1	Enrollment and Paymo	B ent Data Template Instructions
2	Data Template Objective:	To document the total premium, APTC, CSR advance payment, and user fee amounts for all effectuated enrollment groups by Qualified Health Plan (QHP) ID. User fees do not apply to SBMs.
3		1.) During each data submission window, submitters will be allowed to submit multiple versions of the Enrollment and Payment Data Template (the "Template"). Based on data validation checks, CMS may require submitters to submit updated versions of the Template during each data collection window. 2.) Submitters will email the Template to the Marketplacepayments@cms.hhs.gov mailbox. Submitters will be instructed to send the Templates as a 'reply' to an email that they get from CMS. Please ensure that the emai subject line retains the issuer's 5-digit HIOS ID. Additionally, email submissions should include the following
5 6	Submissions Guidelines:	information in the body of the email: - Whether this is a resubmission, and reason for the resubmission where necessary - Enrollment and Payment Data Template attachment
7		- Certification of data accuracy
8		1.) Submission Window for May payment initial submission of the Production Enrollment and Payment Data Templates: 4/16/18 - 4/21/18
	Data Collection Timelines:	2) Submission Window for resubmission of the May Production Enrollment and Payment Data Templates: 4/23/18 -4/25/18
1		1.) In the FFM, data should be submitted for issuers in both the individual and small group markets. For small group market issuers in the FFM, all APTC and CSR enrollment and payment fields on the Template should be listed as zero since SHOP plans do not receive APTC or CSR payments. FFM SHOP plans must be included in the Template as these plans are subject to user fees.
.2		In the SBM, data should be submitted for the individual market. User fee amounts will automatically populate to zero if the issuer is participating in an SBM.
.3		3.) Any stand alone dental issuer expecting to receive no APTC payments for the current collection month is nequired to submit an Enrollment and Payment Data workbook. Such stand alone dental issuers must state the they expect to receive no APTC on the submission certification form.
.4		4) Enrollment and Payment Data workbooks should not be submitted for issuers with zero enrollments as the plans would have \$0 total premium, \$0 advance APTC or CSR payments, and \$0 user fees. If the submitter is an issuer, the submitter must identify that issuer ID as having no enrollments on the submission certification form. If the submitter is an SBM, the submitter must omit that issuer ID from the Enrollment and Payment Data workbook and identify that issuer ID as having no enrollments on the submission certification form.
.5		5.) If the submitter is an issuer, all information for an issuer should be documented in a single Enrollment and Payment Data Template. Issuers will be identified by the 5 digit HIOS ID.
	Payment Reporting Completion Information:	6.) If the submitter is an SBM, data for all issuers in the SBM should be included in a single Enrollment and Payment Data Template. Data should be documented in numerical order by issuer ID. For example, if an SBN has four participating individual market issuers with enrollment data, data for all four issuers will be included within the same tab in a single Enrollment and Payment Data Template file submission.
.7		7.) CMS will replace any previously submitted files with the resubmission file. As a result, when submitters se resubmission files, the file must include the most current data for all issuers. For example, if during the initial submission, CMS determined that three of the four QHP ID's data required modification, when the submitter sends the corrected data for its three QHP IDs, it must also submit the original data for the fourth QHP ID in the same file.
.8		8.) Blank fields will be treated as zero values in the payment calculations. Submitters are encouraged to ente zero values instead of leaving fields blank.
.9		9.) Data should be submitted at the 16-digit QHP ID level (14 digit standard component ID plus 2 digit variant otherwise known as the HIOS Plan ID). There should be no spaces between the 14 digit standard component and the 2 digit variant ID and no special characters.
:0		10.) Data submitted should be for QHPs certified by the Marketplace that have at least one enrollee.
\dashv		11.) For the May payment month, submitters must send one excel file which includes five worksheets. The fire four worksheets include the restatements of enrollment and payment data through April, and the fifth worksheet includes effectuated enrollment and payment data effective May 1 as of April 15, 2018.

