Questions:

1. What would you like to see this effort accomplish?
2. What issues need to be discussed?
3. Of those issues, which do you feel are most important?
4. What is important to you about the topic we're discussing?
5. What are the categories of stakeholders affected by these issues?
6. Which category of stakeholders do you identify with, if any?
7. Who do you feel would be a good choice to represent your interests in dialogue around these issues?
8. What criteria do you believe to be important in determining who represents your interests?
9. In your view, is consensus achievable?
10. What obstacles, if any, do you perceive in reaching consensus?
11. What ground rules or parameters are needed for discussions, deliberations, and/or negotiations associated with this effort?
12. Who needs to be involved?
13. Are you willing and able to participate if asked?
14. What informational needs do you have in order to participate fully?
15. What would make it easier for you to be engaged in dialogue around these issues?
16. What would make it difficult for you to be engaged in dialogue around these issues?
17. What should engagement look like for your stakeholder group?
18. What would be the impact to you and/or your stakeholder group if the options being considered were adopted?
19. Which individuals (or roles) must be included?
20. What are your views on the issues and options being considered?
21. What is not being considered that should be considered?
22. Who else should we talk to? Why?
23. What questions or concerns do you have?
24. What else do we need to know?
