

Justification for deletion of separate Block Trade IC

The Block Trades and Real Time Reporting IC were merged into one collection (Real Time Reporting), and updated in the November 25, 2020 final rulemaking (85 FR 75422). The Commission's current PRA estimates reflects that 1732 reporting counterparties incur an annual time-burden of 771,831 hours and annual burden cost of \$ 85,849,000.
