

SUPPORTING STATEMENT FOR RENEWAL OF INFORMATION COLLECTIONS

OMB CONTROL NUMBERS 3038-0068, 3038-0083, and 3038-0088¹

Confirmation, Portfolio Reconciliation, Portfolio Compression, and Swap Trading Relationship Documentation Requirements for Swap Dealers and Major Swap Participants

Justification

- 1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

Section 731 of Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act, Pub L. No. 111-203, 124 Stat. 1376 (2010)) (“Dodd-Frank Act”) amended the Commodity Exchange Act (“CEA”) by adding sections 4s(f), 4s(g), and 4s(i), among others.

Pursuant to this authority, the Commission promulgated regulations 23.500-23.505, which obligate swap dealers (“SDs”) and major swap participants (“MSPs”) to develop and retain written swap trading relationship documentation. The regulations also establish requirements for SDs and MSPs regarding swap confirmation, portfolio reconciliation, and portfolio compression. Confirmation, portfolio reconciliation, and portfolio compression are important, post-trade processing mechanisms for reducing risk and improving operational efficiency.

Under the regulations, SDs and MSPs are obligated to maintain records of the policies and procedures required by the rules. SDs and MSPs also are required to develop and retain written records of their swap trading relationship documentation, acknowledgements and confirmations for swap transactions, portfolio reconciliations, and portfolio compression exercises. The information collection obligations imposed by the regulations are necessary to ensure that each swap dealer and major swap participant maintains the required records of their business activities and an audit trail sufficient to conduct comprehensive and accurate trade reconstruction. The final regulations are essential to ensuring that SDs and MSPs document their swaps, reconcile their swap portfolios to resolve discrepancies and disputes, and wholly or partially terminate some or all of their outstanding swaps through regular portfolio compression exercises.

¹ Historically, PRA Collections 3038-0068, 3038-0083, and 3038-0088 were renewed as a consolidated collection. See 82 FR 6241 (Feb. 5, 2016). However, on April 1, 2019, the CFTC published an interim final rule (“IFR”), which allowed uncleared swaps to retain legacy status when transferred in connection with what was, at the time, a potential no-deal Brexit. See 84 FR 12065 (Apr. 1, 2019). As the IFR only affected the calculation of burdens in PRA collection 3038-0088, collection 3038-0088 was considered separately from collections 3038-0068 and 3038-0083 for purposes of incorporating the burdens related to the IFR. *Id.* Since there is no need now to separate collection 3038-0088 for purposes of renewing these three collections, this Supporting Statement once again will treat collections 3038-0068, 3038-0083, and 3038-0088 as a consolidated collection.

- 2. Indicate how, by whom, and for what purpose the data would be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

Commission staff use the information required to be preserved when conducting the Commission's examination and oversight program with respect to the affected registrants.

- 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

The regulations require that recordkeeping generally be performed in accordance with Commission regulation 1.31, which permits the use of electronic storage media.

- 4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

SDs and MSPs were new categories of registrants created under the Dodd-Frank Act. Accordingly, the required information was not already collected by the Commission for any other purpose before the promulgation of the Dodd-Frank Act. This information is not collected by any other agency or available for public disclosure through any other source.

- 5. If the collection of information involves small business or other small entities (Item 5 of OMB Form 83-I), describe the methods used to minimize burden.**

The collection of the required information does not involve any small businesses or small entities.

- 6. Describe the consequence to the Federal Program or policy activities if the collection were conducted less frequently as well as any technical or legal obstacles to reducing burden.**

Failure to maintain the records required by the regulations would adversely affect the Commission's ability to ensure the affected registrants' compliance with their obligations under the CEA and Commission regulations to document their swaps, reconcile their swap portfolios to resolve discrepancies and disputes, and wholly or partially terminate some or all of their outstanding swaps through regular portfolio compression exercises. Failure to comply with the reporting requirements established by the regulation would prevent the Commission from receiving timely notification of unresolved swap valuation disputes.

- 7. Explain any special circumstances that require the collection to be conducted in a manner:**

- requiring respondents to report information to the agency more often than quarterly;**

Many of the reporting requirements (e.g., reporting of certain valuation disputes) are event-based, and could occur more often than quarterly based on the occurrence or non-occurrence of certain events.

- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**

This question does not apply. The collections do not contain such a requirement.

- **requiring respondents to submit more than an original and two copies of any document;**

This question does not apply. The regulations do not impose any requirements that would obligate a respondent to submit more than an original and two copies of any document.

