

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 52)

Note: The questions below are the proposed questions for the fifty-second wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in Wave 52 only or are being asked again to update data on a variable of interest. We will be fielding questions about pandemic assessments, vaccine/social distancing/mask mandates, and parents' vaccination decisions.

Standard Questions

Modular Questions

One-Time or Repeat Questions Being Asked Again to Update Data

For the next section we would like to talk about current events.

//PROGRAMMING NOTE: RANDOMIZE ORDER OF Q1/Q2

// Page Break //

//BASE: All respondents//

Item #: Q1

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

hhs_trust. How much trust do you have in the U.S. Department of Health and Human Services (HHS) to provide you with accurate information about the coronavirus or COVID-19?

Variable Label: hhs_trust: Trust in HHS

Value	Value Label
1	None at all
2	Not very much
3	A fair amount
4	A great deal
99	I am not familiar with HHS
-99	Refused
-100	Valid skip

// Page Break //

//BASE: All respondents//

Item #: Q2

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

cdc_trust. How much trust do you have in the Centers for Disease Control and Prevention (CDC) to provide you with accurate information about the coronavirus or COVID-19?

Variable Label: cdc_trust: Trust in CDC

Value	Value Label
1	None at all
2	Not very much
3	A fair amount
4	A great deal
99	I am not familiar with the CDC
-99	Refused
-100	Valid skip

// Page Break //

//BASE: All respondents//

Item #: Q3

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh1_cet_r. Have you received a COVID-19 vaccine?

Variable Label: beh1_cet_r: Vaccination behavior

Value	Value Label
0	No, I have not received a COVID-19 vaccine
1	Yes, but I have only received one shot out of the two required shots
2	Yes, I have received all of the required shots
-99	Refused

// Page Break //

//BASE: beh1_cet_r=1 or 2//

Item #: Q4

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

vaccine_id. Which COVID-19 vaccine did you receive?

Variable Label: vaccine_id: Vaccine ID

Value	Value Label
2	Johnson & Johnson/Janssen
3	Moderna
4	Pfizer-BioNTech
5	Other
99	I do not remember
-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q5

Question Type: Dropdown menu

// Soft Prompt: "We would like your response to this question." //

fully_vacc_month. In which month were you considered fully vaccinated (i.e., two weeks after your final COVID-19 vaccine dose)? *Final vaccine dose refers to either the second dose of the Pfizer or Moderna vaccine, or the single dose of the Johnson & Johnson vaccine. Please do not consider booster shots for this question. If you do not remember the specific month, give your best guess.*

Variable Label: fully_vacc_month: Month of vaccination

Value	Value Label
1	December, 2020
2	January, 2021
3	February, 2021
4	March, 2021
5	April, 2021
6	May, 2021
7	June, 2021
8	July, 2021
9	August, 2021
10	September, 2021
11	October, 2021
12	November, 2021
13	December, 2021
14	January, 2022
15	February, 2022
16	March, 2022
-99	Refused

// Page Break //

//BASE: beh1_cet_r=2//

Item #: Q6

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_uptake3. U.S. health officials and medical experts now recommend COVID-19 vaccine booster shots for people 5 months after their second dose of an mRNA vaccine (Pfizer-BioNTech and Moderna) or 2 months after their dose of the Johnson & Johnson vaccine. Have you received a COVID-19 vaccine booster shot?

Variable Label: booster_uptake3: Booster uptake – January guidance

Value	Value Label
0	No
1	Yes
-99	Refused
-100	Valid skip

// Page Break //

//BASE: booster_uptake3=1//

Item #: Q7

Question Type: Dropdown menu

// Soft Prompt: "We would like your response to this question." //

booster_month. In which month did you receive a COVID-19 booster shot? *If you do not remember the specific month, give your best guess.*

Variable Label: booster_month: Month received booster shot

Value	Value Label
-------	-------------

7	June, 2021
8	July, 2021
9	August, 2021
10	September, 2021
11	October, 2021
12	November, 2021
13	December, 2021
14	January, 2022
15	February, 2022
16	March, 2022
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake3=0 & vaccine_id=2 & fully_vacc_month=1-14) OR
(booster_uptake3=0 & vaccine_id=3-4 & fully_vacc_month=1-11) //

Item #: Q8

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_elig_uptake3. You are currently eligible to receive a COVID-19 vaccine booster shot. What is the likelihood that you will get one?

