BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-2022-1050; Docket No. CDC-2022-0025]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled CDC/ATSDR Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery. The information collection activities provide a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the federal government's commitment to improving service delivery.

DATES: CDC must receive written comments on or before April 15, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2022-0025 by either of the following methods:

• Federal eRulemaking Portal: Regulations.gov. Follow the instructions for submitting comments. • Mail: Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to Regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (Regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

- 1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- 2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- 3. Enhance the quality, utility, and clarity of the information to be collected;
- 4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
 - 5. Assess information collection costs.

Proposed Project

CDC/ATSDR Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery (OMB Control No. 0920–1050, Exp. 5/31/ 2022)—Extension—Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The information collection activities associated with this Generic clearance provide a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the federal government's commitment to improving service delivery. By qualitative feedback, information will be collected that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

Feedback from respondents will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between CDC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target

areas such as: Timeliness,

appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on CDC's services will be unavailable.

CDC will only submit an individual collection for approval under this Generic clearance mechanism if it meets the following conditions:

- The collection is voluntary:
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the federal government;
- The collection is non-controversial and does not raise issues of concern to other federal agencies;
- The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;

- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, the agency must indicate the qualitative nature of the information):
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information (the collection will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study).

Feedback collected under this CDC Generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of Generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the

sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other Generic mechanisms that are designed to yield quantitative results.

As a general matter, individual information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Based on the number of burden hours used during the previous approval period and the number of respondents involved in this and other expiring collections, CDC requests OMB approval for an estimated 22,250 annual burden hours. There are no costs to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average hours per response	Total response burden (hours)
Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.	In-person surveys, Online surveys, Telephone surveys, In-person ob- servation/testing, Interviews.	10,000	1	30/60	5,000
	Focus groups	1,000	1	2	2,000
	Customer comment cards, Interactive Voice surveys.	61,000	1	15/60	15,250
Total					22,250

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Solicitation of Nominations for Appointment to the Advisory Council for the Elimination of Tuberculosis

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC) is seeking nominations for membership on the Advisory Council for the Elimination of Tuberculosis (ACET). The ACET consists of 10 experts including the Chair in fields associated with public health, epidemiology, immunology, infectious disease, pulmonary disease, pediatrics, tuberculosis, microbiology, and preventive health care delivery. ACET provides advice and recommendations regarding the elimination of tuberculosis (TB) to the Secretary, HHS; the Assistant Secretary for Health, HHS; and the CDC Director. ACET (a) makes recommendations on policies, strategies, objectives, and priorities; (b) addresses development

and application of new technologies; (c) provides guidance and review of CDC's TB prevention research portfolio and program priorities; and (d) reviews the extent to which progress has been made toward eliminating TB.

DATES: Nominations for membership on the ACET must be received no later than May 31, 2022. Packages received after this time will not be considered for the current membership cycle.

ADDRESSES: All nominations should be mailed to CDC, 1600 Clifton Road NE, Mailstop US8–6, Atlanta, Georgia 30329–4027; or emailed (recommended) to nchhstppolicy@cdc.gov; or faxed to (404) 639–8600.