- **requiring respondents to retain records other than health, medical, government contract, grant-in-aid, or tax records, for more than three years;**

The recordkeeping requirements set forth in the regulations mandate that records be maintained in accordance with Commission regulation 23.203 and, by extension, Commission regulation 1.31. Commission regulation 1.31 requires that books and records required to be kept by the CEA or Commission regulations be retained for certain specified periods. Other than with respect to oral communications, the shortest of these periods is five years from the date of creation.

- **in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;**

This question does not apply. The regulations do not require nor involve any statistical surveys.

- **requiring the use of a statistical data classification that has not been reviewed and approved by OMB;**

This question does not apply. The regulations do not require nor involve the use of any statistical data classification.

- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**

This question does not apply. The regulations do not require a pledge of confidentiality.

- **requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

The Commission fully complies with section 8(a)(1) of the CEA, which strictly prohibits the Commission, unless specifically authorized by the CEA, from making public “data and information that would separately disclose the business transactions or market public positions of any person and trade secrets or names of customers.” The Commission has procedures to protect the confidentiality of a respondent’s data. These are set forth in the Commission’s regulations at part 145 of the Code of Federal Regulations.

8. **If applicable, provide a copy and identify the date and page number of publication in the *Federal Register* of the agency's notice required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.**

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping disclosure, or reporting format (if any, and on the data elements to be recorded, disclosed, or reported).

The Commission published a *Notice of Intent to Extend Collections 3038-0068, 3038-0083, and 3038-0088: Confirmation, Portfolio Reconciliation, Portfolio Compression, and Swap Trading Relationship Documentation Requirements for Swap Dealers and Major Swap Participants* in the Federal Register. See ● FR ● (●, 2022). The notice provided a 60-day period during which the public was invited to comment on the information collections and the burdens imposed by them. The Commission [did not receive any] relevant comments on the 60-day Federal Register notice.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

This question does not apply. No such circumstances are anticipated.

9. **Explain any decision to provide any payment or gift to respondents, other than payment of contractors or grantees.**

This question does not apply. No decision to provide any payment or gift to respondents has been made.

10. **Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulations, or agency policy.**

The Commission does not provide respondents with an assurance of confidentiality beyond that provided by applicable law. The Commission fully complies with section 8(a)(1) of the CEA, which strictly prohibits the Commission, unless specifically authorized by the CEA, from making public “data and information that would separately disclose the business transactions or

market public positions of any person and trade secrets or names of customers.” The Commission has procedures to protect the confidentiality of a respondent’s data. These are set forth in the Commission’s regulations at part 145 of the Code of Federal Regulations.

- 11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

This question does not apply. The regulations do not request or require the provision of sensitive information, as that term is used in question 11.

- 12. Provide estimates of the hour burden of the collection of information. The Statement should:**

- Indicate the number of respondents, frequency of response, annual hour burden and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than ten) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.**
- If the request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.**
- Provide estimates of annualized cost to respondents for the hours burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 13.**

See Attachment A.

In light of the current number of Commission-registered SDs and MSPs, the total number of respondents (combined SDs and MSPs) is estimated to be 107 and the aggregate hour burdens set forth below in Attachment A are based on that estimate. The Commission continues to estimate that each SD or MSP will have, on average, 540 counterparties.

The annualized costs per affected registrant and in the aggregate were determined using an average salary of \$100.00 per hour. The Commission believes that this is an appropriate salary estimate for purposes of these collections.

In support of this determination, the Commission notes that the salary estimate is based upon May 2020 Bureau of Labor Statistics' findings of National Occupation Employment and Wage Estimates, United States, including the mean hourly wage of an employee under occupation code 23-1011, "Lawyers," that are employed by the "Securities, Commodity Contracts, and Other Financial Investments and Related Activities Industry," which is \$97.06; the mean hourly wage of an employee under occupation code 11-3031, "Financial Managers," in the same industry, which is \$99.06; and the mean hourly wage of an employee under occupation code-13-1041, "Compliance Officers" in the same industry, which is \$45.29. The Commission also notes that, the Commission took the foregoing data and then increased its hourly wage estimate in recognition of the fact that some respondents may be large financial institutions whose employees' salaries may exceed the mean wage. The Commission recognizes that some respondents may hire outside counsel with expertise in the various regulatory areas covered by the combined final regulations and that outside counsel may be able to leverage its expertise to substantially reduce the number of hours needed to fulfill a requested assignment. While the Commission is uncertain about the billing rates that these respondents may pay for outside counsel, the Commission believes that such counsel may bill at a rate of several hundred dollars per hour. Any determination to use outside counsel, however, is at the discretion of the respondent.

