat bran, etc.)
- Frozen, commercial, mix, or from scratch
- Brand name
- Served with spread: butter, syrup, etc.

Tortillas

- Type (flour, wheat, whole wheat, corn, etc.)
- Brand name
- Plain or fried

Meat/Meat Alternates

Please provide all of the following information when describing meat and meat alternates served.

Reminder: If the food was made from scratch or with two or more ingredients, please complete a "Food You Prepared Form" or provide a copy of the printed recipe.

Beans

- Kind (kidney, black, red, lentils, etc.)
- Form (fresh, frozen, canned)
- Anything added during cooking (butter, oil, salt, etc.)

Beef, Pork

- Type (steak, roast, ground, etc.)
- Fat content (regular, lean, % fat content)
- Cooking method (baked, broiled, fried, pan-seared, etc.)
- Was fat trimmed?
- If commercially prepared, what was the brand and product name?

Cheese

- Type (American, cheddar, Swiss, cottage cheese, ricotta, etc.)
- Fat content (whole, part-skim, non-fat)

-
- Form (cubed, sliced, shredded)

-

Meat/Meat Alternates continued...

Chicken

- What part/piece (breast, thigh, drumstick, wing)
- Served with skin or without skin
- Cooking method (baked, broiled, fried, etc.)
- If commercially prepared, what was the brand and product name?

Eggs

- Size egg (small, medium, large, extra-large)
- Parts of egg used (whole egg, white only, yolk only)
- Cooking method (fried, boiled, scrambled)
- Anything added during cooking (butter, oil, salt, etc.)
- If egg substitute, specify brand

Fish

- Type (haddock, sole, catfish, scallops, etc.)
- How it was prepared (baked, broiled, pan-seared, etc.)
- Anything added during cooking (sauce, butter, oil, salt, etc.)
- If canned, whether packed in water or oil

Nuts

- Kind (almonds, walnuts, peanuts, etc.)
- Type (dry roasted, honey roasted, sugared, salted, no salt, etc.)
- Whole, chopped, sliced, etc.
- If peanut butter: smooth, chunky, reduced-fat, regular, natural (without added salt, sugar, or oils)

Yogurt

- Brand
- Type (regular, Greek, etc.)
- Fat content (whole milk, low-fat, non-fat)
- Flavor (vanilla, peach, plain, strawberry, etc.)

-
- Additions (fruit, nuts, granola, sprinkles)

Mixed Component Foods

Please provide all of the following information when describing mixed component foods served.

Reminder: if the food was made from scratch or with two or more ingredients, please complete a "Food You Prepared Form" or provide a copy of the printed recipe.

Burrito/Enchilada/Taco

- If commercially prepared, what was the brand and product name?
- Type of meat/meat alternate (bean, beef, chicken, pork, cheese, or combination)
- Type of tortilla (flour, corn, wheat, whole wheat, etc.)
- Filling (cheese, rice, salsa, guacamole, beans, etc.)
- Toppings (cheese, sauce, sour cream, lettuce, tomato, salsa)

Spaghetti

- Type of pasta (regular or whole wheat)
- Type/brand of sauce (tomato sauce, tomato and meat sauce)
- With meat (beef, pork, turkey meatballs, grilled chicken, etc.)
- Toppings added (vegetables, parmesan cheese, etc.)

Pizza

- Type of crust (thin or thick, white or whole wheat, etc.)
- Toppings (pepperoni, cheese, sausage, mushroom, etc.)
- Made from scratch, restaurant pizza, or frozen
- If commercially prepared, what was the brand and product name?

Macaroni and Cheese

- Prepared from a mix, from scratch, or frozen
- Brand name
- Type of cheese (if from scratch)
- If milk added, type of milk (whole, 2%, 1%, skim, etc.)
- Anything added during cooking (salt, butter, margarine, hot dog slices, vegetables, etc.)

Soups

-
- Type of soup
 - Canned, frozen, dry mix, from scratch
 - Brand name
 - Low sodium or regular
 - Anything added during cooking (butter, oil, salt, etc.)

Other Foods and Drinks

Please provide all of the following information when describing other food items, such as condiments, toppings, dressings, dips, and water served.

Condiments and Toppings

- Including:
 - Ketchup, mustard, mayonnaise, BBQ sauce, etc.
 - Jelly, jam, honey, syrup, etc.
 - Butter, margarine, cream cheese, sour cream, etc.
 - Gravy, cheese sauce, etc.
- Brand name
- Type: low-fat, fat-free, reduced calorie, low-sodium, low-sugar

Dressings and Dips

- Brand name or from scratch
- Type (low-fat, non-fat, reduced calorie)

Water

- Tap or bottled
- What was it served in (cup, sippy cup, etc.)

