

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 16)

Note: The questions below are the proposed questions for the sixteenth wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in Wave 16 only or are being asked again to update data on a variable of interest. This wave's module is Parent Vaccination Decision being run for a second week. This week we have added questions on PTN message testing, knowledge and support for the Pfizer vaccine authorization for children ages 12 to 15, and the general support for vaccination among all age ranges.

ASPA will provide OMB with updates to the questionnaire for subsequent Waves.
