Vessel Sanitation Program Acute Gastroenteritis Log

Note: The Header/Banner section of the AGE Surveillance Log must be completed for EVERY voyage, even if the case counts are zero for both passenger and crew.

Even if there is an underlying illness, there may be justification in reporting the patient as reportable. This should be based on sound clinical judgment and based on

CDC estimates the average public reporting burden for this collection of information as 10 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATN: PRA (0920-XXXX)
