SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. 3501 et seq., chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG-2022-0042], and must be received by May 20, 2022.

Information Collection Request

Title: The Great Lakes Pilotage.

OMB Control Number: 1625-0086.

Summary: The Office of Great Lakes Pilotage is seeking an extension of OMB's current approval for Great Lakes Pilotage data collection requirements for the three U.S. pilot associations it regulate. This extension would require continued submission of data to an electronic collection system and Form CG-4509. This system is identified as the Great Lakes Pilot Management System which replaced the manual paper submissions used to collect data on bridge hours, vessel delay, vessel cancellation, pilot travel and administration, revenues, pilot availability, and related data. This extension ensures the required data is available in a timely manner and allows immediate accessibility to data crucial from both an operational and rate-making standpoint.

Need: To comply with the statutory and regulatory requirements respecting the rate-making and oversight functions imposed upon the agency.

Forms: CG-4509, Application for Registration as United States Registered Pilot.

Respondents: The three U.S. pilot associations regulated by the Office of Great Lakes Pilotage and members of the public applying to become Great Lakes Registered Pilots.

Frequency: Daily, Weekly, Monthly, Quarterly, Semi-annually, Annually, On occasion; frequency dictated by marine traffic levels and association staffing.

Hour Burden Estimate: The estimated burden increased to 1,214 hours a year. This increase is an update due to increased traffic on the Great Lakes and better record keeping in the past four years. The information requested from the respondents has not changed.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. et seq., chapter 35, as amended.

Dated: April 5, 2022.

Kathleen Claffie,
Chief, Office of Privacy Management, U.S. Coast Guard.
