§375.7 Determination of weights.

(a) Every motor common carrier transporting household goods on a non-binding estimate shall determine the weight of each shipment transported prior to the assessment of any charges dependent on the shipment weight. Except as otherwise provided herein the

weight shall be obtained on a scale meeting the definition of a certified scale as provided in §375.1(b)(4).

(1) *Weighing procedure.* Except as otherwise provided herein the weight of each shipment shall be obtained by determining the difference between the tare weight of the vehicle on which the shipment is to be loaded prior to the loading and the gross weight of the same vehicle after the shipment is loaded; or, the gross weight of the vehicle with the shipment loaded and the tare weight of the same vehicle after the shipment is unloaded.

(2) At the time of both weighings the vehicle shall have installed or loaded all pads, dollies, handtrucks, ramps and other equipment required in the transportation of such shipments. Neither the driver nor any other persons shall be on the vehicle at the time of either weighing.

(6) The net weight of shipments transported in containers shall be the difference between the tare weight of the container, including all pads, blocking and bracing used or to be used in the transportation of the shipment and the gross weight of the container with the shipment loaded therein.

(7) The shipper or any other person responsible for the payment of the freight charges shall have the right to observe all weighings of the shipment. The carrier must advise the shipper or any other person entitled to observe the weighings of the time and specific location where each weighing will be performed and must give that person a reasonable opportunity to be present to observe the weighings. Waiver by a shipper of the right to observe any weighing or reweighing is permitted and does not affect any rights of the shipper under these regulations or otherwise.

(b) *Weight tickets.* The carrier shall obtain a separate weight ticket for each weighing required under this section except when both weighings are performed on the same scale, one weight ticket may be used to record both weighings. Every weight ticket must be signed by the person performing the weighing and must contain the following minimum information:

Such notification shall be given as soon as it becomes apparent to the carrier that it will be unable to provide the service in compliance with the terms of the order for service.
 - (3) *Carrier notification of delay.* At the time of notification of delay the carrier shall advise the shipper of the dates or periods of time that pickup and/or delivery can be made, which considers the needs of the shipper. If the notification of delay occurs prior to the pickup of the shipment, the amendment shall be in writing as required by §375.5(b).

If the notification of delay occurs subsequent to the pickup of the shipment, the carrier representative notifying the shipper of the delay shall prepare a written record of the date, time and manner of notification and the amended date or period of time for delivery by the carrier which record shall be retained by the carrier as part of its file on the shipment and a true copy thereof shall be furnished, by first class mail or in person, to the shipper.

(b) *Tendering for delivery.* Except upon the request or concurrence of the shipper, a shipment being transported for an individual shipper shall not be tendered for delivery prior to the agreed delivery date or period of time specified on the bill of lading: *Provided*, That whenever a carrier is able to tender such a shipment for final delivery more than 24 hours prior to such specified date or the first day of such specified period of time, and the shipper has not requested or concurred in such early delivery, the carrier may, at its option, place the shipment in storage for its own account and at its own expense in a warehouse located in proximity to the destination of the shipment. Whenever a carrier shall exercise such option it shall immediately notify the shipper of the name and address of the warehouse in which the shipment has been placed, and shall make and keep a record of such notification as a part of its record of shipment. The carrier's responsibility for the shipment under the terms and conditions of the bill of lading and its responsibility for the charges for redelivery, handling and storage thereof shall continue until final delivery: *Provided*, that the carrier's responsibility under the bill of lading shall not extend beyond the agreed delivery date or the first day of the period within which delivery was to have been accomplished as specified in the bill of lading.

[46 FR 16220, Mar. 11, 1981; 46 FR 22594, Apr. 20, 1981, as amended at 62 FR 49941, Sept. 24, 1997]

§375.9 Notification of charges.

(a) Whenever an individual shipper of a shipment being transported on a collect on delivery basis specifically requests notification of the actual weight or volume and charges on a shipment, and supplies the carrier with an address or telephone number at which the communication will be received, the carrier shall comply with such request upon determining the actual weight and charges. Such notification shall be made by telephone, telegram, or in person.