The burden hour estimates for each collection are as follows:

Confirmation, Portfolio Reconciliation, and Portfolio Compression (Control Number 3038-0068):

Drafting and Updating Policies and Procedures. This hourly burden arises from the time necessary to develop and periodically update the policies and procedures required by the regulations.

Number of registrants: 107.

Frequency of collection: initial implementation, updating as needed.

Estimated number of annual responses per registrant: 1.

Estimated aggregate number of annual responses: 107.

Estimated annual hour burden per registrant: 40 hours.

Estimated aggregate annual hour burden: 4,280 burden hours [107 registrants x 40 hours per registrant].

Acknowledgment and Confirmation Recordkeeping. This hourly burden arises from the requirement that SDs and MSPs make and maintain records of the date and time of transmission to, or receipt from, a counterparty of an acknowledgment or confirmation; the length of time between the acknowledgment and confirmation of each swap; and the length of time between the execution and confirmation of each swap.

Number of registrants: 107.

Frequency of collection: daily.

Estimated number of annual responses per registrant: 252 [252 trading days].

Estimated aggregate number of annual responses: 26,964 [107 registrants x 252 trading days].
Estimated annual hour burden per registrant: 252 [252 trading days x 1 hour per day].
Estimated aggregate annual hour burden: 26,964 burden hours [107 registrants x 252 hours].

Portfolio Reconciliation Recordkeeping. This hourly burden arises from the requirement that SDs and MSPs make and maintain records of the portfolio reconciliation exercises in which they engage.

Number of registrants: 107.
Frequency of collection: daily, weekly, quarterly, or annually.
Estimated number of annual responses per registrant: 8,120.
Estimated aggregate number of annual responses: 868,840 [107 registrants x 8,120 responses].
Estimated annual hour burden per registrant: 804 hours [8,120 responses x .099 hours per response = 803.88, rounded up equals 804].
Estimated aggregate annual hour burden: 86,028 burden hours [107 registrants x 804 hours per registrant].

Portfolio Compression Recordkeeping. This hourly burden results from the requirement that SDs and MSPs make and maintain records of the bilateral offsets and portfolio compression exercises in which they participate.

Number of registrants: 107.
Frequency of collection: as needed.
Estimated number of annual responses per registrant: 1,029 [24 multilateral compression records + 465 bilateral compression exercise records + 540 bilateral offset records].
Estimated aggregate number of annual responses: 110,103 [107 registrants x 1,029 responses per year].
Estimated annual hour burden per registrant: 178.5 hours [24 multilateral compression records x .5 hours per record] + [465 bilateral compression exercise records x .3 hours per record] + [540 bilateral offset records x .05 hours per record].
Estimated aggregate annual hour burden: 19,099.5 burden hours [107 registrants x 178.5 hours per registrant].

Orderly Liquidation Termination Notice (Control Number 3038-0083):

Orderly Liquidation Termination Notice Provision. This hourly burden results from the notice that SDs and MSPs must include in the trading relationship documentation that they execute with their counterparties regarding events that will transpire if the FDIC is appointed as a receiver.

Number of registrants: 107.
Frequency of collection: At least once per counterparty.
Estimated number of annual responses per registrant: 540 [one per counterparty].
Estimated aggregate number of annual responses: 57,780 [107 registrants x 540 counterparties].
Estimated annual hour burden per registrant: 270 [540 counterparties x .5 hours per counterparty].
Estimated aggregate annual hour burden: 28,890 [107 registrants x 270 hours per registrant].

Swap Trading Relationship Documentation (Control Number 3038-0088):

Drafting and Updating Policies and Procedures. This hour burden arises from the time necessary to develop and periodically update the policies and procedures required by the regulations.

Number of registrants: 107.

Frequency of collection: Initial drafting, updating as needed.

Estimated number of annual responses per registrant: 1.

Estimated aggregate number of annual responses: 107.

Estimated annual hour burden per registrant: 16 hours.

Estimated aggregate annual hour burden: 1,712 burden hours [107 registrants × 16 hours per registrant].

Swap Trading Relationship Documentation (excluding cleared swaps records). This hour burden arises from the obligation that SDs and MSPs execute and maintain swap trading relationship documentation.