Variable Label: booster_elig_uptake3: Booster uptake likelihood – eligible adults

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: (booster_uptake3=0 & vaccine_id=2 & fully_vacc_month=15-16) OR
(booster_uptake3=0 & vaccine_id=3-4 & fully_vacc_month=12-16)//

Item #: Q9

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

booster_likely_v2. What is the likelihood that you will get a COVID-19 vaccine booster shot when eligible?

Variable Label: booster_likely_v2: Booster uptake likelihood – not yet eligible

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely
5	Very likely
-99	Refused

// Page Break //

//BASE beh1_cet =2//

Item #: Q10

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

booster_time. Scientists are still studying how often booster shots for the COVID-19 vaccines may need to be given to maintain protection against severe illness from COVID-19.

If regular COVID-19 vaccine booster shots were recommended by U.S. public health officials, and they were completely free of cost, how likely would you be to get them at the following intervals?

Variable Label: booster_uptake: Likelihood of getting boosters at intervals

Variable Name	Variable Text	Variable Label
booster_time_1	Every six months	booster_time_1: Six months
booster_time_2	Every year	booster_time_2: One year
booster_time_3	Every two years	booster_time_3: Two years
booster_time_4	Every five years	booster_time_4: Five years
booster_time_5	Every 10 years	booster_time_5: Ten years

Value	Value Label
1	Not at all likely
2	Slightly likely
3	Moderately likely
4	Very likely
-99	Refused
-100	Valid skip

// Page Break //

//BASE: beh1_cet_r=0 OR -99//

Item #: Q11

Question Type: Single punch

// Soft Prompt: "We would like your response to this question." //

beh2a_cet. What is the likelihood that you will get a COVID-19 vaccine?

Variable Label: beh2a: Intention to get vaccinated

Value	Value Label
1	Very unlikely
2	Somewhat unlikely
3	Neither likely nor unlikely
4	Somewhat likely

5	Very likely
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: beh1_cet_r=0 OR -99//

Item #: Q12

Question Type: Single punch

// Soft Prompt: “We would like your response to this question.” //

beh3a_cet_r. How soon will you get vaccinated?

Variable Label: beh3a_cet_r: Wait to get vaccinated

Value	Value Label
1	I will get a vaccine as soon as I can
2	I will wait to get a vaccine for one or more reasons
3	I will never get a COVID-19 vaccine
-99	Refused
-100	Valid Skip

// Page Break //

//BASE: All respondents//

Item #: Q13

Question Type: Multi punch

// Soft Prompt: “We would like your response to this question.” //

parent. Are you the parent of a child or children in the following age groups?

Variable Label: parent: Parent of children in following age groups

Value	Value Label
1	Younger than 6 months old
2	6 months to <2 years old
3	2 to 4 years old
4	5 to 11 years old
5	12 to 15 years old
6	16 to 17 years old
99	None of the above, I do not have children in those age groups [EXCLUSIVE]
-99	Refused

// Page Break //

//BASE: Parent=4-6//

Item #: Q14

Question Type: Single punch grid

// Soft Prompt: “We would like your response to this question.” //

child_vaxxed_2. Has your child(ren) in the following age group(s) received a COVID-19 vaccine?

Note: If you have more than one child in the same age group, please answer for at least one of them.

