

OMB CONTROL NUMBER: 0704-XXXX

OMB EXPIRATION DATE: XX/XX/XXXX

AGENCY DISCLOSURE NOTICE

The public reporting burden for this collection of information, 0704-XXXX, is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or burden reduction suggestions to the Department of Defense, Washington Headquarters Services, at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

The following questions ask about your feelings about using new types of therapy, interventions, or treatments. Manualized therapy, treatment, or intervention refers to any intervention that has specific guidelines and/or components that are outlined in a manual and/or that are to be followed in a structured or predetermined way.

Indicate the extent to which you agree with each item using the scale provided.

	Not at All	To a Slight Extent	To a Moderate Extent	To a Great Extent	To a Very Great Extent
I like to use new types of therapy/interventions to help my clients.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am willing to try new types of therapy/interventions even if I have to follow a treatment manual.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I know better than academic researchers how to care for my clients.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am willing to use new and different types of therapy/interventions developed by researchers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Research-based treatments/interventions are not clinically useful.

Clinical experience is more important than using manualized therapy/interventions.

I would not use manualized therapy/interventions.

I would try a new therapy/intervention even if it were very different from what I am used to doing.

If you received training in a therapy or intervention that was new to you, how likely would you be to adopt it if:

	Not at All	To a Slight Extent	To a Moderate Extent	To a Great Extent	To a Very Great Extent
It was intuitively appealing.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It "made sense" to you.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It was required by your supervisor.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It was required by your agency.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It was required by your state.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
It was being used by colleagues who were happy with it.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