(b) Whenever a shipper requests notification of the weight or volume and charges on a shipment as provided in paragraph (a), the notification must be received by the shipper, at least one full 24-hour day, excluding Saturdays, Sundays and legal holidays, prior to any tender of the shipment for delivery. The 24-hour notification requirement shall not apply on a shipment to be backweighed or on a shipment which, with the agreement of the shipper, is to be picked up and delivered within a time period encompassing two consecutive week days, or on a shipment on which the charges have been estimated and the maximum amount required to be paid at time of delivery is 110 percent of the estimated charges.

§375.10 Signed receipt for shipment-release prohibited.

A shipping document to be signed by the consignee at time of delivery shall not contain any language which purports to release or discharge the carrier or its agents from liability, but may contain a statement that the property has been received in apparent good condition except as noted on the shipping documents.

§375.11 Selling of insurance to shippers.

(a) When a shipment is released for transportation at a value not exceeding 60 cents per pound per article, and the shipper does not declare a valuation of \$1.25 or more per pound and pay or agree to pay the carrier for assuming liability for the shipment equal to the declared value, any common carrier of household goods as defined in §375.1(b)(1), or any employee, agent, or representative thereof, may sell, or offer to sell or procure for any shipper, any kind of insurance, under any type of policy, covering loss or damage in excess of the specified carrier liability to a shipment or shipments of household goods to be transported in interstate or foreign commerce by such carrier; *Provided*, that the shipper is issued a policy or other appropriate evidence of the insurance purchased, and a copy thereof be furnished to the shipper at the time the insurance is sold or procured. Carrier issued policies shall be written in plain English and shall clearly specify the nature and extent of coverage. Failure to issue a policy or other appropriate evidence of insurance purchased shall subject the carrier to full liability for any claims to recover for loss or damage attributed to the carrier.

(b) Any carrier offering or selling or procuring insurance as provided in paragraph (a) of this section shall provide in its tariff for the provision of such service. The tariff shall also provide for the base transportation charge to include assumption by the carrier for full liability for the value of the shipment in the event a policy or other appropriate evidence of the insurance purchased by the shipper is not issued to the shipper at the time of purchase.

[46 FR 16218, Mar. 11, 1981. Redesignated at 61 FR 54707, Oct. 21, 1996, as amended at 62 FR 49941, Sept. 24, 1997]

(a) *Liability restricted.* Except as provided in §375.11(a), common carriers by motor vehicle of household goods as defined in §375.1(b)(1) shall not assume any liability in excess of that for which they are legally liable under their lawful bills of lading and published tariffs.

(b) *Limitations of liability.* A common carrier by motor vehicle of household goods shall be liable for loss of or damage to any articles caused by it while being transported or while being held for storage-in-transit, including incidental pickup or delivery, and including liability for loss or damage to any article or appliance resulting from the servicing of such article or appliance by a third person engaged by the carrier to perform such service, to the extent provided in the outstanding released rates order; except that the carrier may exempt its liability in the following instances:

(1) No liability need be assumed for perishable articles included in the shipment without the knowledge of the carrier; and a carrier accepting for shipment perishable articles may impose reasonable conditions necessary to insure the safe transportation of such commodities.

(2) When a shipment is released to a value greater than sixty cents (60¢) per pound, per article, liability for loss or damage may be limited to \$100 per pound, per article (based upon the actual article weight), for any article included in the shipment that exceeds \$100 per pound, per article in value, unless the shipper specifically notifies the carrier in writing that an identified article or articles with a value greater than \$100 per pound will be included in the shipment. In such case, the shipper will be entitled to full recovery up to the declared value of the article or articles, not to exceed the declared value of the entire shipment.

(c) *Storage-in-transit.* A common carrier by motor vehicle of household goods holding goods for storage-in-transit (S.I.T.) shall, no less than 10 days prior to the expiration of either the specified period of time during which the goods are to be held in such storage or the maximum period of time provided in the carrier's tariff for storage-in-transit, notify the shipper in writing (1) of the date of conversion to permanent storage, (2) of the existence of a nine-month period subsequent to the date of conversion to permanent storage during which shipper may file claims against the carrier for loss and/or damage which occurred to the goods in transit or during the S.I.T. period, and, (3) of the fact that on the date of conversion, the liability of the carrier shall terminate and the property shall be subject to the rules, regulations, and charges of the warehouseman. Notification shall be by certified mail, return receipt requested. A common carrier by motor vehicle of household goods holding goods for storage-in-transit for a period of time less than 10 days shall, no less than one day prior to the expiration of the specified time during which the goods are to be held in such storage, give notification to the shipper of the information specified in paragraph (d) (1), (2), and (3) and maintain a record thereof as part of its record of the shipment. Failure or refusal of a carrier to notify the shipper in accordance with the foregoing shall automatically effect a continuance of carrier liability pursuant to the applicable tariff provisions with respect to S.I.T., until the end of the day following the date upon which notice is given.

