# NASA SMD Climate Survey

Inclusion is a core value for NASA, and the Agency is committed to creating a culture of inclusion, diversity, equity, and accessibility (IDEA). SMD is examining our current diversity and inclusion landscape and alignment with our stated values. To that end, we are inviting SMD staff to share perspectives of the current SMD cultural environment through this survey. We will use the results to baseline SMD's current cultural climate and inform the IDEA Working Group's ongoing work.

This survey is entirely voluntary and anonymous. We will not collect any individually identifiable information from your responses. We estimate this survey will take 15 minutes to complete. Key findings from the surveys will be made available via the SMD internal IDEA Central SharePoint site.

Please share your honest feedback to the survey questions, and thank you in advance for taking the time to share your perspective. We are eager to listen, learn, and develop based on the insight provided.

Thomas H. Zurbuchen, PhD  
Associate Administrator, NASA Science Mission Directorate
