

CET – Annotated Questionnaire (Wave 58)

Note: The questions below are the proposed questions for the 58th wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest. We will be fielding questions about the test-to-treat initiative, awareness of vaccines.gov, long COVID, and surge preparations; and testing reactions to a PTN video about booster shots.

For the next section we would like to talk about current events.