Variable Label: child_vaxxed_2: Child vaccinated

Variable Name	Variable Text	Variable Label
---------------	---------------	----------------

child_vaxxed_2_4	5 to 11 years old [ONLY SHOW IF parent=4]	child_vaxxed_2_4: 5 to 11 years old
child_vaxxed_2_5	12 to 15 years old [ONLY SHOW IF parent=5]	child_vaxxed_2_5: 12 to 15 years old
child_vaxxed_2_6	16 to 17 years old [ONLY SHOW IF parent=6]	child_vaxxed_2_6: 16 to 17 years old

Value	Value Label
0	No, has not received a COVID-19 vaccine
1	Yes, but has only received one shot out of the two required shots
2	Yes, has received all of the required shots
-99	Refused
-100	Valid skip

//BASE: All respondents//

Item#: Q23-Q24

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

cdc_commlevels: The CDC relaxed its mask guidance last week, dropping its recommendation for universal masking in areas of low or medium risk of COVID-19. They also unveiled a new method for calculating risk in each U.S. county, called COVID-19 Community Levels, which focuses on the impact of severe COVID-19 disease on local hospitals. The below map depicts COVID-19 Community Levels across the United States as of late February.

U.S. COVID-19 Community Levels by County

Data provided by CDC
Updated: Feb. 24, 2022

How much do you agree or disagree with the following statements about the updated CDC masking guidance?

//PROGRAMMING NOTE: RANDOMIZE options //

cdc_commlevels_1	I have heard about the CDC's new COVID-19 Community Levels tool.	cdc_commlevels_1: Have heard of Community Levels
cdc_commlevels_2	I understand the CDC's updated masking guidance.	cdc_commlevels_2: Understand new masking guidance
cdc_commlevels_3	I have visited the CDC's website to find out more about masking guidance for my area.	cdc_commlevels_3: Visited CDC website
cdc_commlevels_4	I know how to find the COVID-19 Community Level for my area.	cdc_commlevels_4: Know how to find Community Level
cdc_commlevels_5	I know how to determine whether masking is recommended in my area based on the CDC's COVID-19 Community Levels.	cdc_commlevels_5: Know how to determine masking guidance
cdc_commlevels_6	I plan to continue masking indoors in public, regardless of the CDC's guidance for my community.	cdc_commlevels_6: Plan to continue masking
cdc_commlevels_7	I do not plan on masking indoors in public, even if my COVID-19 Community Level is rated as High.	cdc_commlevels_7: Do not plan to continue masking
cdc_commlevels_8	I plan to use the CDC guidance for my community when deciding whether to wear a mask indoors in public.	cdc_commlevels_8: Plan to use CDC guidance

Item #: Q25

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question."//

ptn_w52. We are interested in your opinion of a few messages about COVID-19 vaccines or boosters.

For each of the below messages, please indicate how much you agree or disagree with the following statement:

"I would share the information in the message with a friend or family member who wants to know more about COVID-19 vaccines or boosters."

//PROGRAMMING NOTE: randomize variables in grid//

Variable Name	Variable Text	Variable Label
ptn_w52_1	Your risk of getting COVID more than doubles if you don't have a vaccine – and if you get COVID, your chance of ending up in the hospital is 16 times higher.	ptn_w52_1: Unvaccinated risk of COVID and hospitalization
ptn_w52_2	Recent studies suggest that your overall risk of COVID is lowest if you get a vaccine after you've already had COVID.	ptn_w52_2: Vaccination after COVID lowers risk
ptn_w52_3	Vaccines for children 5 and older provide strong protection against severe illness and hospitalization from COVID.	ptn_w52_3: Vaccine protection for children 5+
ptn_w52_4	Unvaccinated people who get COVID have about double the risk for long COVID that vaccinated people have.	ptn_w52_4: Unvaccinated risk of long COVID
ptn_w52_5	Children have a low risk of getting very sick from COVID, but "low risk" isn't the same as "no risk" – and there's no way to predict how COVID might affect your child.	ptn_w52_5: Children at low risk