Notwithstanding any other provisions of this subsection, a carrier shall collect, and the shipper shall be required to pay, any specific valuation charge that may be due. This

subsection shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper.

(b) In the event that any portion, but less than all, of a shipment of household goods is lost or destroyed in transit, a motor common carrier of household goods in interstate or foreign commerce shall, at the time it disposes of claims for loss, damage, or injury to the articles in the shipment as provided in part 370 of this chapter, refund that portion of its published freight charges (including any charges for accessorial or terminal services) corresponding to that portion of the shipment which is lost or destroyed in transit. To calculate the charges applicable to the shipment as delivered, the carrier shall multiply the percentage corresponding to the portion of the shipment delivered by the total charges (including accessorial and terminal charges) applicable to the shipment tendered by the shipper. If the charges computed in the manner set forth above exceed the charges otherwise applicable to the shipment as delivered, the lesser of those charges shall apply. The provisions of this paragraph shall apply only to the transportation of household goods as defined in §375.1(b)(1) of these rules. Notwithstanding any other provisions of this paragraph, a carrier shall collect, and the shipper shall be required to pay, that proportion of any charges for accessorial or terminal services rendered which corresponds to the proportion of the shipment not lost or destroyed in transit and any specific valuation charge that may be due. The provisions of this paragraph shall not be applicable to the extent that any such loss or destruction is due to the act or omission of the shipper. Carriers shall determine, at their own expense, the proportion of the shipment not lost or destroyed in transit.

(c) The rights provided by this section are in addition to, and not in lieu of, any other rights which the shipper may have with respect to a shipment of household goods which is lost or destroyed, or partially lost or destroyed, in transit, whether or not that shipper has exercised the rights provided in paragraphs (a) and (b) of this section.

§375.16 Collection of freight charges on shipments transported on more than one vehicle.

(a) Whenever a collect on delivery shipment of household goods, as defined in §375.1(b)(1), is transported on more than one vehicle the carrier delivering such split or divided shipment shall observe the requirements of paragraphs (a)(1), (2) or (3) of this section in the collection of the charges.

(1) At the option of the carrier, the collection of the charges attributable to the transportation of the portion of the shipment transported on each vehicle may be deferred until all portions of the shipment are delivered; or,

(2) Providing that the charges for the entire shipment have been determined, the carrier may collect at the time of delivery of any portion of the shipment that percentage of the charges represented by the portion of the shipment tendered for delivery; or,

(3) In the event that the charges due the carrier for the transportation of the entire shipment cannot reasonably be determined at the time any portion of the shipment is tendered for delivery, the carrier shall determine and collect the charges for the portion of the shipment being delivered. The total charges assessed by the carrier for the transportation of the separate portions of the shipment shall not exceed the charges due for the entire shipment.

(b) In the event of the loss or destruction of any part of a shipment being transported on more than one vehicle, the collection of charges as provided in paragraph (a) of this section shall also be in conformity with the requirements of §375.15.

INSTRUCTIONS FOR PREPARATION

General Instructions

1. Data for completion of Form OCE–101 may be obtained by random sampling providing that in every instance, the universe sampled is all shipments delivered under your common carrier authority (excluding Government, Freight forwarder, and Interline traffic) during the report year or all claims arising out of the transportation of those shipments that were received or settled, as appropriate, during the report year.
2. When random sampling is used, the minimum sample size in every instance shall be 400 shipments or claims, as appropriate, in replicates of 100 shipments or claims each. All samples must conform to standard deviation with a 95% confidence level.
3. Carriers submitting Form OCE–101 shall retain and make available for review by an authorized FMCSA employee all working papers, notes, and other files relating to the preparation of each report for a period of not less than 24 months following the date of filing such a report.
4. The data in Form OCE–101 must be verified by a sworn statement signed by an official of the company.