	Α	В
1	Enrollment and Payme	ent Data Template Instructions
22		ISSUER SUBMITTERS ONLY (NOT APPLICABLE FOR SBM SUBMITTERS) 12.) For each of the prior months, issuer submitters must either (1) restate enrollment data to ensure that any retroactive enrollment data or enrollments effectuated after March 15, 2018 are captured or (2) indicate that there have been no changes to the data since the last submission cycle in March. To restate prior months' data: For each of the restatement templates, the issuer submitter must select "Yes" from the drop down menu in cell D2 to indicate changes in enrollment since the prior submission. Next, the issuer submitter must fill out each of the restatement tabs with current enrollment and payment data for every applicable plan The issuer submitter must also complete the "May Template" tab, which contains May enrollment and payment data. To indicate that there have been no changes in data since the last submission cycle: For each of the selected restatement templates, the issuer submitter would select "No" from the drop down menu in cell D2 to indicate that there have been no changes in enrollment since the prior submission. The issuer submitter must not populate the restatement template(s). The issuer submitter must complete the "May Template" tab, which contains May enrollment and payment data.
23	File Name Requirements	FFM submitters must use the following naming convention for their Excel file submission: Characters 1-3: FFM Characters 4-8: 5 Digit issuer ID (e.g. 56789) Characters 9-14: Date in MMDDYY format (e.g. 041614) Characters 19-21: Submission Version of prod file in VXX formate, (e.g. V01) Sample file name: FFM56789041614PRODV01 SBMs submitting on behalf of issuers must use the following naming convention for their Excel file submission: Characters 1-3: SBM Characters 3-5: State abbreviation (e.g., CT) Characters 5-11: Date in MMDDYY format (e.g. 041614) Characters 12-15: PROD (all caps) Characters 16-18: Submission Version of prod file in VXX format, (e.g. V01) Sample file name: SBMCT041614PRODV01 SBM issuers submitting on their own behalf must use the following naming convention for the Excel file submission: Characters 1-3: SBM Characters 1-3: SBM Characters 4-8: 5 Digit issuer ID (e.g. 56789) Characters 9-14: Date in MMDDYY format (e.g. 041614) Characters 15-18: PROD (all caps) Characters 19-21: Submission Version of prod file in VXX format, (e.g. V01) Sample file name: SBM56789041614PRODV01

24		
25		Instructions
26		Enter the date that the Enrollment and Payment Data Template is being submitted to CMS, using a MM/DD/YYYY format.
27		This field is relevant for issuer submitters only. This field only applies to the three restatment tabs. Issuer submitters will indicate whether there have been any changes to enrollment data since the prior month submission by selecting either "Ves" or "No". When "Yes" is selected, the issuer submitter must populate the data template. When "No" is selected, the issuer submitter must not populate the data template.
28		The submission month is pre-selected for each submitter. Please use the appropriate worksheet for reporting enrollment and payment data.
29		Choose "initial submission, "resubmission 1," "resubmission 2," or "resubmission 3."
30		Choose the appropriate state code from the drop-down menu.
31		Enter the issuer's 9 digit taxpayer identification number for each QHP identified. All issuers should be documented on the same table.
32		Enter the issuer's 5 digit HIOS identification number. For each QHP offered, document the 16 digit unique QHP identifier without the use of spaces or non- numeric characters. Each 16 digit QHP identifier should only be used once throughout the entire table.
34		Sum the total premium amounts for all effectuated enrollment groups and enter this amount for each QHP ID listed.
35		Total the actual APTC amount that is expected for all effectuated enrollment groups within each QHP ID, and document it in this column.
36		Total the CSR amount that is expected for all effectuated enrollment groups within each QHP ID, and document it in this column.
37		This amount will display automatically once the premium amount is inserted in Column E. User fees are calculated as 3.5% of total premium collected. This amount does not apply to SBM issuers.

	A	E
1	Enrollment and Paym€	
38		Sum the number of effectuated enrollment groups associated with each QHP and enter the number in this column.
39		Sum the number of effectuated enrollment groups associated with each QHP, that will receive APTC payments, and enter the number in this column.
40		Sum the number of effectuated enrollment groups associated with each QHP, that will receive CSR payments, and enter the number in this column.
41		Sum the total number of members within effectuated enrollment groups associated with each QHP ID and enter the number in this column.
42		Sum the total number of members who will receive APTC within effectuated enrollment groups associated with each QHP and enter the number in this column.
43		Sum the total number of members who will receive CSR within effectuated enrollment groups associated with each QHP and enter the number in this column.
		Populate the data template. Click the button "validate template data". Repeat this process on each tab of the workbook.
45		To re-run a validation test, click the clear current validation results button.