Number of registrants: 107.

Frequency of collection: At least once per counterparty.

Estimated number of annual responses per registrant: 540 [one set of agreements per counterparty].

Estimated aggregate number of annual responses: 57,780 [107 registrants × 540 counterparties].

Estimated annual hour burden per registrant: 5,400 [540 counterparties × 10 hours per counterparty].

Estimated aggregate annual hour burden: 577,800 [107 registrants × 5,400 hours per registrant].

Cleared Swap Recordkeeping. This hourly burden arises from the requirement that SDs and MSPs make and maintain records of specified information related to each swap accepted for clearing by a derivatives clearing organization.

Number of registrants: 107.

Frequency of collection: Daily.

Estimated number of annual responses per registrant: 252 [252 trading days per year].

Estimated aggregate number of annual responses: 26,964 [107 registrants × 252 trading days].

Estimated annual hour burden per registrant: 504 [252 trading days × 2 hours per trading day].

Estimated aggregate hour burden: 53,928 [107 registrants × 504 hours].

Audit Recordkeeping. This hourly burden arises from the requirement that SDs and MSPs make and maintain records of the results of their annual internal or external audits to examine for compliance with the requirements of the regulations.

Number of registrants: 107.

Frequency of collection: Annually.

Estimated number of annual responses per registrant: 1.

Estimated aggregate number of annual responses: 107 [107 registrants × 1].
Estimated annual hour burden per registrant: 120.
Estimated aggregate annual hour burden: 12,840 [107 registrants × 120 hours].

End user Exception Documentation Recordkeeping. This hourly burden arises from the requirement that SDs and MSPs make and maintain records of its end user exception documentation.

Number of registrants: 107.
Frequency of collection: Once per applicable counterparty.
Estimated number of annual responses per registrant: 220.
Estimated aggregate number of annual responses: 23,540 [107 registrants × 220 responses].
Estimated annual hour burden per registrant: 220 [220 responses × 1 hour per response].
Estimated aggregate annual hour burden: 23,540 [107 registrants × 220 responses].

Valuation Dispute Reporting. This hourly burden arises from the requirement that SDs and MSPs submit reports of certain unresolved valuation disputes.

Number of registrants: 107.
Frequency of collection: As applicable.
Estimated number of annual responses per registrant: 240.
Estimated aggregate number of annual responses: 25,680 [107 registrants × 240 responses].
Estimated annual hour burden per registrant: 24.
Estimated aggregate annual hour burden: 2,568 [107 registrants × 24 hours].

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).

- **The cost estimate should be split into two components; (a) a total capital and start-up cost component (annualized over its expected useful life) and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major costs factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software, monitoring, sampling, drilling and testing equipment, and record storage facilities.**
- **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate, agencies may consult with a sample of respondents (fewer than ten), utilize the 60-day pre-OMB submission public comment process and use**

existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.

- **Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.**

The information collections required by the regulations would not involve any capital or start-up capital, operations or maintenance costs as the Commission anticipates that these costs have already been incurred by the 107 SD and MSP registrants and are part of customary or usual business practices.

- 14. Provide estimates of the annualized costs to the Federal Government. Also provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing and support staff), and any other expense that would not have been incurred without this collection of information. Agencies may also aggregate cost estimates from Items 12, 13, and 14 in a single table.**

The regulations do not impose any additional costs to the Federal Government.

- 15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB Form 83-I.**

In light of the increased number of Commission-registered SDs and MSPs, the total number of respondents (combined SDs and MSPs) is being increased to 107. The overall burden hours for each collection have increased proportionally, to reflect the increase in the number of respondents. The burden hours per response and burden hours per respondent have not changed.

- 16. For collection of information whose results are planned to be published for statistical use, outline plans for tabulation, statistical analysis, and publication. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

This question does not apply. The information that is the subject of this collection is not published for statistical use.

- 17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

This question does not apply. The Commission is not seeking such approval for these collections.