Whole Grain-Rich Foods

Check the “whole grain-rich” box if the food meets the whole grain-rich criteria. If you are unsure whether a food is whole grain-rich, please refer to the USDA guidance provided next.

Identifying Whole Grain-Rich Foods for the Child and Adult Care Food Program Using the Ingredient List

The **ingredient list** is printed on the food packaging of products. This list includes information on flours, grains, and other ingredients that are in the product. On the ingredient list, the ingredients are listed in order of quantity. If a whole grain is listed first, you know there is more of that whole grain than anything else in the food.

In the United States Department of Agriculture’s Child and Adult Care Food Program (CACFP), you can identify grains that are whole grain-rich by looking at the first three **grain** ingredients that appear on the ingredient list. This method is known as the *Rule of Three*. If the ingredient list does not include three grain ingredients, you only have to look at the grain ingredients that are present. Some whole grain-rich foods may have only one grain ingredient.

In the CACFP, at least one offering of grains per day must be whole grain-rich for children and adults. Grain-based desserts may not count towards the grain component in the CACFP, even if the grain-based dessert is whole grain-rich.

Step-by-Step Guide To Identifying Whole Grain-Rich Foods Using the *Rule of Three*

1. Find the ingredient list □

This ingredient list is for bread. In this example, you would look at the full ingredient list to □ determine if the bread is whole grain-rich.

INGREDIENTS: Whole-wheat flour, water, yeast, brown sugar, wheat gluten, contains 2% or less of each of the following: salt, dough conditioners, soybean oil, vinegar, cultured wheat flour, citric acid.

The ingredient list shown here is for a frozen cheese pizza. Because pizza is a combination food, you can see the ingredients for all the foods within the cheese pizza, such as the crust, cheese, and sauce, are listed within one ingredient list. □ In this example, you would look at the ingredients for the crust, to determine if the grain component of this food is whole grain-rich.

INGREDIENTS: Crust: Whole-wheat flour, enriched wheat flour (bleached wheat flour, malted barley flour, niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), wheat bran, water, soybean oil, dextrose, baking powder, yeast, salt, dough conditioners, wheat gluten, contains less than 2% of each of the following: vegetable shortening, sesame flour, preservatives. **Shredded mozzarella cheese:** Pasteurized part-skim milk, cheese, cultures, salt, enzymes. **Sauce:** Water, tomato paste, pizza seasoning, modified food starch.

2. Simplify the ingredient list □

Look at the “Disregarded Ingredients” list below. Do not consider these ingredients. Some sound like grains, so it can be helpful to cross them out at the beginning.

Disregarded Ingredients:

- Cellulose fiber
- Corn dextrin
- Corn starch
- Modified food starch
- Rice starch
- Tapioca starch
- Water
- Wheat dextrin
- Wheat gluten
- Wheat starch
- Any ingredients that appear after the phrase, “Contains 2% or less of...”

INGREDIENTS: Crust: Whole-wheat flour, enriched wheat flour (bleached wheat flour, malted barley flour, niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), wheat bran, water, soybean oil, dextrose, baking powder, yeast, salt, dough conditioners, wheat gluten, contains less than 2% of each of the following: vegetable shortening, sesame flour, preservatives.

This ingredient list shows some ingredients that can be crossed out to simplify the list.

3. Look at the first ingredient □

If you have a combination food, like a pizza, look at the part of the ingredient list that refers to the grain product. For this food, the grain product is the pizza crust.

Is the first ingredient a whole-grain ingredient?

- ✓ **Yes:** If the first ingredient is whole-grain and the food is not a ready-to-eat breakfast cereal, **go to Step 4** below.
- ✓ **Yes:** If the first ingredient is whole-grain and the food is a ready-to-eat breakfast cereal, see “Identifying Whole Grain-Rich Breakfast Cereals in the CACFP” on page 4.
- ✗ **No:** If the first ingredient is not a whole-grain ingredient, then this food is not creditable as a whole grain-rich food in the CACFP using the *Rule of Three*.*
- ✗ **No:** It is possible that the food includes several whole-grain ingredients. When added together, these grains may meet the whole grain-rich requirement. In this case, you would need to request additional information from the manufacturer.

INGREDIENTS: Crust: Whole-wheat flour, enriched wheat flour (bleached wheat flour, malted barley flour, niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), wheat bran, water, soybean oil, dextrose, baking powder, yeast, salt, dough conditioners, wheat gluten, contains less than 2% of each of the following: vegetable shortening, sesame flour, preservatives.

The first grain ingredient is “whole-wheat flour,” which is a whole-grain ingredient.

See the *Whole-Grain Ingredients* chart for some common whole grains. Make sure the first grain ingredient is not listed on the *Enriched Grain Ingredients*, *Bran or Germ Ingredients*, or *Non-Creditable Grains or Flours* charts on the following page.

4. Look for the second grain ingredient □

Does the food have another grain ingredient?