SPECIFIC INSTRUCTIONS

Part A

Line 1: Only report those 1st proviso C.O.D. shipments moved under your common carrier authority after excluding all Government, Freight forwarder and Interline traffic.

Line 2: Report all other 1st proviso shipments, including those moving under contract carriage provisions and all Government, Freight forwarder and Interline traffic.

Line 3: Sum lines 1 and 2. The total should agree with total 1st proviso shipments reported in your Annual Performance Report, Schedule 600, Line 7, Column d, if you are required to file that report.

Part B

It is not necessary to complete Part B if the total of C.O.D. shipments reported on Part A, Line 1, did not equal or exceed 100 shipments. If completion of Part B is not required, sign the Certification and return the form to the Federal Motor Carrier Safety Administration.

Line 4: Report only those C.O.D. shipments where the order for service was signed after the receipt of a written binding estimate. Include in this computation all so-called hybrid estimates (*e.g.*, Guaranteed Price and Price Protection options).

Line 5: Report the total number of C.O.D. shipments where the order for service was signed after the receipt of a written non-binding estimate. In the case of non-binding estimates, the actual charges are determined after the shipment has been picked up and weighed.

Line 6: Report only those C.O.D. shipments where there was no requirement for the preparation of a binding or non-binding written estimate by the carrier. As with non-binding estimates, the charges here are determined after the shipment has been picked up and weighed.

Line 7: Sum of Lines 4, 5, and 6. The number of shipments reported on Line 7 should be the same as those reported in Part A, Line 1.

COMPUTATION OF PERCENTAGES OR AVERAGES

You must determine the number of shipments falling into each of the categories described in Lines 8 and 9, respectively, and divide these shipments by the number of shipments reported on Lines 4 and 5, respectively.

You must determine the number of shipments falling into each of the categories described in Lines 10 through 16 and divide these shipments by the number of shipments reported on Line 7. (Exception: Line 13 is an average, not a percentage.)

Line 8: Compute the percentage of those shipments delivered where the final charges exceeded the written estimate initially provided to the shipper because of changes agreed to by the carrier and shipper in commodities transported and services provided.

Line 9: Compute the percentage of those shipments delivered under a non-binding written estimate where the final charges exceeded the written estimate provided to the shipper by 10% or more. The 10% figure is used because every C.O.D. shipper is required to have available 110% of the estimate at the time of delivery.

Line 10: Compute the percentage of those shipments where the actual pickup date occurred after the last date for pickup promised on the order for service or bill of lading.

Line 11: Compute the percentage of those shipments where the actual delivery date occurred after the last date for delivery promised on the order for service or bill of lading.

Line 12: Compute the percentage of those shipments where there was a claim filed within 60 days of the actual date of delivery to the residence. Only count those claims where the dollar value of the amount claimed by the shipper exceeded \$200 and resulted from

property damaged or lost. This excludes claims for late pickups and deliveries which are reported on line 13.

Line 13: Compute the percentage of those shipments where there was a claim filed within 60 days of the actual date of delivery to the residence. Only count those claims where the dollar value of the amount claimed by the shipper exceeded \$200 and resulted from a late pickup or delivery. Late pickups and deliveries are defined in Instructions 10 and 11.

Line 14: Enter the average number of days required to pay, decline, or make a firm compromise offer of settlement of all claims exceeding \$200 during the report year. For the purpose of this report, a claim shall be considered to be a “claim filed” if it meets the criteria set forth in Lines 11 and 12, and shall be considered as paid, declined, or compromised on the date on which a written offer is mailed or delivered in person to a claimant.

Line 15: Compute the percentage of the claims exceeding \$200 arising out of the transportation of shipments which were resolved during the report year through the use of a dispute resolution or arbitration procedure maintained or participated in by the carrier.

Line 16: Compute the percentage of the claims exceeding \$200 arising out of the transportation of shipments which were resolved during the report year as a result of legal notice of suit to recover being filed by the shipper.

Motor common carriers of household goods, as defined in [49 CFR 375.1\(b\)\(1\)](#), may provide in their tariffs for the acceptance of charge cards for the payment of freight charges whenever shipments are transported under agreements and tariffs requiring payment by cash, certified check or money order. Payment by charge card shall be considered the same as payment by cash, certified check or money order. Any tariff rule or item permitting the acceptance of charge cards shall identify the charge card plans participated in by the carrier.