- 18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB Form 83-I.**

This question does not apply. There are no exceptions to the statement

Attachment A

Part 23 – Confirmation, Portfolio Reconciliation, Portfolio Compression, and Swap Trading Relationship Documentation Requirements for Swap Dealers and Major Swap Participants

Confirmation, Portfolio Reconciliation, and Portfolio Compression (OMB Control Number 3038-0068)

Requirement	Estimated Number of Registrants Per Year	Frequency of Response	Number of Responses Per Registrant Annually	Aggregate Number of Responses Annually	Estimated Average Number of Hours Per Response	Estimated Annual Hour Burden Per Registrant	Estimated Aggregate Hour Burden	Estimated Annual Cost Per Registrant ²	Estimated Aggregate Annual Cost ³
Recordkeeping Drafting & Updating Policies and Procedures	107	Initial creation, updating as needed	1	107	40 hours	40 hours	4,280 hours	\$4,000 [40 hours x \$100]	\$428,000 [107 x \$4,000]
Recordkeeping Acknowledgement and Confirmation	107	Daily	252	26,964	1 hour	252 hours	26,964 hours	\$25,200 [252 hours x \$100]	\$2,696,400 [107 x \$25,200]
Recordkeeping Portfolio Reconciliation	107	Daily, weekly, quarterly, or annually	8,120	868,840	.099 hours	804 hours	86,028 hours	\$80,400 [804 hours x \$100]	\$8,602,800 [107 x \$80,400]
Recordkeeping Portfolio Compression	107	As needed	1,029	110,103	.17 hours	178.5 hours	19,099.5 hours	\$17,850 [178.5 hours x \$100]	\$1,909,950 [107 x \$17,850]

² For purposes of these cost estimates, an hourly wage rate of \$100 was used. Thus, the figures in this column reflect the “Estimated Annual Hour Burden Per Registrant” multiplied by \$100.

³ The figures in this column reflect the “Estimated Number of Registrants Per Year” multiplied by the “Estimated Annual Cost Per Registrant.”

Orderly Liquidation (OMB Control Number 3038-0083):

Requirement	Estimated Number of Registrants Per Year	Frequency of Response	Number of Responses Per Registrant Annually	Aggregate Number of Responses Annually	Estimated Average Number of Hours Per Response	Estimated Annual Hour Burden Per Registrant	Estimated Aggregate Hour Burden	Estimated Annual Cost Per Registrant ⁴	Estimated Aggregate Annual Cost ⁵
<u>Recordkeeping</u> Orderly Liquidation Termination Notice Provision	107	At least once per counterparty	540	57,780	.50 hours	270 hours	28,890 hours	\$27,000 [270 hours x \$100]	\$2,889,000 [107 x \$27,000]

⁴ For purposes of these cost estimates, an hourly wage rate of \$100 was used. Thus, the figures in this column reflect the “Estimated Annual Hour Burden Per Registrant” multiplied by \$100.

⁵ The figures in this column reflect the “Estimated Number of Registrants Per Year” multiplied by the “Estimated Annual Cost Per Registrant.”

Swap Trading Relationship Documentation (OMB Control Number 3038-0088):

Requirement	Estimated Number of Registrants Per Year	Frequency of Response	Number of Responses Per Registrant Annually	Aggregate Number of Responses Annually	Estimated Average Number of Hours Per Response	Estimated Annual Hour Burden Per Registrant	Estimated Aggregate Hour Burden	Estimated Annual Cost Per Registrant	Estimated Aggregate Annual Cost ⁶
Recordkeeping Drafting and Updating Policies and Procedures	107	Initial drafting, updating as needed	1	107	16	16 hours	1,712 hours	\$1,600 [16 hours x \$100]	\$171,200 [107 x \$1,600]
Recordkeeping Swap Trading Relationship Documentation (excluding cleared swap records)	107	At least once per counterparty	540	57,780	10	5,400 hours	577,800 hours	\$540,000 [(5,400 hours x \$100)]	\$65,002,500 [107 x \$607,500]
Recordkeeping Cleared Swaps	107	Daily	252	26,964	2	504 hours	53,928 hours	\$50,400 [504 hours x \$100]	\$5,392,800 [107 x \$50,400]
Recordkeeping Audit	107	Annually	1	107	120	120 hours	12,840 hours	\$12,000 [120 hours x \$100]	\$1,284,000 [107 x \$12,000]
Recordkeeping End User Exception	107	Once per applicable counterparty	220	23,540	1	220 hours	23,540 hours	\$22,000 [220 hours x \$100]	\$2,354,000 [107 x \$22,000]
Reporting Valuation Disputes	107	As applicable	240	25,680	.10	24 hours	2,568 hours	\$2,400 [24 hours x \$100]	\$256,800 [107 x \$2,400]

⁶ The figures in this column reflect the “Estimated Number of Registrants Per Year” multiplied by the “Estimated Annual Cost Per Registrant.”