No: If the food does not have any other grain ingredients, you can **stop here**. The food is whole grain-rich!

Yes: If so, is the second grain ingredient whole-grain, enriched, or bran or germ? Make sure the second grain ingredient is not listed on the “*Non-Creditable Grains or Flours*” chart.

- ✓ **Yes:** If the second grain ingredient is whole-grain, enriched, or bran or germ, **see Step 5** on page 3.
- ✗ **No:** If the second grain ingredient is **not** whole-grain, enriched, or bran or germ, then this food is not creditable as a whole grain-rich food in the CACFP using the *Rule of Three*.*

INGREDIENTS: Crust: Whole-wheat flour, enriched wheat flour (bleached wheat flour, malted barley flour, niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), wheat bran, water, soybean oil, dextrose, baking powder, yeast, salt, dough conditioners, wheat gluten, contains less than 2% of each of the following: vegetable shortening, sesame flour, preservatives.

The second grain ingredient is “enriched wheat flour,” which is an enriched grain ingredient. For more information on flour made from more than one grain ingredient, see “Focus on Flour Blends” on page 4.

* This food might be creditable as a grain that is not being served as a whole grain-rich food. See the Food Buying Guide for Child Nutrition Programs (<https://foodbuyingguide.fns.usda.gov/FoodComponents/ResourceGrains>) for information on how to determine if an enriched grain is creditable towards the grain component in the CACFP.

Look for the third grain ingredient □

Does the food have a third grain ingredient?

No: If the food does not have any other grain ingredients, you can **stop here**. The food is whole grain-rich!

Yes: If so, is the third grain ingredient whole-grain, enriched, or bran or germ? Make sure the third grain ingredient is not listed on the “**Non-Creditable Grains or Flours**” chart.

✓ **Yes:** If the third grain ingredient is whole-grain, enriched, or bran or germ, then this food is whole grain-rich! If your product has other grain ingredients, such as

a fourth grain ingredient, you do not need to consider them.

✗ **No:** If the third ingredient is not whole-grain, enriched, bran, or germ, then this food is not creditable as a whole grain-rich food in the CACFP using the *Rule of Three*.*

INGREDIENTS: Crust: Whole-wheat flour, enriched wheat flour (bleached wheat flour, malted barley flour, niacin, reduced iron, thiamine mononitrate, riboflavin, folic acid), wheat bran, water, soybean oil, dextrose, baking powder, yeast, salt, dough conditioners, wheat gluten, contains less than 2% of each of the following: vegetable shortening, sesame flour, preservatives.

The third grain ingredient is “**wheat bran**,” which is a type of **bran**.

✓ This pizza crust is considered whole grain-rich because the first ingredient is **whole-grain**, the second grain ingredient is **enriched**, and the third ingredient is a type of **bran**.

Whole-Grain Ingredients

- Amaranth
- Amaranth flour
- Brown rice
- Brown rice flour
- Buckwheat
- Buckwheat flour
- Buckwheat groats
- Bulgur
- Corn masa/ masa harina
- Cracked wheat
- Graham flour
- Instant oatmeal
- Millet
- Millet flour
- Oats
- Oat groats
- Old fashioned oats
- Quick cooking oats
- Quinoa
- Rye groats
- Sorghum
- Sorghum flour
- Spelt berries
- Sprouted brown rice
- Sprouted buckwheat
- Sprouted spelt
- Sprouted whole rye
- Sprouted whole wheat
- Steel cut oats
- Teff
- Teff flour
- Triticale
- Triticale flour
- Wheat berries
- Wheat groats
- White whole wheat flour
- Whole corn
- Whole durum flour
- Whole grain corn
- Whole grain corn flour
- Whole grain oat flour
- Whole grain spelt flour
- Whole grain wheat
- Whole grain wheat flakes
- Whole grain wheat flour
- Whole rye flour
- Whole wheat flour

Enriched Grain Ingredients

Enriched bromated flour • Enriched rice flour
 Enriched corn flour • Enriched rye flour
 Enriched durum flour • Enriched wheat flour
 Enriched durum • Enriched white flour
 wheat flour • Other grains with
 enriched farina the word “enriched”
 Enriched rice in front of it.

In addition to the ingredients listed above, if the ingredient list states or includes the nutrients used to enrich the flour, then your product has enriched grains. For example, an ingredient list might read: “Durum flour (niacin, iron, riboflavin, folic acid, thiamin).” The vitamins listed in the parenthesis indicate that the durum flour is enriched.

Non-Creditable Grains or Flours

Cannot be one of the first three grain ingredients for whole grain-rich items.

Barley malt • Potato flour
 Bean flour (such as soy, • Rice flour chickpea, lentil, legume, etc.) •
 Semolina
 Bromated flour • Wheat flour
 Corn • White flour
 Corn fiber • Yellow corn flour
 Degerminated corn meal • Yellow corn meal
 Durum flour
 Farina
 Malted barley flour
 Nut or seed flour (any kind)
 Oat fiber

Bran or Germ Ingredients

- Corn bran
- Rice bran
- Wheat bran
- Oat bran
- Rye bran
- Wheat germ

Focus on Flour Blends

You may see an ingredient list that includes a flour blend as an ingredient. The flour blend will be followed by a list of sub-ingredients that make up the flour blend. These sub-ingredients are shown in parenthesis.

Treat these flour blends as one grain ingredient when applying the Rule of Three.

If the flour blend is the first grain ingredient on the ingredient list, then you must determine if the flour blend is a whole grain. If the flour blend is made up of only whole-grain ingredients, then the flour blend is a whole grain. You can now proceed with examining the second and third grain ingredients as described on pages 2 and 3.

If the flour blend includes any grains that are not whole grains, then the flour blend is not considered a whole grain under the *Rule of Three*.

If the flour blend is the second or third grain ingredient, then the flour blend may be made up of whole grains, enriched grains, bran, and/or germ. If the flour blend includes any non-creditable flours or grains, then the flour blend is not a creditable grain ingredient.

INGREDIENTS: Whole grain flour (whole-wheat flour, brown rice flour, whole grain oat flour)¹, water, flour blend (graham flour, enriched wheat flour, enriched corn flour, wheat bran)², yeast, salt.

The **whole-grain flour** can be considered the **first** grain ingredient when using the Rule of Three. The **whole-grain flour** contains only whole grain-ingredients, so it is a **whole-grain ingredient**.

The **flour blend** can be considered the **second** grain ingredient when using the Rule of Three. The flour blend contains **whole-grain ingredients** (graham flour), **enriched ingredients** (enriched wheat flour, enriched corn flour) and **bran** (wheat bran).

This product does not have a third grain ingredient.

The product is considered whole grain-rich.

INGREDIENTS: Flour blend (durum flour, bromated flour, brown rice flour), water, salt.

X This flour blend includes two **non-creditable flours** (durum flour and bromated flour), so the flour blend is not a creditable grain ingredient.

Identifying Whole Grain-Rich Breakfast Cereals in the CACFP

For ready-to-eat breakfast cereals only, if the first ingredient is whole-grain, and the cereal is fortified, then the cereal is whole grain-rich in the CACFP. Remember to check that the cereal also meets the CACFP sugar limit. For more information on sugar limits for cereal, see “Choose Breakfast Cereals That Are Lower in Added Sugars” at <https://www.fns.usda.gov/cacfp-meal-pattern-training-worksheets>.

To determine if a ready-to-eat cereal is whole grain-rich:

1. Look at the first ingredient □

Is the first ingredient a whole-grain ingredient?

- ✓ **Yes:** If the first ingredient is whole-grain, go to Step 2.
- ✗ **No:** If the first ingredient is not a whole grain, then this food is not credible as a whole grain-rich food in the CACFP using the *Rule of Three*.*

INGREDIENTS: Whole grain oats¹, corn flour, sugar, salt, tripotassium phosphate, vitamin E. **Vitamins and Minerals**²: calcium carbonate, iron and zinc, vitamin C, vitamin B6, vitamin A, vitamin B12.

The first ingredient is “**whole grain oats**,” which is a **whole-grain ingredient**.

The presence of “**Vitamins and Minerals**” on the ingredient list indicates that this cereal is fortified.

This breakfast cereal is whole grain-rich because the first ingredient is **whole-grain** and the cereal is **fortified**.

2. Look for fortification □

Is the cereal fortified?

Look for the words “fortified” on the food package. You can also look at the ingredient list to see if it lists any vitamins and minerals that have been added to the product. Cereals that are not fortified would not have any added vitamins and minerals.

- ✓ **Yes:** If the cereal is fortified, then this food is whole grain-rich! If your cereal has other grain ingredients, you do not need to consider them.
- ✗ **No:** If the cereal has a whole grain as the first ingredient, but is not fortified, then follow the *Rule of Three* instructions on pages 2 and 3 to look at the second and third grain ingredients.

USDA is an equal opportunity provider, employer, and lender.

Infant-Specific Foods

Please provide all of the following information when describing foods specifically served to infants.

Infant Formula

- Brand name
- Fortified with iron, other vitamins or minerals
- Milk-based, soy-based, etc.
- Type of formula (powder, liquid concentrate, ready to feed (RTF))

Infant Cereal

- Brand name
- Type of cereal (hot, cold)
- Type of grain (rice, wheat, oatmeal, etc.)
- List any foods or liquids the cereal was mixed with

Puffs

- Brand name
- Flavor of puffs

Baby Food Jars or Pouches

- Brand name
- Flavor of jar or pouch
